NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 14th day of September, 1960, at Blackfoot, County of Bingham, State of Idaho before J. Blaine Anderson, Notary Public at 167 West Bridge Street, proof will be submitted of the completion of works for the diversion of 6.4 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G 25368, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Melvin B Frandsen.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 6.4 cubic feet per second.

3. The use of which said water has been applied is irrigation & domestic purposes, and the amount applied to beneficial use is 6.4 cubic feet per second.

4. The point of diversion of said water is Center line between NE 1/4 Sec. 11 and NW 1/4, Sec. 12, Township 1 South, Range 34, EBM, Bingham County.

5. The place where said water is used is NE 1/4 Sec. 11 and the NW 1/4 Sec. 12, Township 1 South, Range 34, East Boise Meridian in Bingham County.

6. The date of priority which said user is prepared to establish is January 18, 1955.

State Reclamation Engineer

State of Idaho
License and Certificate of Water Right

Water License No. G-25368

Amount 4.28 c.f.s.

Water District No. _____

Priority January 18, 1955

THIS IS TO CERTIFY that MELVIN B. FRANDSEN
of Blackfoot, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated January 18, 1955; that Permit No. G-25368
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
4.28 second feet, was issued thereunder on December 27, 1961, showing that said works
were completed on the 14th day of September, 1960; and that on the 14th
day of September, 1960, MELVIN B. FRANDSEN

of Blackfoot, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean flow, for the purpose of irrigation and domestic
use, under Use Permit No. G-25368 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
12 of Licenses at page 7232, on the 27 day of December, 1961;

The right hereby confirmed dates from January 18, 1955;

The Point of Diversion is located at center line between NE $\frac{1}{4}$, Sec. 11 & NW $\frac{1}{4}$, Sec. 12
in the -- $\frac{1}{4}$ -- $\frac{1}{4}$, Sec. --, Tp. 1 S, R. 34 E, B. M. Bingham County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 4.28 cubic feet per second.

Description and location of use:

APPLICATION FOR PERMIT To Appropriate the Subterranean Waters of The State of Idaho

Application No. G-33232
Permit No. G-25368
District No.

1. Name of Applicant: MELVIN B. FRANDSEN
Postoffice address: Rt. 1, Fifth ^{Blair} ~~Blair~~ County: Bingham State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 6.4 or Idaho
Miners' inches 320 or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean flow from a well
4. Location of point of diversion or well is in the center line between the NE $\frac{1}{4}$ Section 11, and NW $\frac{1}{4}$ Section 12
 $\frac{1}{4}$ of the $\frac{1}{4}$ of Section
Twp. 1 S., Rge. 34 E., B.M., County of Bingham
5. Water is to be used for: Irrigation and domestic purposes
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Well, pump and sprinkler system
8. Estimated cost of works: \$ 25,000.00
9. (a) Is reservoir to be used?
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is Five (5) years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Re: Loan No. 95461-H
Permit #G-25368

35-2396

Gentlemen:

This loan has been paid in full. Therefore, we wish to inform you that we are no longer interested in water permit number G-25368, as described in Mortgage Deed dated July 25, 1967, given by R-B Enterprises, Incorporated.

Said mortgage was recorded in the Public Records of Bingham County in Book 6, as Instrument #133475.

Sincerely,

Jean Wright

RE: Licenses G-22849 and G-25368

Connecticut Mutual Life Insurance Company
Hartford, Connecticut

Gentlemen:

We have been requested by the Bingham Title and Trust Company to write you again regarding the mortgage of the R. B. Enterprises and the above numbered licenses. When you assumed the title to the land you should have obtained the licenses from the owners also. They become appurtenant to the lands and the only way the water can be changed is by transfer. This, of course, is published in the paper and then only if no one does not protest the transfer is allowed without a hearing.

Our records have been marked to indicate your mortgage, however, we feel you should have possession of the licenses since they are appurtenant to the lands.

Very truly yours,

M. RUSSELL BOSCH
Administrative Assistant

REPORT OF ENGINEER

Permit No. G-25368This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Melvin B. Frandsen
2. Source of water supply: Subterranean
center line between the NE $\frac{1}{4}$ Sec. 11, and NW $\frac{1}{4}$ Sec. 12
3. Location of point of diversion: Is in the _____ of Section _____
T. 1 S R. 34 E County of Bingham
4. Describe works as they exist, giving dimensions and capacities of same: 250 HP U.S. Motor #8675
#1103164, Wintcoath pump 340' x 10" column, 15" bowl, 12 stage.
Main line pressure at pump with one system on = 160' (95' with both systems on)
Well - 385' x 20", 10' x 20" cog, h: 325' (says no dd.)
2 - Self propelled Valley Automatic sprinkler systems on this pump.
Each system has 8" main to each Pivot Point - reduced to 6" at Pivot
5. Water is used for: Irrigation and domestic purposes
6. State whether or not water has been turned into works of diversion: yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NE $\frac{1}{4}$ Sec. 11; NW $\frac{1}{4}$ Sec. 12, T. 1 S., R. 34 E., B.M.

Sprinkler line is 6" x 1285' suspended 7' above ground on "A" frame towers. Spaced 90' apart along line. Each tower has 2, 4' wheels that is driven by hydraulic ram action created by the water pressure in the sprinkler line. Each line has a discharge of 965.5 GPM. at 70 lbs. pressure at Pivot.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Mr. Rex Frandsen along.Amend PD to south well sec 12Used Manufacturer rating for Measurement.Send blank well logs to Rex Frandsen to complete & return to officeThis examination was made on the 11th day of July, 19 61

RE: Permit No. G-25368

Melvin B. Frandsen
Rt 1
Blackfoot, Idaho

Dear Mr. Frandsen:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Blackfoot News, all submitted in proof of completion of works and beneficial use on Permit No. G-25368.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Permit No. G-25368

Proof of Application of Water to Beneficial Use

Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. MELVIN B. FRANDSEN, age 35, RFD#1, Blackfoot, Idaho. Farming.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Not applicable

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-25368, January 26, 1955, January 18, 1955.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean waters. Center line between NE $\frac{1}{4}$ Sec. 11, NW $\frac{1}{4}$ Sec. 12, Township 1 South, Range 34, EEM,

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Drilled well 386' deep; water at 325'; 20" dia., cased 7 feet; 250hp pump and motor; $\frac{1}{2}$ mile steel mainline; 2-wheel type self-propelled sprinkler laterals, 1 in each 160-acre tract, swinging in a circular fashion; 2,000 gpm's. Estimate based on experience and pump specifications; operating pressure, 85 lbs. Vary from approx. 3/16th to approx. 5/8th; each lateral designed for 1,000 gpm's.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. Each 40 acres has actually been irrigated except: 4 acres in the NE corner of the NE $\frac{1}{4}$ of Sec. 12; 4 acres in the SE corner of the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec 12; 4 acres in the NW corner of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 11; and 4 acres in the SW corner of the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 11. Cultivated meadow land; reclamation of arid lands for agricultural purposes. All lands are irrigated in the NE $\frac{1}{4}$ of Sec. 11 and the NW $\frac{1}{4}$ of Section 12, T 1 S., R. 34, EEM in Bingham County, except as noted above.

P 25368

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not applicable

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. For irrigation, 5/8ths miners inch per acre

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Original holder

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. 1960, through system above described entire irrigation season, by rotation every 3 days; 1,000 gallons per minute from each portable lateral.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign) Melvin B. Frankson

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed

and sworn to before me, at my office in Blackfoot, County of Bingham

Permit No. G-25368

**Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. ROY PETERSON, RFD#1, Blackfoot, Idaho, 21 years old, Farming.

Ques. 2. Are you acquainted with Melvin B. Frandsen, the holder of Permit No. G-25368? How long have you known him and where does he reside?

Ans. Yes. Ten years. RFD#1, Blackfoot, Idaho

Ques. 3. Have you read or heard read said Permit No. G-25368, and are you familiar with its provisions and conditions?

Ans. Yes. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean waters. Center line between NE $\frac{1}{4}$ Sec. 11 and NW $\frac{1}{4}$ Sec. 12, T 1 S., R. 34, EBM. Drilled well 386' deep; water at 325'; 20" dia.; cased 7 feet; 250HP pump & motor; $\frac{1}{2}$ mile steel mainline; 2-wheel type self-propelled sprinkler laterals, 1 in each 160-acre tract, swinging in a circular fashion; 2,000 gpm. Estimate based on experience and pump & motor specifications; operating pressure, 85 lbs.; Vary from approx. 3/16ths to approx. 5/8ths; each lateral designed for 1,000 gpm.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Approx. 2,000 gpm. Have personally observed that amount.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Approx. 2,000 gpm. Estimate based on experience and pump and motor specifications.

25368

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. Each 40 acres has actually been irrigated except 4 acres in the NE corner of the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 12; 4 acres in the SE corner of the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 12; 4 acres in the NW corner of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 11; and 4 acres in the SW corner of the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 11. Cultivated meadow land; reclamation of arid lands for agricultural purposes. All lands are irrigated in the NE $\frac{1}{4}$ Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Lava ash loam, gently rolling. Approximately 5/8ths miners inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. 1960, through system above described for entire irrigation season, by rotation every 3 days; 1,000 gpm from each portable lateral.

AS RETURNED

Anderson & Beebe,
Attorneys at Law,
Box 752
Blackfoot, Idaho.
Attention: J. Blaine Anderson

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25368, in the name of Melvin B. Frandsen. Final Proof is to be made before you, as Notary on the 11th day of September, 1960, at 10:00 o'clock A.M., at 167 W. Bridge, Blackfoot, Idaho.

As of this date we have mailed the Notice to the Blackfoot News with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Dear Sir;

I would like to request for an extension of time on my well permit No. 4-25368 for 1 year.

I didn't get my allowance on my Desert land entry until Jan. 23, 1957.

I have the land all broke up and ready to farm this next year in 1960. I have till Jan. 1961, to make final Proof on my Desert land entry.

I would appreciate any consideration you can give me in the matter.

Thank you

STATE OF IDAHO

DEPARTMENT OF RECLAMATION
Boise, Idaho

Re: Permit No. G-25368

Date: Nov. 1, 1959

Melvin B. Frandsen
Route #1
Firth, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G-25368 are due not later than January 26, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
STATE RECLAMATION ENGINEER

NOTICE OF * PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 14th day of September, 1960, at Blackfoot, County of Bingham, State of Idaho before J. Blaine Anderson, Notary Public at 167 West Bridge Street, proof will be submitted of the completion of works for the diversion of 6.4 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G 25388, heretofore issued by the Department of Reclamation of the State of Idaho

1. The name and postoffice address of the person or corporation holding said permit is Melvin B Frandsen.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 6.4 cubic feet per second.

3. The use of which said water has been applied is irrigation & domestic purposes, and the amount applied to beneficial use is 6.4 cubic feet per second.

4. The point of diversion of said water is Center line between NE $\frac{1}{4}$ Sec. 11 and NW $\frac{1}{4}$ Sec. 12, Township 1 South, Range 34, EBM, Bingham County.

5. The place where said water is used is NE $\frac{1}{4}$ Sec. 11 and the NW $\frac{1}{4}$ Sec. 12, Township 1 South, Range 34, 1st Boise Meridian in Bingham County.

6. The date of priority which said user is prepared to establish is January 18, 1955.

Geo. N. Carter

State Reclamation Engineer
