NOTICE OF PROOF OF COMPLETION
OF WORKS AND APPLICATION OF
WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 a. m., on the 25th day of January, 1961, at Shelley, County of Bingham, State of Idaho, before Robert Thomas, Notary Public, at The Idaho First National Bank, Shelley, proof will be submitted of the completion of works for the diversion of 3.0 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24974, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Mark E. Hill, Box 321, Shelley, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.8 cubic feet per second.

3. The use to which said water has been applied is irrigation of agricultural land purposes, and the amount applied to beneficial use is 1.8 cubic feet per second.

4. The point of diversion of said water is SE4NE4 Sec. 31 T 1N R36 E.B.M.

5. The place where said water is used is E14NE4, E2SE4 Sec. 31 and W2NW4, W2 SW4 Sec. 32 T 1N R36 E.B.M.

6. The date of priority which said user is prepared to establish is June 4, 1954.

GEO N. CARTER,
State Reclamation Engineer.
Pub. Dec. 15, 22, 29, 1960, Jan. 5, 1961.

Department of Reclamation

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-24974

RECEIVED
MAY 22 1958
Department of Reclamation

Comes now Mark E. Hill, and represents to the State
Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-24974.

That the point of diversion is described in said permit as being located
SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 32, Twp. 1.N. Range 36.E.

That he now requests that the point of diversion be changed to a point
located SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 31, Twp. 1.N. Range 36.E.

That his reasons for desiring to make such change are as follows:

To correct mistake in Original filing.

That no one will be injured by such change, and that such change will be
made at Permit Holder's own risk.

Signed at Shelby, Idaho, this 21 day of May, 1958

Mark E. Hill

Date of receipt at Department of Reclamation May 22, 1958

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby
approve the above and foregoing application for amendment to Permit to appropriate
the Public Waters of the State of Idaho, No. G-24974. This approval constitutes
a new permit and is issued as an amendment to the original permit, to which it re-
fers and of which it becomes a part, and said application is approved only insofar
as the rights of others will not be adversely affected thereby.

License and Certificate of Water Right

Water License No. G-24974

Amount 2.3 c.f.s.

Water District No. _____

Priority June 4, 1954

THIS IS TO CERTIFY that MARK E. HILL
of Shelley, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated June 4, 19 54; that Permit No. G-24974
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2.3 second feet, was issued thereunder on August 2, 19 61, showing that said works
were completed on the 25th day of January, 19 61; and that on the 25th
day of January, 19 61, MARK E. HILL

of Shelley, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean flow , for the purpose of irrigation
, under Use Permit No. G-24974 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
11 of Licenses at page 7127, on the 2nd day of August, 19 61;
The right hereby confirmed dates from June 4, 19 54;

The Point of Diversion is located
in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 31, Tp. 1 N, R. 36 E, B. M. Bingham County
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 2.3 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated	
1 N	36 E	31	NE $\frac{1}{4}$ NE $\frac{1}{4}$	40	6

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G-32792
Permit No. G- 24974
District No.

1. Name of Applicant: MARK E. HILL
Postoffice address: Box 321, Shelley County: Bingham State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. Three or Idaho
Miners' inches 150 or gallons per minute. 1350
 - (b) Annual withdrawal in acre feet per annum 750
3. Source of water supply: Well (subterranean flow)
4. Location of point of diversion or well is in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 32
Twp. 1 N. , Rge. 36 E. , B.M., County of Bingham
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Drilled well, cased as needed, pump and motor.
8. Estimated cost of works: \$17,000.00
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is Five (5) years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) 0 (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) Three (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks: Permit to be used in connection with Desert Entry.

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Mark E. Hill
Box 321
Shelley, Idaho

Dear Mr. Hill:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Shelley Pioneer, all submitted in proof of completion of works and beneficial use on Permit No. G-25974.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Ans. Well - SE 1/4 NE 1/4 Sec. 31 T1N R36E E.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well - 257 feet deep Pump 1150 gals per minute
Size of hole 16 inches Capacity according to Salesman
Casing - 79 feet 16 inch 132 sprinklers - 5.4 gals/minute @
" 146 feet 14 inch 40# capacity used @ 50 lbs. pressure.
depth to water 207 feet Designed for 720 gals./minute
for land irrigated. 1960. 11/64

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation - crops of potatoes grown on 85 Acres
in: Sec. 31 NE 1/4 NE 1/4 6 Acres Sec. 32 NW 1/4 NW 1/4 - 12 Acres
SE 1/4 NE 1/4 10 SW 1/4 NW 1/4 - 25
NE 1/4 SE 1/4 18 NW 1/4 SW 1/4 - 14
T1N R36E 34 51

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. Andrew Well Drillers - 1360 E. 17th St. Idaho Falls, Id.

G24974
JD

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. For irrigation

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 720 gals/minute for land irrigated in 1960

1150 gals/minute for all land to be irrigated.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. In 1960 - 720 gals/minute + as operated at 50# pressure.
Crop of potatoes irrigated from May 23 to Sept 11.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. NONE

Permit No. _____

**Proof of Application of Water to Beneficial Use
Deposition of Witness ^{and} Completion of Works**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ronald L. Johnson - Age 46 - Shelley, Idaho
Petroleum Distributor - Box 656

Ques. 2. Are you acquainted with Mark Hill, the holder of Permit No. A-24974? How long have you known him and where does he reside?

Ans. 7 years - Shelley, Idaho

Ques. 3. Have you read or heard read said Permit No. A-24974, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well - aluminum pipe

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1.8 cu. ft. per second

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 1.8 cu. ft. per second. I accepted the word of those who drilled the wells.

24974
24974

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. *Irrigation of potatoes. About 8.5 acres of potatoes was irrigated by sprinkling.*

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. *No other purpose than irrigation.*

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. *A deep, medium textured soil capable of growing various crops when irrigated.*

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. *No*

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. *Hauled fuel to the pump site every four to five days during the growing season.*

(Signed) *Ronald L. Johnson*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in *Shelley*, County of *Benjamin*, State of Idaho, on this *25* day of *Jan*, A. NOTICE OF PROOF OF COMPLETION
OF WORKS AND APPLICATION OF
WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 a. m., on the 25th day of January, 1961, at Shelley, County of Bingham, State of Idaho, before Robert Thomas, Notary Public at The Idaho First National Bank, Shelley, proof will be submitted of the completion of works for the diversion of 3.0 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24974, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Mark E. Hill, Box 321, Shelley, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.8 cubic feet per second.

3. The use to which said water has been applied is irrigation of agricultural land purposes, and the amount applied to beneficial use is 1.8 cubic feet per second.

4. The point of diversion of said water is SE1/4NE1/4 Sec. 31 T 1N R36 E.B.M.

5. The place where said water is used is E1/4NE1/4, E2SE1/4 Sec. 31 and W2NW1/4, W2 SW1/4 Sec. 32 T 1N R36 E.B.M.

6. The date of priority which said user is prepared to establish is June 4, 1954.

BOISE

Mr. Mark E. Hill,
Box 321,
Shelley, Idaho

Dear Mr. Hill:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24974. The proofs are to be made at 10:00 o'clock A.M., on the 25th day of January, 1961, ~~1960~~ before Robert Thomas, Idaho First National Bank, Shelley, Notary Public.

As of this date we have mailed the Notice to the Shelley Pioneer with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G- 24974

Date: Dec. 1, 1960

Mark E. Hill
Box 321
Shelley, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 24974 are due not later than February 28, 1961.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER

Application for Extension of Time
FOR COMPLETION OF WORKS
AND BENEFICIAL USE

RECEIVED
APR 1 11960
Department of Reclamation

Mark E. Hill, of Shelley

State of Idaho, being first duly sworn, upon his oath deposes and says:

He is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho
No. G-24974

Under the terms and conditions of said permit, construction work thereunder was required to be
completed by February 28, 1960

That he has heretofore performed the following work described under said permit:

Drilled well, cleared approximately 100 acres of land, done some road
improvement work, done engineering work on irrigation system, including a topographic
survey.

costing \$5,934.65

That he is unable to complete the remainder of the work within the required time, for the fol-
lowing reasons, to-wit:

Difficulty in getting electric power to the land and illness (Colorado Tick
fever).

State Reclamation Engineer

WHEREFORE, He asks that the ~~Commissioner of Reclamation~~ extend the time for the comple-
tion of works under said permit to February 28, 1961

Subscribed and sworn to before me this 7 day of April, 1960

My commission expires 10-5-63 Notary Public.

Dear Mr. Carter

I owe you an apology.

Because of illness - tick fever - I wasn't able to do the work last year I intended to do. I requested and received a deferment from the Bureau of Land Management until February 28, 1961. At the time it never occurred to me that I needed to request the same privilege from you.

I apologize for failing to do this and request the extension of time. I have the well drilled, but haven't yet put it to use which I intend to do this year.

Sincerely yours

Mark E. Hill

RE: Permit No. G- 24974

March 21, 19 60

TO: Mark E. Hill
Box 321
Shelley, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. G 24974 to appropriate the Public Waters of the State of Idaho, have not been complied with as to Completion of Works & Beneficial Use Proofs which were due February 28, 1960

YOU ARE HEREBY Notified in compliance with Sec. 42-234, Idaho Code that said Permit No. G 24974 is hereby held for cancellation.

YOU ARE HEREBY required to show cause before the State Reclamation Engineer on or before sixty days from the date of this notice why said Permit should not be cancelled.

Said PERMIT No. G 24974 claims the use of 3.0 cubic feet per second of the Subterranean Waters of a well with point of diversion located SW1/4 of Sec. 32, T. 1 N., R. 36 E., B.M. was approved June 8, 1954.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the 21 day of March, 19 60.

Geo. H. Carter
State Reclamation Engineer

Re: Permit No. G- 24974

Date: Dec. 1, 1959

Mark E. Hill
Box 321
Shelley, Idaho

Dear Mr. Hill:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 24974 are due not later than **February 28, 1960.**

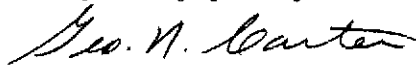

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Re: Permit No. G-24280

Esther Louise Archer
914 6th Street
Rupert, Idaho

Dear Madam:

Our field engineer's report on his inspection of completion of works and application of water to beneficial use under the terms of Permit No. G-24280 shows the well is capable of conveying 150 miner's inches (3.0 c.f.s.) of water for irrigation of 240 acres.

Upon receipt of the statutory fees of \$17.00, we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$12.00 - based at the rate of \$2.00 for each 40-acre subdivision) confirming the right with priority of July 3, 1959, to the use of 3.0 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 27, for the irrigation of 240 acres in NE $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 27, T. 6 N., R. 35 E., B. M.

April 10, 1959

George N. Carter
State Reclamation Engineer
Department of Reclamation
Boise, Idaho

Dear Mr. Carter

I have received your notice that proofs of completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G. 24974 are due not later than June 8, 1959 and form 36 is due at least 40 days prior to that date.

I have the well drilled - 257 feet deep, water standing at 207 feet, 16 inch hole, cased 225 feet - Cost \$4,139.65. I do not yet have the pumping plant installed and at present I can't say for sure it will be installed by June 8.

I have encountered delays due to factors beyond my control because of which the Bureau of Land Management has granted me a one year extension of time until February 28, 1960 for final proof under the Desert Entry Act. I would like to request an extension of time also from the State Department of Reclamation.

Delays were encountered due to failure of electric power company to put in a power line on request and due to failure of finance company to grant a loan after prior commitment that they would. I am now negotiating for a pumping plant using L. P. gas and new source of credit.

Under the circumstances I would appreciate an extension of time. Thank you very much.

Sincerely yours

Mark E. Hill

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-24974

RECEIVED
MAY 22 1958
Department of Reclamation

Comes now Mark E. Hill, and represents to the State
Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-24974.

That the point of diversion is described in said permit as being located
SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 32, Twp. 1.N. Range 36.E.

That he now requests that the point of diversion be changed to a point
located SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 31, Twp. 1.N. Range 36.E.

That his reasons for desiring to make such change are as follows:

To correct mistake in Original filing.

That no one will be injured by such change, and that such change will be
made at Permit Holder's own risk.

Signed at Shoshone, Idaho, this 21 day of May, 1958

Mark E. Hill

Date of receipt at Department of Reclamation May 22, 1958

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby
approve the above and foregoing application for amendment to Permit to appropriate
the Public Waters of the State of Idaho, No. G-24974. This approval constitutes
a new permit and is issued as an amendment to the original permit, to which it re-
fers and of which it becomes a part, and said application is approved only insofar
as the rights of others will not be adversely affected thereby.

May 9, 1958

Department of Reclamation

Mark Kulp
State ~~Recl~~ Reclamation Engineer
Boise, Idaho

Dear Mr. Kulp

In June of 1954 I requested a permit from your office to drill an irrigation well for desert entry purposes. Permit No. G-24974 was granted.

Since then I've made some more thorough surveys, locating section markers and topographic surveys for laying out the irrigation system. These surveys showed that the section line running North ~~N~~ and South was some distance East of where we thought it was, scaling off the aerial photos.

I then found it desirable to change my filing to include the NE $\frac{1}{2}$ NE $\frac{1}{4}$ Section 31 T 1 N R 36 E. B.M. and drop the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 32 T 1 N R 36 E. B. M. The change will be small in actual acres irrigated as there is but 4 to 6 acres of irrigable land in each of these 40s. I requested the change in the ~~the~~ filing as I had already broken up the land in Section 31 and this area will be easier to get water on than the land in Section 32 which I dropped.

The Bureau writes that I will need an amended water permit making the water to be appropriated appurtenant to the lands of the amended application. They have allowed 30 days to obtain it.

Will you make the amendment?

It appears now that the well will be located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 31 instead of the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 32 T 1 N R 36 E as given in the application.

Sincerely yours

Mark E. Hill

**NOTICE OF PROOF OF COMPLETION
OF WORKS AND APPLICATION OF
WATER TO BENEFICIAL USE**

Notice is hereby given that at 10:00 a. m., on the 2. day of January, 1961, at Shelley, County of Bingham, State of Idaho, before Robert Thomas, Notary Public at The Idaho First National Bank, Shelley, proof will be submitted of the completion of works for the diversion of 3.0 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24974, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Mark E. Hill, Box 321, Shelley, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.8 cubic feet per second.

3. The use to which said water has been applied is irrigation of agricultural land purposes, and the amount applied to beneficial use is 1.8 cubic feet per second.

4. The point of diversion of said water is SE4NE4 Sec. 31 T 1N R36 E.B.M.

5. The place where said water is used is E14NE4, E2SE4 Sec. 31 and W2NW4, W2 SW4 Sec. 32 T 1N R36 E.B.M.

6. The date of priority which said user is prepared to establish is June 4, 1951.

GEO N. CARTER,

State Reclamation Engineer.
