Dear Mr. Swenson:

We have your depositions and your permit is complete, with the exception of the field examination to be made by this department.

Due to the load of work this summer, the examination will be made in the spring. This will have no effect on your priority, but will delay the issuance of the certificates until after the examination.

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Eugene Swenson; residence, 20 miles northwest of Firth, Idaho; occupation, farmer; postoffice address, Firth, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit #G-25357; date of permit 1/18/55; date of priority, 1/6/55.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. The source of the water is a drilled well in NW1/4, Sec.20, T1N-R35E.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The works here consist of the well which is 440' deep, with a lift of 392'. This is a 22" hole and is cased 20-30'. Well is equipped with 250 hp turbine type pump and motor and 75 hp booster pump. I have installed a sprinkler system with 1 1/2 miles of mainline (540' 10", 3400', 8" and 2640' of 6"). I have 11 laterals 1320' long and one 660' long with nozzles every 40'. This has 11/64" orifice and operates under 50 lb. pressure.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The purpose of the water is for irrigation. All of the land in NW1/4, W1/4, Sec.20 & SE1/4, is irrigable and also 20 acres in SW1/4, Sec.19, all in T1N-R35E., B.M., Ida. I have spent about \$70,000 on this and all improvements were made as a direct result of said use.

Name of well driller: Howard Andrus, Idaho Falls, Idaho.

JD

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I need all this water for profitable irrigation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Permit originally issued to Dwaine Anderson and assigned to me.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. My predecessor, Dwaine Anderson started development immediately upon allowance of the desert application. I have continued this development and have used it every year.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G- 25357 are due not later
than Jan. 18, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G-25357
Dwain J. Anderson

Mr. Harley M. McDowell
P. O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

We enclose Application for Amendment of Permit No. G-25357 which has changed the the point of diversion to read: NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 20, Township 1 North, Range 35 E.B.M.

This amendment has been approved by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 90 of Permits, page 25357. It should not be attached to the original permit to which it refers and of which it now becomes a part.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-25352 Department of Reclamation

Comes now Dwain J. Anderson and represents to the State
Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-25352.

That the point of diversion is described in said permit as being
located SW 1/4 Sec. 20, T. 1 N. - R. 35 E., S. 4 E.

That he now requests that the point of diversion be changed to a
point located SW 1/4, Section 20, T. 1 N. - R. 35 E., S. 4 E.

That his reasons for desiring to make such change are as follows:

This is a more feasible well site.

That no one will be injured by such change, and that such change
will be made at Permit Holder's own risk.

Signed at Boise, Idaho, this 22 day of January 19 57

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho,
hereby approve the above and foregoing application for amendment to Permit to
Appropriate the Public Waters of the State of Idaho, No. G-25352. This
approval constitutes a new permit and is issued as an amendment to the original
permit, to which it refers and of which it becomes a part, and said application
is approved only insofar as the rights of others will not be adversely affected
thereby.

Dear Mr Kulp,

I recieved your letter of January 6 asking for a clarification on Question 4. I have made the correction and the point of diversion is as you had stated in your letter.

I have noticed you mentioned that the Idaho District Land Office will require two copies of the Permit when issued I am enclosing the amount of \$2.00 which you ask for these copies.

Sincerly,

Dwain J. Anderson

Dear Mr. Anderson:

We have your application for permit to appropriate 6.4 second feet of water from a well accompanied by your check for the \$6.50 filing fee.

Question 4 of the application gives the point of diversion in the SW¹/₄ NE¹/₄ Section 20, Township 1 North, Range 35 East B.M. but the sketch map seems to put it in the NW¹/₄ SE¹/₄ of said Section. Which location is correct?

You state that this application is to be used in connection with a Desert Land Entry. The Idaho District Land Office will require two copies of the Permit when issued, one of which has been certified, to be used in connection with this Desert Land Entry. It has been our custom to furnish these two extra copies, the fee for which will amount to \$2.00.

Very truly yours,

Dear Mr. Anderson:

Your letter of November 24th does not state whether you wish to file on a surface stream or on subterranean water from a well. However, we assume that this is from a well and we enclose two forms of application herewith together with a pamphlet giving regulations and instructions in regard to filing same.

Since these applications are to be used in connection with your Desert Land Entries we wish to say that the Land Office will request two copies of each permit when approved, one of which is to be certified, to be used in connection with the Desert Land Entries.

It has been our custom to make these copies at a cost of \$2.00 in addition to the filing fee as shown on the back of the application.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of Completion of Works and application of the water to Beneficial Use are required. The time required for making these proofs should be indicated under question 10.
