Dear Mr. Anderson:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. G-25369 shows that the well is capable of conveying 211 miners inches (4.22 c.f.s.) of water for irrigation of 330 acres in the S $\frac{1}{2}$ S $\frac{1}{2}$ Section 11 and the N $\frac{1}{2}$ N $\frac{1}{2}$, S $\frac{1}{2}$ NE $\frac{1}{4}$ Section 14, Township 1 South, Range 34 East, B.M. The record of the permit does not list the land in the S $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 14, therefore it is necessary that it be amended to include it. We enclose an Application for Amendment to the land list for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totaling \$25.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (fee twenty dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of January 18, 1955, to the use of 4.22 second foot of subterranean water, with point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 14, for irrigation of 330 acres in the S $\frac{1}{2}$ S $\frac{1}{2}$ Section 11, N $\frac{1}{2}$ N $\frac{1}{2}$, S $\frac{1}{2}$ NE $\frac{1}{4}$ Section 14, Township 1 South, Range 34 East, B.M.

Dear Mr. Frandsen:

Statutes requires a field inspection in connection with the proofs on Permit # G-25369 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Tuesday

June 10, 1958

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Dear Mr. Frandsen:

This acknowledges receipt of the depositions of Holder and two witnesses and the affidavit of publication in The Daily Bulletin in proof of completion of works and beneficial use under Permit No. G-25369.

Before a permit can be licensed, the law requires that a field examination be made by an engineer from this department. At this time we cannot say just when this will be made but our field engineer will contact you prior to the time he is to make the inspection so that you can arrange to accompany him.

Dear Mr. Anderson:

This acknowledges receipt of the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25369 in the name of Cecil J. Frandsen. Final proof is to be made before you, as Notary, at 10:00 A.M. on the 13th day of May.

As of this date we have mailed the Notice to The Daily Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the Permit Holder and his two disinterested witnesses, who are familiar with the terms of the Permit and the work done thereunder. The information especially required (using the data published in the Notice as your guide) is:

The time, the date, the place, and before you as the Notary named in the Publication.

The signatures of the Holder and Witnesses and your Notary's seal are essential.

It is also very necessary that each question be answered in detail.

In returning all the depositions (Holder's and two Witnesses) to this office, please be sure to enclose the Affidavit of Publication.

Very truly yours,
