Residing at Blackfoot, Idaho

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 a.m., on the 2nd day of April, 1957, at Blackfoot, County of Bingham, State of Idaho, before H. William Furchner, Notary Public, proof will be submitted of the completion of works for the diversion of 1.6 cubic feet per second of underground waters from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-25564 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Harold E. Belnap, Route 2, Blackfoot, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.6 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 1.6 cubic feet per second.

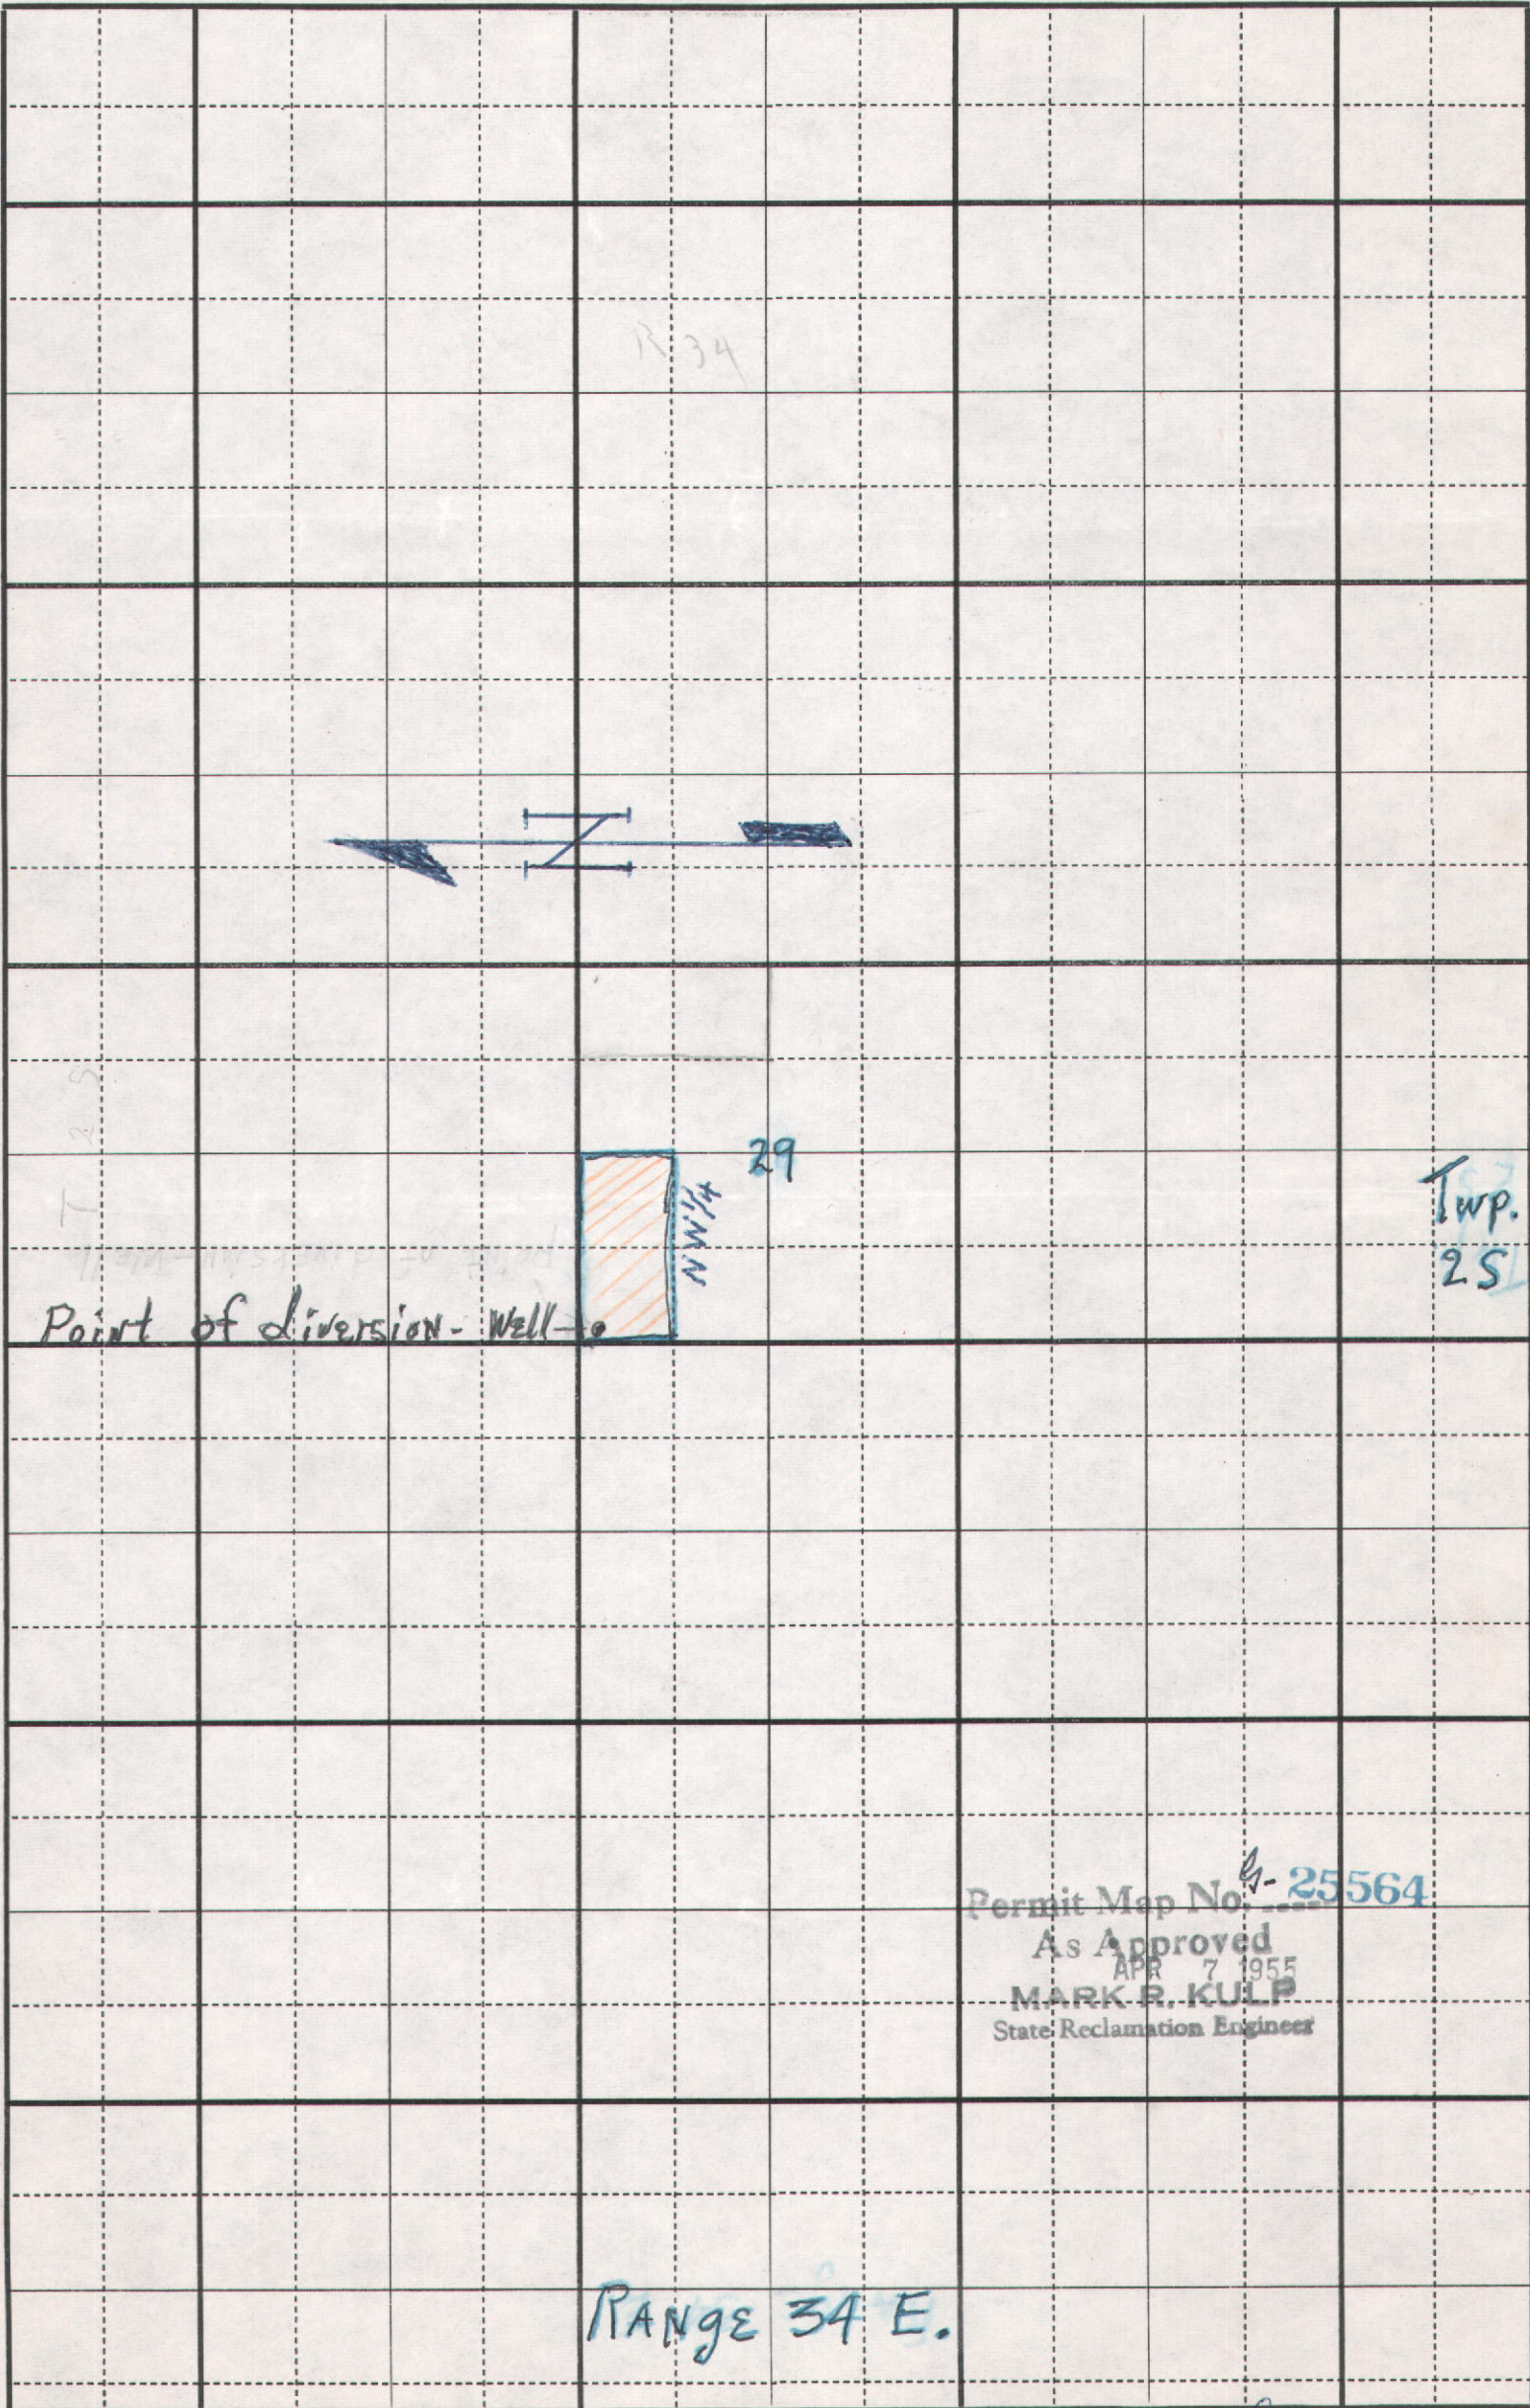

4. The point of diversion of said water is NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 29, Township 2 South, Range 34, East Boise Meridian, in Idaho.

5. The place where said water is used is N $\frac{1}{2}$ NW $\frac{1}{4}$ Section 29, Twp. 2 South, Range 34, East Boise Meridian, in Idaho.

6. The date of priority which said user is prepared to establish is March 30, 1955.

Mark R. Kulp,
State Reclamation Engineer
Pub. March 8-15-22-29.

THIS IS TO CERTIFY that HAROLD E. BELNAP
of Blackfoot, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated March 30, 19 55; that Permit No. G-25564
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
1.6 second feet, was issued thereunder on October 20, 19 61, showing that said works
were completed on the 2nd day of April, 19 57; and that on the 2nd
day of April, 19 57, HAROLD E. BELNAP

of Blackfoot, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean flow, for the purpose of irrigation
, under Use Permit No. G-25564 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
11 of Licenses at page 7186, on the 20th day of October, 19 61;
The right hereby confirmed dates from March 30, 19 55;

The Point of Diversion is located
in the NW 1/4 NW 1/4, Sec. 29, Tp. 2 S, R. 34E, B. M. Bingham County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 1.6 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
2 S.	34 E.	29	NE 1/4 NW 1/4	40	40
			NW 1/4 NW 1/4	40	40
			Total number of acres to be irrigated:		80

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
20th day of October, 19 61.

/s/ RALPH W. THOMAS
Deputy State Reclamation Engineer.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 33427
Permit No. G- 25564
District No.

1. Name of Applicant: HAROLD E. BELNAP
Postoffice address: Route 2, Blackfoot County: Bingham State: Idaho
2. Quantity of water claimed: 1.6 cubic feet per second,
 (a) Rate of withdrawal in cubic feet per second. 1.6 or Idaho
 Miners' inches 80 or gallons per minute.
 (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean from a well
4. Location of point of diversion or well is in the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 29
 Twp. 2S., Rge. 34E., B.M., County of Bingham
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
 Rge. , B.M.
 (b) Waste water or sewage effluent is to be returned to
 at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Well, pump and ditches
8. Estimated cost of works: \$ 3,000.00
9. (a) Is reservoir to be used?
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is Two years.
11. If applicant is a corporation, give:
 I. (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 II. The financial resources of the applicant are (a) Cash on hand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 70 shares of Peoples Canal Water
 (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Re: Permit No. G-25564
Harold E. Belnap

Mr. William Furchner
Attorney At Law
Blackfoot, Idaho

Dear Mr. Furchner:

We have our field engineer's report on the inspection of proof of completion of works and application of water to beneficial use under Permit No. G-25564 (Harold E. Belnap) which shows that his well is capable of conveying 80 miner's inches (1.6 c.f.s.) of water for irrigation of 80 acres. This permit is now entitled to a Certificate of Completion of Works and a License and Certificate of Water Right.

Upon receipt of the statutory fee of \$9.00, we will issue the Certificate of Completion of Works (\$5.00) and the License (\$4.00) confirming the right with a priority of March 30, 1955, to his use of 1.6 second feet of water from subterranean flow with the point of diversion in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 29, for irrigation of 80 acres in the N $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 29, Township 2 South, Range 34 East, B.M.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Dear Mr. Purchner:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in The Daily Bulletin, all submitted in Proof of Completion of Works and Beneficial Use on Permit No. G-25564.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Application for Amendment

POINT OF DIVERSION

Permit No. 25469

Comes now G. A. MILLER
and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. 25469.

That the point of diversion is described in said Permit as being located:

SE¹SE¹, Sec. 11, T. 8 N., R. 2 W., B. M.

That he now requests that the point of diversion be changed to a point located:
in SW¹NE¹, Sec. 10; SE¹SW¹, SW¹SW¹, Sec. 12, T. 8 N., R. 2 W., B. M.

That the reason for desiring to make such change is as follows:

To correct original application for permit.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Boise, Idaho this 14 day of December, 1959

/s/ G. A. Miller

Date of Receipt at Department of Reclamation: December 14, 1959

APPROVAL OF STATE RECLAMATION ENGINEER

I, Geo. N. Carter, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. 25469. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Permit No. G-25564.

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Harold E. Belnap. I live at Rt. 2, Blackfoot, in Bingham County,
Idaho, and am a farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. -----

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-25564, dated April 7, 1955, with priority of
March 30, 1955.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well, located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 29, Twp. 2 $\frac{1}{2}$ So., R. 34,
E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well, 160 feet deep, cased about 6 feet to lava rock, with 14-inch
casing. Equipped with 15 h.p. electric motor and turbine pump. Water
stands at about 45 feet from surface. Water is discharged into ditches
running over the lands irrigated. I estimate that the pump discharges
from 80 to 100 miner's inches of water.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is all used for irrigation of the lands in Section 29, Twp. 2 $\frac{1}{2}$ So,
Range 34, E.B.M., as follows: NW $\frac{1}{4}$ NW $\frac{1}{4}$ -34 acres; NE $\frac{1}{4}$ NW $\frac{1}{4}$ -34 acres. The
lands irrigated are all cultivated, and were improved with fences and
buildings prior to construction of the well.

J25564

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. ---

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. One inch per acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. ----

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I have used the full stream of water for irrigation of the above lands for the past three full seasons, and have diverted canal water to other lands.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None. The irrigation water from Peoples Canal had too far to travel, and much was lost before reaching my lands, and I therefore cannot afford to use it, but rent it out for use on other lands, and will eventually dispose of it.

(Sign)

Harold E. Belsnap

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Blackfoot, County of Bingham,

State of Idaho, on this 2nd day of April, A. D. 1957.

BOISE, IDAHO

RECEIVED
JUN 3 1957
Department of Reclamation

Permit No. G-25564.

Proof of Application of Water to Beneficial Use

Deposition of Witness^{and} Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Leland Jensen. I am 54 years of age and reside at Rt. 2, Blackfoot, Bingham County, Idaho. I am a farmer.

Ques. 2. Are you acquainted with Harold E. Belnap, the holder of Permit No. G-25564? How long have you known him and where does he reside?

Ans. Yes. I have known Mr. Belnap about five years. He resides on the lands described in the above permit, at Rt. 2, Blackfoot, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-25564, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 29, Twp. 2 S., Range 34, E.B.M. It is equipped with a 15 h.p. electric motor and pump, with ditches running over the lands from the well.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate that the well produces 80-90 miners inches of water which flow through the ditches over the said lands.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Same amount, based on my estimate from long experience with irrigation water.

#25564

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is all used for irrigation of the lands in Sec. 29, Twp. 2 So., R. 34, E.B.M., as follows: NW $\frac{1}{4}$ NW $\frac{1}{4}$ -34 acres; NE $\frac{1}{4}$ NW $\frac{1}{4}$ -34 acres. The irrigated lands are all cultivated. Improvements were on the land before the well was constructed.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is a lava ash soil and requires about 1 inch per acre for proper irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. none.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the waters used exclusively for irrigation of the above-described lands for the past three full irrigation seasons. I estimate that 80-90 inches of water were used all of the time.

(Signed) Leland Jensen

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Blackfoot, County of Bingham, State of Idaho, on this 2nd day of April, A. D. 19 57.

Ques. 2. Are you acquainted with Harold E. Belnap, the holder of Permit No. G-25564? How long have you known him and where does he reside?

Ans. Yes. I have known him about 38 years. He resides on the lands described in the permit, at Route #2, Blackfoot, Bingham County, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-25564, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 29, Twp. 2 South, Range 34, East of Boise Meridian. Equipped with 15 h.p. electric motor and pump, with ditches running over the lands from the well.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. About 80 to 90 miner's inches of water.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Same amount, based on my observation, and experience with irrigation for many years.

J 25564

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All used for irrigation of the lands in N $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 29, Twop 2 South, Range 34, E.B.M., as follows: NW $\frac{1}{4}$ -34 acres; NE $\frac{1}{4}$ NW $\frac{1}{4}$ -34 acres. The lands are a lava ash soil, all cultivated. Improvements were already on the land.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. ---

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is a lava ash soil, and requires about 1 inch per acre for proper irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the water used from the said well for irrigation of the above lands for the last three full irrigation seasons.

(Signed) H. G. Klesner

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Blackfoot, County of Bingham, State of Idaho, on this 2nd day of April, A. D. 1957.

H. William Lundberg
Residing at Blackfoot, Idaho. Notary Public.

Re: Permit No. G- 25564

May 29, 1957

To Harold E. Belnap
Route #2
Blackfoot, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. G- 25564 to appropriate the Public Waters of the State of Idaho, have not been complied with as to _____

Completion of Works & Beneficial Use Proofs which were due April 7, 1957

YOU ARE HEREBY notified in compliance with Sec. 42-234, Idaho Code that said Permit No. G- 25564 is hereby held for cancellation.

YOU ARE HEREBY required to show cause before the State Reclamation Engineer on or before sixty days from date of this notice why said Permit should not be cancelled.

Said PERMIT NO. G- 25564 claims the use of 7.6 cubic feet per second of the Subterranean Waters of a well with point of diversion located NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 29., Twp. 2 S., Rge. 34 E., B.M., was approved April 7, 1955.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the 29th day of May, 1957.

Mr. H. William Furchner
Attorney and Counsellor at Law
Blackfoot, Idaho

Dear Mr. Furchner:

We have your letter of February 21, 1957, enclosing Notice for Completion of Works and Beneficial Use proof on Permit No. G-25564, in the name of Harold E. Belnap to be made April 2nd, 1957, before you as Notary Public.

We shall send a copy of the Notice to the Daily Bulletin with instructions to publish it once a week for four weeks prior to that date and to send you the affidavit of publication together with statement of costs.

At the time set, you should contact Mr. Belnap, the Permit holder, to appear before you together with two disinterested witnesses who are familiar with the terms of the Permit and the work done thereunder for the purpose of executing the enclosed depositions.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M., on the 2nd
day of April, 1957, at Blackfoot, County
of Bingham, State of Idaho, before H. William
Furchner, Notary Public,, proof will be submitted of the completion
of works for the diversion of 1.6 cubic feet per second of underground
waters from a well, and of the application to beneficial use of said water, in
accordance with the terms and conditions of Permit No. G-25564 heretofore
issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding
said permit are Harold E. Belnap, Route 2, Blackfoot, Idaho.

2. Said works of diversion will be fully completed on the date set for
such completion, and the amount of water which said works are capable of
conveying to the place of use is 1.6 cubic feet per second.

3. The use to which said water has been applied is irrigation
purposes, and the amount applied to beneficial use is
1.6 cubic feet per second.

4. The point of diversion of said water is NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 29,
Township 2 South, Range 34, East Boise Meridian, in Idaho.

5. The place where said water is used is N $\frac{1}{2}$ NW $\frac{1}{4}$ Section 29,
Twp. 2 South, Range 34, East Boise Meridian, in Idaho.

6. The date of priority which said user is prepared to establish is
March 30, 1955.
