State of Idaho
License and Certificate of Water Right

Water License No. G-25453 Amount 2.84 c.f.s.
Water District No. Priority February 14, 1955

THIS IS TO CERTIFY that CARL RICHARD
of Aberdeen, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated February 14, 1955; that Permit No. G-25453
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2.84 second feet, was issued thereunder on December 3, 1958, showing that said works
were completed on the 16th day of June, 1958; and that on the 16th
day of June, 1958, CARL RICHARD

of Aberdeen, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean, for the purpose of Irrigation
, under Use Permit No. G-25453 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
11 of Licenses at page 6552, on the 3rd day of December, 1958;
The right hereby confirmed dates from February 14, 1955;

The Point of Diversion is located
in the NW 1/4 SE 1/4, Sec. 14, Tp. 6 S., R. 30 E., B. M. County Bingham
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 2.84 cubic feet per second.

APPLICATION FOR PERMIT 35-2403

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 33321
Permit No. G- 25453
District No.

Carl Richard
P.O. Box 464
Aberdeen, Idaho

1. Name of Applicant: **CARL RICHARD**
Postoffice address: P.O. Box 464, Aberdeen County: **Bingham** State: **Idaho**
2. Quantity of water claimed: **3.2 cubic feet per second**
 - (a) Rate of withdrawal in cubic feet per second. **3.2** or Idaho
Miners' inches **160** or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum **800**
3. Source of water supply: **subterranean from well**
4. Location of point of diversion or well is in the **NW 1/4 of the SE 1/4 of Section 14**
Twp. 6 South, Rge. 30 E, B.M., County of Bingham
5. Water is to be used for: **Irrigation**
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the **1/4 of the 1/4 of Section**, Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the **1/4 of the 1/4 of Section**, Twp., Rge., B.M.
7. Kind of works: **drilled well with deep well turbine pump**
8. Estimated cost of works: **\$ 7,000.00**
9. (a) Is reservoir to be used? **no.**
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is **five** years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **None**
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Re: Permit No. G-25453

Mr. Carl Richard
P. O. Box 464
Aberdeen, Idaho

Dear Mr. Richard:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-25453 shows that the well is capable of conveying 142 miners inches (2.84 c.f.s.) of water for irrigation of 160 acres.

Upon receipt of the statutory fees, totaling \$13.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (fee is eight dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of February 14, 1955, to the use of 2.84 second feet of subterranean water, with point of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, for irrigation of 160 acres in the SE $\frac{1}{4}$ of Section 14, Township 6 South, Range 30 East, B.M.

Very truly yours,

GEO. N. CARTER

Dear Mr. Richard:

This acknowledges the depositions of Holder and two Witnesses and the Affidavit of Publication in The Aberdeen Times in proof of completion of works and beneficial use under Permit No. G-25453.

Before a permit can be licensed, the law requires that a field examination be made by an engineer from this department. At this time we cannot say just when this will be made but our field engineer will contact you prior to the time he is to make the inspection so that you can arrange to accompany him.

Very truly yours,

E. N. HUMPHREY

BOISE, IDAHO

RECEIVED
JUN 18 1958
Department of Reclamation

Permit No. G-25453

Proof of Application of Water to Beneficial Use

and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Carl Richard - farmer, residence and postoffice address is Aberdeen, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-25453 dated Feb 23, 1955 - Date of priority is Feb. 14, 1955

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. source of water supply is subterranean and location of diversion, which is a drilled well, is in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, Twp 6 So., Rge 30 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use; and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Water is diverted from a drilled well. Well is 237 ft. deep with 54 feet of 18" casing. Water stands at 140 feet. Pump is operated with 125 hp motor which pumps directly into a sprinkler system. Pump will produce nearly 200 miners inches of water in open flow and over 150 miners inches into the sprinkler system. It will operate 6 lines of sprinklers at 40-45 pounds pressure at nozzle.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation. The entire 160 acres in the SE $\frac{1}{4}$ of Section 14, Twp 6 So. Rge 30 E.B.M. is irrigated and is cultivated. Before water was put on land, it was just dry farmed.

25453

R907

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. It will require about $2\frac{1}{2}$ -3 acre-feet per acre to irrigate this land.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Well has diverted over 150 inches of water to irrigated the land and has produced a crop each year since 1955.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign) Carl Richard

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Aberdeen, County of Bingham

State of Idaho, on this 16th day of June, A. D. 1958.

BOISE, IDAHO

RECEIVED
JUN 18 1958
Department of Reclamation

Permit No. G-25453

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ward W. Little, Jr., Age 43, occupation - artificial inseminator, residence
and address is Aberdeen, Idaho

Ques. 2. Are you acquainted with Carl Richard, the
holder of Permit No. G-25453? How long have you known him and where does
he reside?

Ans. I have known Carl Richard over 10 years and he resides at
Aberdeen, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-25453, and are you
familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Source of supply is subterranean from a well located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of
Section 14, Township 6 South, Range 30 E.B.M. The pump on the well pumps
directly into a sprinkler system which irrigates the land.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. The pump will deliver about 200 inches of water into an open ditch.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. The pump will deliver about 160 miners inches through the sprinkler system.
This flow was estimated by the number of sprinkler lines in operation and at
about 45 lbs pressure at the sprinkler nozzles.

P 25453

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation. Water is used on 160 acres of land, which is the SE $\frac{1}{4}$ of Section 14, Township 6 South, Range 30 East, Boise Meridian. All of the land is cultivated and before the water was put on the land, it was dry farmed.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is good rolling soil, with just a few lava rock showing. It will take almost 3 acre-feet to irrigate it, depending upon the type of crop.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the entire amount of water being used to irrigate the crops during the summer since 1955.

(Signed)

Harold H. Lacey

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Aberdeen, County of Bingham, State of Idaho, on this 16th day of June, A. D. 1958.

holder of Permit No. G-25453? How long have you known him and where does
he reside?

Ans. I have known Carl Richard over 10 years and he lives near
Aberdeen, Idaho

Ques. 3. Have you read or heard read said Permit No. G-25453, and are you
familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Water is diverted from a drilled well. The water is pumped into a sprinkler
system which waters entire land. Well is in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, Township
6 South, Range 30 E.B.M.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. The well will produce around 4 second feet of water.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. On open flow the pump will produce nearly 200 inches. Into the sprinkler
system it will pump about 155-170 inches. This was estimated by the number
of sprinkler lines that Mr. Richard was using.

825453

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation. The entire 160 acres in the SE $\frac{1}{4}$ of 14-6-30 is watered and is cultivated. This land was just dry farm land before the well was put in.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is good soil, slightly rolling. It will take about 2 $\frac{1}{2}$ acre-ft. per acre to raise a crop, through the sprinkler system.

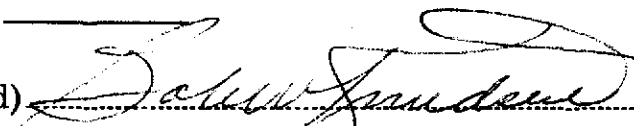

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

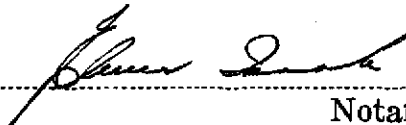

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the entire amount of water being pumped on the land each summer since 1955.

Legal Notice

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that 10 A. M., on the 16 day of June 1958, at Aberdeen, County of Bingham, State of Idaho, before Elmer Isaak, Notary Public, at 144 South Main, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-25453 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice said permit are Carl Richard, Aberdeen, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The point of diversion of said water is NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 14, Twp. 6 S, Range 30 E.B.M.

5. The place where said water is used is SE $\frac{1}{4}$ of Section 14, Township 6 South, Range 30 E. B.M.

6. The date of priority which said user is prepared to establish is February 14, 1955.

RE: Permit No. G-25453

Mr. Carl Richard
Aberdeen, Idaho

Dear Mr. Richard:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25453, to be made on the 16th day of June at 10:00 A.M. before Elmer Isaak, Notary Public.

As of this date we have mailed the Notice to the Aberdeen Times, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the Permit and the work done thereunder, at the time, on the date, at the place and before the Notary as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions (Holder and two Witnesses) are being returned. Also, be sure to enclose the Affidavit of Publication.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
