 Examination for C/W and Beneficial Use

County Bingham

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 34114
Permit No. G- 26238
District No.

1. Name of Applicant: IVAN O. THUESON
Postoffice address: Aberdeen, Rt. #1 Box ⁶⁵ County: Bingham State: Idaho
2. Quantity of water claimed: 1.6 cu. ft. or 80 inches.
 - (a) Rate of withdrawal in cubic feet per second. 1.60 or Idaho
Miners' inches 80 or gallons per minute. 625 gal. P. M. through a sprinkler system.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean water from a drilled well.
4. Location of point of diversion or well is in the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 18
Twp. 6 S., Rge. 31 E., B.M., County of Bingham
5. Water is to be used for: Irrigation of crops on 80 acres of land.
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Drilled well, cased with 12" steel casing
8. Estimated cost of works: \$ 6,000.00
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir: None
10. The time required for the completion of such work and complete application of the water to the proposed use is Two (2) years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 50 inches or 80 shares in Aberdeen-Springfield Canal Co.
 - (a) 80 (~~cubic feet per second~~, inches or ~~gallons per minute~~) of the water herein applied for is to be ~~supple-~~
ment supplement
mental to the existing water rights. & present water will be transferred to lands up the canal.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

May 23, 1958

Re: Permit No. G-26238

Mr. Ivan O. Thueson
1251 Lake Ave.
Idaho Falls, Idaho

Dear Mr. Thueson:

Enclosed is the Certificate of Completion of Works and the License and Certificate of Water Right issued under Permit No. G-26238 confirming the right with priority of March 6, 1956, to the use of .88 second foot of subterranean water, with the point of diversion in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 18, for irrigation of 80 acres in the N $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 18, Township 6 South, Range 31 East, B. 1.

Enclosed also is departmental receipt #G-3314 for \$9.00, issued as receipt of the five dollar fee for the Certificate of Completion of Works and four dollars for the license fee.

In order to obtain a water right of one inch per irrigable acre for your eighty acres, it will be necessary for you to file a new application for Permit. By increasing your water supply, you can file on an additional 36 inches or .72 cubic foot per second for the same land and from the same point of diversion or from a different point of diversion or source of supply.

In case you do wish to file on more water, we enclose a blank Application for Permit for filing on subterranean water. If you wish to file from a different source of supply, such as surface water, a different form of application is required and will be furnished to you at your request.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. G-26238

Mr. Ivan O. Theuson
1251 Lake Ave.
Idaho Falls, Idaho

Dear Mr. Theuson:

Our field engineer's report on his inspection of completion of works and application of water to beneficial use under the terms of Permit No. G-26238 shows the well is capable of conveying 44 miners' inches (.88 c.f.s.) of water for irrigation of 80 acres.

Upon receipt of the statutory fees, totaling \$9.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (four dollars—based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of March 6, 1956, to the use of .88 second foot of subterranean water, with the point of diversion in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 18, for irrigation of 80 acres in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 18, Township 6 South, Range 31 East, B.M.

Very truly yours,

Dear Mr. Thueson:

This acknowledges receipt of the depositions of Holder and two witnesses, also, the affidavit of publication in The Aberdeen Times in proof of Completion of Works and Beneficial Use under Permit No. G-26238.

Before final action is taken the law requires that a field examination be made by an engineer from this department. We cannot say just when this examination will be made but our field engineer will contact you prior to the time he is to make the examination so that you can arrange to show him over the ground.

We return the statement of cost from The Aberdeen Times as we do not require it for our files and you may wish to keep it in your file.

Very truly yours,

MARK R. KULP

✓
Permit No. G-26238

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. ✓ Ivan O. Thueson; 1251 Lake Ave., Idaho Falls, Idaho
Farmer and construction worker

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. None

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. ✓ G-26238 - March 8, 1956 Priority date - March 8, 1956

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean well in the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ Section 18, Township 6S
Range 31 East, Boise Meridian.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Sprinkler pipe system, they are capable of handling 1.6 second feet. Well is 130 feet deep, cased 90 feet; 14 inch casing. The pump is a 5 inch centrifugal discharge, deep well (manufacturers specifications). Sprinkler system has 51 nozzles at present and operates at 40 - 45 pounds pressure.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation on N $\frac{1}{2}$ of NE $\frac{1}{4}$ of Section 18, Township 6S, Range 31E BM
80 acres - Cultivated land. All ditches and levies have been
eliminated and 15 acres of high ground have been reclaimed.

G26238

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. None

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. None

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Same person

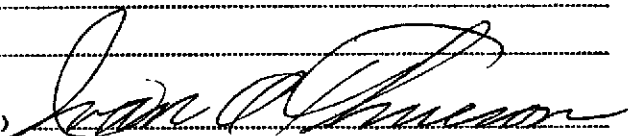

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Started diverting the water in 1956 by well and sprinkler system. It is used for entire irrigation of 80 acres during crop season.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign)

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Aberdeen, County of Bingham

Permit No. G 26238

Proof of Application of Water to Beneficial Use

Deposition of Witness^{and} Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Arthur E. Leisy; 42; Aberdeen, Idaho; Farmer; Aberdeen, Idaho

Ques. 2. Are you acquainted with Ivan O. Thueson, the holder of Permit No. G 26238? How long have you known him and where does he reside?

Ans. 4 years Idaho Falls, Idaho

Ques. 3. Have you read or heard read said Permit No. G 26238, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean well in the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ Section 18 Township 6S
Range 31 East, Boise Meridian. Sprinkler system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1.6 Second feet I have seen 1 second foot being used.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 459 gallons per minute. Number of sprinkler heads and amount per head.

26238

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation on N $\frac{1}{2}$ of NE $\frac{1}{4}$ Section 18, Township 6S, Range 31 E ~~18~~ BM
80 acres - Cultivated land. All ditches and levies have been
eliminated and 15 acres of high ground have been reclaimed.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. High ground. 15 inches of water.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. My farm lies next to this ground and have observed the operation.

(Signed) Arthur E. Leisy

Permit No. G-26238

Proof of Application of Water to Beneficial Use

Deposition of Witness ^{and Completion of Works}

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. M. Ballard Cooper; 38; Aberdeen, Idaho; Merchant; Aberdeen, Idaho

Ques. 2. Are you acquainted with Ivan O. Thueson, the holder of Permit No. G-26238? How long have you known him and where does he reside?

Ans. 30 years - Idaho Falls, Idaho

Ques. 3. Have you read or heard read said Permit No. G 26238, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean well in the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ Section 18 Township 6S
Range 31 East, Boise Meridian. Sprinkler system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1.6 second feet - I have seen 1 second foot being used.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 459 gallons per minute. Number of sprinkler heads and amount per head.

G 26238

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation on N $\frac{1}{2}$ of NE $\frac{1}{4}$ Section 18, Township 6S, Range 31E BM
80 acres - Cultivated land. All ditches and levies have been
eliminated and 15 acres of high ground have been reclaimed.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. High ground. 15 inches of water.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have talked with the Soil Conservation Service engineer, who
designed the project, also the farm operator, who resides on the farm.
I have been on the farm during the operation of project.

RE: Permit No. G-26238

Mr. Ivan O. Thueson
1251 Lake Ave.
Idaho Falls, Idaho

Dear Mr. Thueson:

This acknowledges receipt of the Notice of proofs of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26238, to be made at 2:00 P.M. at Aberdeen on the 3th day of March, before Mr. Lavon L. Warner, Notary Public.

As of this date, we have mailed the Notice to the Aberdeen Times, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and to then mail the affidavit of publication and statement of costs to you.

In completing the enclosed depositions, it is very important that they be executed by you and two disinterested witnesses, who are familiar with the terms and the work done thereunder, at the time date, place and before the Notary as advertised in the publication Notice, as well as all other necessary information called for. The signatures and the Notary's seal are essential.

When returning the depositions, to this office, please be sure to include the affidavit of publication.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

RE: Permit No. G-26238

Date January 1, 1958

Thurson
Mr. Ivan O. Thurson
Route #1
Aberdeen, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-26238 are due not later than March 8, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper with the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Mr. Thueson:

In reply to your letter of February 24, 1956, we enclose a form of application for permit to appropriate subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of completion of works and application of the water to beneficial use are required. The time required for making these proofs should be indicated under Question 10.

Very truly yours,
