License and Certificate of Water Right

Water License No G-25691

Amount 2.6 c.f.s.

Water District No

Priority May - 11, 1955

THIS IS TO CERTIFY that WILSON NOWELS
 of Aberdeen, Idaho, made application for a permit to appropriate the
 public waters of the State of Idaho dated May - 11, 19 55, that Permit No G-25691
 was issued under said application that Certificate of Completion of works, with a carrying capacity of
 2.6 second feet, was issued thereunder on July 26, 19 57, showing that said works
 were completed on the 20th day of March, 19 57, and that on the 20th
 day of March, 19 57, WILSON NOWELS

of Aberdeen, State of Idaho, made proof to the satisfaction of the
 State Reclamation Engineer of Idaho, of the right to use the waters of a well
 , a tributary of subterranean, for the purpose of Irrigation
 , under Use Permit No G-25691 of the Department of Reclamation
 and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
 and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
 10 of Licenses at page 6053, on the 26th day of July, 19 57,
 The right hereby confirmed dates from May - 11, 1955,

The Point of Diversion is located North-south center line of the NE $\frac{1}{4}$
 in the $\frac{1}{4}$ $\frac{1}{4}$ Sec 12, Tp 6 S., R 30 E., B M County Bingham
 That the amount of water to which such right is entitled and hereby confirmed for the purposes
 aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
 not exceed 2.6 cubic feet per second

Mr. Wilson Howels
P. O. Box 1072
Aberdeen, Idaho

Dear Mr. Howels:

Enclosed is the Certificate of Completion of Works and the License and Certificate of Water Right issued under Permit No. G-25691, confirming the right with a priority of May - 11, 1955, to your use of 2.6 second feet of subterranean water with the point of diversion in the north-south center line of the NE $\frac{1}{4}$ of Section 12, for irrigation of 136 acres in the NE $\frac{1}{4}$ of Section 12, Township 6 South, Range 30 East, B.M.

Also enclosed is departmental receipt #G-2780 for \$28.00 issued as receipt of the five dollar fee for the Certificate of Completion of Works and eight dollars for the License, a total of thirteen dollars. The balance of the amount of the receipt is for fees paid in connection with Permit No. G-22942.

Re: Permit No. G-25691

Mr. Wilson Nowels
P. O. Box 1072
Aberdeen, Idaho

Dear Mr. Nowels:

We have the report made by our field engineer on the inspection of proof of completion of works and application of water to beneficial use under Permit No. G-25691, which shows that your well is capable of conveying 130 miner's inches (2.6 c.f.s.) of water for irrigation of 136 acres. This permit is now entitled to a Certificate of Completion of Works and a License and Certificate of Water Right.

Upon receipt of the statutory fee of \$13.00, we will issue the Certificate of Completion of Works (\$5.00) and the License (\$8.00--based at the rate of \$2.00 for each 40-acre subdivision) confirming the right with a priority of May 11, 1955, to your use of 2.6 second feet of the water from subterranean flow with the point of diversion in the north-south center line of the NE $\frac{1}{4}$ of Section 12, for irrigation of 136 acres in the NE $\frac{1}{4}$ of Section 12, Township 6 South, Range 30 East, B.M.

RE: Permit No. G-25691

Wilson Howels
Box 1072
Aberdeen, Idaho

Dear Mr. Howels:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in The Aberdeen Times, all submitted in proof of completion of works and beneficial use on Permit No. G-25691.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Legal Notice

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 00 a.m. on the 20th day of March, 1957 at Aberdeen County of Bingham State of Idaho before Elmer Isaak, Notary Public proof will be submitted of the completion of works for the diversion of 272 cubic feet per second of underground waters from a well and of the application to beneficial use of said water in accordance with the terms and conditions of Permit No. G 25691 heretofore issued by the Department of Reclamation of the State of Idaho.

1 The location of the postoffice nearest the person or corporation holding said permit are Wilson Nowels, Box 1072,

2 The said works of diversion will be fully completed on the date set for such completion and the amount of water which said works are capable of conveying to the place of use is 272 cubic feet per second.

3 The use to which said water has been applied is irrigation purposes and the amount applied to beneficial use is 272 cubic feet per second.

4 The point of diversion of said water is NE $\frac{1}{4}$ of Section 12 Township 6 South Range 30 E B M.

5 The place where said water is used is Lots one and two and the East half of the West half of the NE $\frac{1}{4}$ of Sec 12 Township 6 South Range 30 E B M.

6 The date of priority which said user is prepared to establish is May 11, 1955.

Permit No. G-25691

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques 1 State your name, residence, occupation and postoffice address

Ans. Wilson Nowels, occupation farmer, residence is Aberdeen, Idaho and
address is Box 1072, Aberdeen, Idaho

Ques 2 If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf

Ans. _____

Ques 3 State number and date of permit, and date of priority you propose to establish under the permit

Ans. Permit No. G-25691 dated May ²⁴ 1955 and date of priority is May 11, 1955

Ques 4 State source of water supply and give exact location of point of diversion

Ans. source of supply is subterranean from drilled well. Well located on
north-south center line of the NE¹, approx. 1000 feet from the east line
of said NE¹, in Sec. 12, T. 6 S., R. 30 E.B.M.

Ques 5 Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure

Ans. drilled well with overhead sprinkler system. The works will convey at least
136 miners inches. Well is 195 feet deep with 11 feet of 16 inch casing to rock.
Depth to water is 109 feet. There are 165 sprinkling nozzles size $\frac{3}{16}$, operating
at about 45 pounds pressure.

Ques 6 State for what purpose water is used and describe place of use (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use

Ans. Water is used for irrigation. Number of acres irrigated are: Lot 1, 48 acres,
Lot 2, 48 acres and 40 acres in the E¹ & NE¹, Section 12, Township 6 South,
Range 30 E.B.M. The land is all cultivated. Because of the use of the water,
the land has been converted from a dry farm to an irrigated farm.

G25691

Ques 7 If for other than irrigation purposes, state how applied, amount of horse power generated, etc

Ans. _____

Ques. 8 What is the minimum amount of water required for the purpose specified above?

Ans. The land requires an inch to an acre.

Ques 9 If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder

Ans. _____

Ques 10 State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used

Ans. The water has been used to sprinkler irrigate the entire land as shown in the permit for the past two seasons.

Ques 11 State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described Give full particulars regarding such other appropriations and rights claimed thereunder

Ans. _____

(Sign) William M. Mauds

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Aberdeen, County of Bingham,
State of Idaho, on this 20th day of March, A D 1957.

RECEIVED
MAR 2 195
Department of Reclamation

Permit No. G-25691

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case

Ques 1 State your name, age, residence, occupation and postoffice address

Ans. F. B. Grinnett, Age 46, Idaho Power Company manager, residence and post office address is Aberdeen, Idaho

Ques. 2 Are you acquainted with Wilson Nowels, the holder of Permit No. G-25691? How long have you known him and where does he reside?

Ans. I have known Wilson Nowels over 10 years and he resides at Aberdeen, Idaho

Ques 3 Have you read or heard read said Permit No. G-25691, and are you familiar with its provisions and conditions?

Ans. Yes

Ques 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use

Ans. water comes from drilled well with subterranean flow. Water is put on the land from the well through a pump and overhead sprinkling system.

Ques. 5 How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. The works will convey around 3 second feet and I have seen it do this.

Ques 6 (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I estimated the pump would deliver over 140 miners inches. This was estimated from the number of sprinkling nozzles in operation and figuring the amount of water each would throw out.

#25691

Ques 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans Water is used for irrigation. The acres irrigated are: Lot 1- 48 acres,
Lot 2 - 48 acres and 40 acres in the E¹/₂W¹/₂NE¹/₄, all in Section 12, Township
6 South, Range 30 E.B.M. The land is all irrigated and cultivated now.
Before the water was placed on the land, it was a dry farm & growing dry farm wheat

Ques 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans

Ques 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is good soil, no gravel, and for good irrigation in dry years,
it will require 1 miners inch to the acre for

Ques 10 Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans No

Ques 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have watched the development of this irrigated farm since the time
the well was drilled. I have also seen the water being placed on this
land the past two seasons.

Department of Reclamation

Permit No. G-25691

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case

Ques 1 State your name, age, residence, occupation and postoffice address.

Ans Alvin L. Funk, Age 46, occupation - postmaster, residence and postoffice address - Aberdeen, Idaho

Ques 2 Are you acquainted with Wilson Nowels, the holder of Permit No G-25691? How long have you known him and where does he reside?

Ans I have known him about 40 years and he resides at Aberdeen, Idaho

Ques 3 Have you read or heard read said Permit No G-25691, and are you familiar with its provisions and conditions?

Ans Yes

Ques 4 State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use

Ans source is subterranean from drilled well, place of diversion is on the latitudinal center line of the NE $\frac{1}{4}$ of Section 12, T. 6 S., R. 30 E. B.M. approx 1000 feet east of the east line of said section 12, water is conveyed through lateral pipelines to an overhead sprinkler system.

Ques 5 How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans Approximately 140 miners inches, and I have seen that much conveyed.

Ques 6 (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans Approximately 3 cubic feet per second, and I estimated from the length of sprinkler lines and the number of lines into which the pump was pumping directly.

G25691

Ques. 7. State for what purpose water is used and at what place (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation and the acres irrigated are: Lot 1, 48 acres, Lot 2, 48 acres, E 1/4 NE 1/4 - 40 acres. The land is now cultivated and before the water was put onto the land it was dry farm land and produced a crop only in years of good moisture.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent

Ans.

Ques 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is good loamy soil and will require approx. one miners inch to the acre for good cultivation.

Ques 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans No

Ques 11 State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit

Ans. I have seen the land irrigated during the irrigation seasons of 1955 and 1956 a number of times. I have seen the development of the land from the time the well was drilled until the present time when the land is under cultivation (irrigated)

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10. A.M., on the 20th
day of March, 1957, at Aberdeen Bingham, County
of Bingham, State of Idaho, before

Elmer Isaak, Notary Public, proof will be submitted of the completion
of works for the diversion of 2.72 cubic feet per second of underground
waters from a well, and of the application to beneficial use of said water, in
accordance with the terms and conditions of Permit No. G-25691 heretofore
issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding
said permit are Wilson Nowels, Box 1072, Aberdeen, Idaho

2. Said works of diversion will be fully completed on the date set for
such completion, and the amount of water which said works are capable of
conveying to the place of use is 2.72 cubic feet per second.

3. The use to which said water has been applied is irrigation
purposes, and the amount applied to beneficial use is
2.72 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ of Section 12,
Township 6 South, Range 30 E.B.M.

5. The place where said water is used is Lots one and two and the
East half of the West half of the NE $\frac{1}{4}$ of Sec. 12, Township 6 South,
Range 30 E.B.M.

6. The date of priority which said user is prepared to establish is
May 11, 1955.

RE: Permit No. G-25691

Mr. Milton Nowels
Box 1074
Aberdeen, Idaho

Dear Mr. Nowels,

We have your letter of January 31, 1957, stating that you are prepared to make proofs of Completion of Works and Beneficial Use on Permit No. G-25691.

Before these proofs are made, the statutes require publication of a Notice once a week for four weeks in a county newspaper. This Notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the notary public before whom the proofs are to be made.

Both copies of Form 36 to be returned to this Department together with Form 11 which is your authorization for us to have the Notice published at your expense in the designated county newspaper.

We shall then send a copy of the Notice to the newspaper with instructions in regard to publishing and shall send you the forms and conditions to be executed by yourself and two disinterested witnesses in making these proofs.

The proofs may be made at any place convenient for you and your two witnesses but the date must be set far enough ahead to allow for four weeks publication.

Very truly yours,

MARK H. KULP
State Registration Engineer

Re: Permit Nos. 24886, 21775, 25691

Mr. J. N. Marshall, Assistant Loan Agent
John Hancock Mutual Life Insurance Co.
Rushbrouck Building
Idaho Falls, Idaho

Dear Mr. Marshall:

In answer to your letter of October 4, 1956 in which you state:

"In checking our records recently regarding permits we are interested in as mortgagees, we found that several cases had a situation where the proof of completion of works and beneficial use of water have been made but the field inspection was lacking. In the meantime the date for filing such proof had passed.

We assume there is no danger of cancellation of these permits. However, we wish to have you verify this fact."

The Department of Reclamation makes field inspections in connection with all permits before issuing licenses. Field inspections are made subsequent to receiving proofs in this Department. Due to the numerous inspections to be made, there is quite a delay in some instances where a license is held up after proofs have been submitted by the Permit holder awaiting the field inspection report.

Providing the Permit holder completes the requirement of fulfilling the terms of the Permit, and files with the Department, Completion of Works and also Beneficial Use Proof, a permit cannot be cancelled by the Department except where fraud is evident.

Very truly yours,

MARK R. KULP

MARK R. KULP
State Reclamation Engineer

May 13, 1955

Mr. Wilson Nowels
Aberdeen
Idaho

Dear Mr. Nowels:

We are in receipt of your Application for Permit to appropriate 136 inches of water from a well accompanied by your check for the \$5.75 filing fee.

We return the Application for the following corrections:

(1) Answer questions 7 and 8, the kinds of works would probably consist of a well, pump and ditches, or perhaps sprinkler system.

(2) Answer question 10, we can allow 2, 3, or 5 years to complete the works and put the water to Beneficial Use.

(3) Question 12 should give the acreage to be irrigated in each 40 acres subdivision. We are unable to figure this out from your sketch map. The sketch map usually shows North at the top of the page but if we read yours correctly the top of the page is East which would describe your land as the E $\frac{1}{2}$ NE $\frac{1}{2}$ and E $\frac{1}{2}$ NW $\frac{1}{2}$ NE $\frac{1}{2}$ of Section 12.

(4) Answer question 13.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
