License and Certificate of Water Right

Water License No. G-25534 Amount 2.64 c.f.s.
Water District No. Priority March 22, 1955

THIS IS TO CERTIFY that J. W. VANDERFORD
of Aberdeen, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated March 22, 1955; that Permit No. G-25534
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2.64 second feet, was issued thereunder on June 11, 1958, showing that said works
were completed on the 1st day of October, 1957; and that on the 1st
day of October, 1957, J. W. VANDERFORD

of Aberdeen, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean, for the purpose of Irrigation
, under Use Permit No. G-25534 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
10 of Licenses at page 6346, on the 11th day of June, 1958;
The right hereby confirmed dates from March 22, 1955;

The Point of Diversion is located
in the NW 1/4 NW 1/4, Sec. 19, Tp. 5 S., R. 31 E., B. M. County Bingham
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 2.64 cubic feet per second.

Description and location of use:

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 33403
Permit No. G- 25534
District No.

J. W. Vanderford
Aberdeen
Idaho

1. Name of Applicant: J. W. VANDERFORD
Postoffice address: Aberdeen County: Bingham State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 4.8 or Idaho
Miners' inches 240 or gallons per minute. 2160
 - (b) Annual withdrawal in acre feet per annum 1200
3. Source of water supply: Subterranean
4. Location of point of diversion or well is in the / NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 19
Twp. 5 So., Rge. 31 E., B.M., County of Bingham, State of Idaho
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Well and Pump with Electric Motor; with sprinkling system
8. Estimated cost of works: \$ 15410.00
9. (a) Is reservoir to be used?
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is five years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) 240 Minches (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Applicant.

MEMORANDUM

To: File 35-2409
From: L. Glen Saxton 
RE: INQUIRY FROM JIM CHRISTIANSEN
Date: July 20, 1992

On this date I returned a call to Jim Christiansen and his son Joey relative to a phone inquiry to the Director. (Jim - 226-5001 and Joey - 397-4347 or 397-5282).

Christiansens use license 35-2409 for the irrigation of about half of the licensed place of use. The water for the other half is provided through shares of stock purchased from the Aberdeen Springfield Canal Co. This surface water either has been shut off or will be shut off soon causing the Christiansens to determine alternatives for additional water.

It appears the 90 acres of concern are within the licensed place of use for 35-2409.

This situation does not appear to qualify for a supplemental appropriation since the place of use does not have a "full" surface water right which needs to be supplemented. The Christiansens need would improve the groundwater right in conflict with the concept of supplemental groundwater use approvals.

I explained this information to Joey and advised that the first thing they should determine is whether the existing well is producing at the licensed rate, i.e. 2.64 cfs. If not, they could increase it up to 2.64 cfs without filing anything with the department.

I also explained that to increase the rate and the volume diverted under license 35-2409, a new application would need to be filed for the increment, but that under the terms of the moratorium, the application could not now be approved.

June 11, 1958

Re: Permit No. G-25534

Mr. J. W. Vanderford
Aberdeen
Idaho

Dear Mr. Vanderford:

Enclosed is the Certificate of Completion of Works and the License and Certificate of Water Right issued under Permit No. G-25534 confirming the right with priority of March 22, 1955, to the use of 2.64 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ of Section 19, Township 5 South, Range 31 East, for irrigation of 240 acres in the NW $\frac{1}{4}$ Section 19, Township 5 South, Range 31 East, and the E $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 24, Township 5 South, Range 30 East, B.M.

Enclosed also is departmental receipt #G-3335 for \$17.00, issued as receipt of the five dollar fee for the Certificate of Completion of Works and twelve dollars for the license fee.

Very truly yours,

Re: Permit No. G-25534

Mr. J. W. Vanderford
Aberdeen
Idaho

Dear Mr. Vanderford:

Our field engineer's report on his inspection of the completion of works and application of water to beneficial use under the terms of Permit No. G-25534 shows the well is capable of conveying 132 miners' inches (2.64 c.f.s.) of water for irrigation of 240 acres.

Upon receipt of the statutory fees, totaling \$17.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (twelve dollars—based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of March 22, 1955, to the use of 2.64 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 19, for irrigation of 240 acres in the NW $\frac{1}{4}$ Section 19, Township 5 South, Range 31 East, and the E $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 24, Township 5 South, Range 30 East, B.M.

Re: Permit No. G-25534

Mr. J. W. Vanderford
Aberdeen, Idaho

Dear Mr. Vanderford:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Aberdeen Times, all submitted in proof of completion of works and water to beneficial use on Permit No. G-25534.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

We are enclosing the statement of costs from the Aberdeen Times which you may require for your files.

Very truly yours,

MARK R. KULP

✓
Permit No. G-25534

Proof of Application of Water to Beneficial Use

Deposition of Holder and Completion of Works

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. J. W. Vanderford, Aberdeen, Idaho, Farming, Aberdeen, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-25534 Dated Mar. 28, 1955. Priority propose to establish 3-22-55.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean; 660 Feet East From the Southwest Corner of NW¹ of the NW¹ Sec. 19 Twp. 5 So. Range 31 E.B.M. County of Bingham, State Of Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. This irrigation system is by Well, Pump and sprinkler system. The well is 90 feet deep with no casing, except the natural lava formation, Water stands at 55 feet. The Engineer who figured this water system give us the size pump and sprinkler system to handle 4.8 cubic feet per second. I have not had the water or pressure measured but the system is operating very satisfactory.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation on the NW¹ of Section 19 Twp. 5 So. Range 31 E.B.M. and the East one half of the NE¹ of Section 24 Twp. 5 So. Range 30 E.B.M., 240 Acres and all has been Irrigated because the sprinkler system covers the entire area. All land has been cultivated. The land has been improved for cultivation and the Well, Pump and sprinkler system has been installed.

25534

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. one miner's inch per acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water under this permit has been used for the past three years to irrigate the 240 acres for the full season.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. none

(Sign) J. W. Anderson

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Aberdeen, County of Bingham,

State of Idaho, on this 1st day of October, A. D. 1957.

Permit No. G-25534

Proof of Application of Water to Beneficial Use
Deposition of Witness *and Completion of Works*

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Clarence Wahlen, age 50, residence Aberdeen, Idaho.
Occupation Farming.

Ques. 2. Are you acquainted with J. W. Vanderford, the holder of Permit No. G-25534? How long have you known him and where does he reside?

Ans. Eight years, he lives at Aberdeen, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-25534, and are you familiar with its provisions and conditions?

Ans. No! yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean. Well 660 Feet East from the SW corner of the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 19 Twp. 5 So. Range 31 E.B.M., Bingham County, Idaho.
Sprinkler system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 4.8 cubic feet per second, safely conducted. I've seen system run at full capacity.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 4.8 cubic feet per second. This is just an estimate on my part, I have never measured the water but do know the system was set up to handle that amount of water and it has been running at full capacity.

G25534

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. ~~Water is used for irrigation on the NW 1/4 of Section 19 Twp. 5 South of Range 31 E.B.M. and the E 1/4 NE 1/4 of Section 24 Twp. 5 South of Range 30 E.B.M. Bingham County, Idaho, Containing 240 acres all irrigated and cultivated but a few small rock blowouts. Well, Pump and water system the only improvements on this land, due to the water filing.~~

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. ~~Lava ash and requires one Idaho Miner's inch per acre to irrigate for profitable cultivation.~~

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. ~~None.~~

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. ~~I have saw good crops grown on this land for the past three years due to the application of water under this permit.~~

DEPARTMENT OF RECLAMATION
BOISE, IDAHO

RECEIVED
OCT 10 1957
Department of Reclamation

Permit No. G-25534

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

✓ Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Golden Palmer, 47 years old, residence, Aberdeen, Idaho
Occupation Farming.

Ques. 2. Are you acquainted with J. W. Vanderford, the holder of Permit No. G-25534? How long have you known him and where does he reside?

Ans. Ten years, he lives at Aberdeen, Idaho

Ques. 3. Have you read or heard read said Permit No. G-25534, and are you familiar with its provisions and conditions?

Ans. yes yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean, Well at 660 Feet East from the SW corner of the NW $\frac{1}{4}$ NW $\frac{1}{4}$
of Section 19 Twp. 5 So. Range 31 E.B.M., Bingham County, State of Idaho.
Sprinkler system.

✓ Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 4.8 cubic feet per second, safely conducted. I've seen system run at
full capacity.

✓ Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 4.8 cubic feet per second. This is just an estimate on my part, I have
never measured the water but do know the system was set up to handle that amount
of water and it has been running at full capacity.

G25534

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation on the NW $\frac{1}{4}$ of Section 19 Twp. 5 South of range 31 E.B.M. and the E $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 24 Twp. 5 South of Range 30 E.B.M. Bingham County, Idaho, containing 240 acres all irrigated and cultivated but a few small rock blowouts. Well, Pump and water system the only improvements on this land, due to the water filing.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Lava ash and requires one Idaho Miner's inch per acre to irrigate for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. none

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have saw good crops grown on this land for the past three years due to the application of water under this permit.

RE: Permit No. G-25534

Mr. J.W. Vanderford
Aberdeen, Idaho

Dear Mr. Vanderford:

We acknowledge receipt of the Notice of proofs of completion of works and application of water to beneficial use under Permit No. G-25534 to be made at Aberdeen, at 10:00 A.M. October 1st, 1957, before Mr. Jack Grinnett, Notary Public.

As of this date, we have mailed the Notice to the Aberdeen Times with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and to then mail the affidavit of publication and statement of costs to you.

At 10:00 A.M. October 1st, 1957 at Aberdeen, you and two disinterested witnesses, who are familiar with the terms of the Permit and the work done thereunder, must appear before Mr. Grinnett, Notary to execute the enclosed depositions.

When returning the depositions to this office, please be sure to include the affidavit of publication.

Very truly yours,

MARK R. KULP
