Dear Mr. Kidwell:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 25674 are due not later than May 11, 1960

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed, for what purpose it is used; the point of, or points of diversion and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Dear Mr. Marshall:-

We acknowledge receipt of your letter of June 27, 1956  
with the Application for Amendment to the land list enclosed.

We note the land according to the Application for  
Amendment is the NW $\frac{1}{4}$  and the W $\frac{1}{2}$  of Sec 34, Township 1 South,  
Range 35 E. B. 1, rather than NW $\frac{1}{4}$  and the W $\frac{1}{2}$  in Sec. 30,  
Township 1 South, Range 35 East, as given on the original Permit.  
We conclude therefore, that the well or Point of Diversion would  
also be in Sec. 34. If this is correct, we enclose an Application  
for Amendment to the Point of Diversion, which should be completed,  
signed and returned to this office for approval.

Dear Sirs:

Re: Report of J. N. Marshall  
Boise, Idaho

I have the above mentioned report from your office, and on  
check in same re note that it contains the following described  
property:

1. A portion of the right of Section 34, Township 1 North,  
Range 3E, T.1N., R.3E.

This description is obviously erroneous and does not  
correlate with the section described section.

The report should have the following described property, which  
is the correct one:

1. A portion of Section 34 in Township 1 North,  
Range 3E, T.1N., R.3E.

We would appreciate it if you would forward to this office the  
necessary form in order that we can send the description now of record  
to the right place.

Thank you, Sir.

Yours very truly,

RE: Permit No. G-25674

Mr. Thayne Gneiting  
428 Dewey  
Blackfoot, Idaho

Dear Mr. Gneiting:

We do not quite understand your check for \$6.00 received this morning marked "Well Permit Fee".

If this refers to the filing fee on Permit No. G-25674 sent you on May 17 that fee was paid by the Agricultural Service as per receipt No. G-1173 enclosed in our letter of transmittal.

We, therefore, return the check for \$6.00 received this morning.

Very truly yours,
