INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Department of Reclamation

State of Idaho
License and Certificate of Water Right

Water License No. G-24878

Amount 3.1 second feet

Water District No.

Priority April 23, 1954

THIS IS TO CERTIFY that **T. S. VANDERFORD**
of Aberdeen, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated April 23, 1954; that Permit No. G-24878
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
3.1 second feet, was issued thereunder on July 27, 1956, showing that said works
were completed on the 3rd day of December, 1954; and that on the 3rd
day of December, 1954,

T. S. VANDERFORD

of Aberdeen, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, ~~subterranean~~ (subterranean flow), for the purpose of irrigation
, under Use Permit No. G-24878 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
9 of Licenses at page 5531, on the 27th day of July, 1956;

The right hereby confirmed dates from April 23, 1954;

The Point of Diversion is located in the center of the Northwest Quarter
in the ~~14~~ Sec. 16, Tp. 3 S., R. 35 E., B. M. Blighan County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 3.1 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

APPLICATION FOR PERMIT To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 32696
Permit No. G- 24878
District No.

1. Name of Applicant: **T. S. VANDERFORD**
Postoffice address: **Aberdeen** County: **Bingham** State: **Idaho**
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. **3.2** or Idaho
Miners' inches **160** or gallons per minute. **1440**
 - (b) Annual withdrawal in acre feet per annum **800**
3. Source of water supply: **Subterranean from a well
most central point**
4. Location of point of diversion or well is in the $\frac{1}{4}$ of the **NW** $\frac{1}{4}$ of Section **16**
Twp. 3 S., Rge. **33 E.**, B.M., County of **Bingham**
5. Water is to be used for: **Irrigation**
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: **Drilled well, 16" diameter, and sprinkling system.**
8. Estimated cost of works: \$ **5,782.50**
9. (a) Is reservoir to be used? **No**
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is **Two(2)** years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **None**
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

RE: Permit No. G-24878

Mr. T. S. Vanderford
Aberdeen
Idaho

Dear Mr. Vanderford:

The report of our field engineer on examination for completion of works and beneficial use on Permit No. G-24878 shows that you have irrigated 155 acres in the NW $\frac{1}{4}$ Section 16, Township 3 South, Range 33 East, B.M. from your well in the center of that quarter section.

A Certificate of Completion of Works and License can, therefore, be issued for 155 inches or 3.1 second feet upon receipt of the statutory fees amounting to \$5.00 for completion of works and \$8.00 license fee.

REPORT OF ENGINEER

Permit No. G-24878

This proof is for Completion of works & Beneficial use In Water District No. _____

1. Name of applicant T. S. Vanderford, Aberdeen, Idaho

2. Source of water supply: Subterranean from a well

3. Location of point of diversion: Is in the center of the NW 1/4 of Section 16

T. 3 S. R. 33 E. County of Bingham

4. Describe works as they exist, giving dimensions and capacities of same: Inspection made in company with Mr. Anderson. See Permit No. G-24879 Report.

This system is tied to the system under Permit No. G-24879. Both systems are standard in all respects except that they have 12 lateral lines rather than the customary 8. Water delivery is high. G. E. 100 hp Motor Serial No. RKJ 324020. Layne Bowler Pump serial No. 20049. Well specifications not given.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Northwest Quarter Section 16, Twp. 3 South, Range 33 East, B. M.

See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Crop is Potatoes.

See Permit # 24879.

Two pumps tied into a common system cover field every 7 1/2 days.

Fertilize 80 units N. and 40 Phos.

This examination was made on the 29 day of June, 1955

Residing at Blackfoot, Idaho.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M., on the 3rd day of December, 1954, at Aberdeen, County of Bingham, State of Idaho, before Calvin Moser, Notary Public, proof will be submitted of the completion of works and the diversion of 3.2 cubic feet per second of Subterranean flow from a well and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24878, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are T. S. Vanderford, Aberdeen, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 3.2 cubic feet per second.

3. The use to which said water has been applied is Irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The place where said water is used is the North West Quarter (NW¼) of Section sixteen (16) Township three (3) South of Range thirty-three (33) E. B. M., and the well is located in the center of said quarter section.

5. The date of priority which said user is prepared to establish is April 23, 1954.

Permit No. G-24878

Proof of Application of Water to Beneficial Use and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. T. S. Vanderford, Residence Aberdeen, Idaho and Address Aberdeen, Idaho.

Occupation farming.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit number G-24878 Dated April 27, 1954 and date of priority April 23, 1954.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean, and point of diversion is the most central point of the North-west quarter (NW $\frac{1}{4}$) of Section sixteen (16) Township 3 South Range 33 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well 174 feet deep with no casing water stands at 77 feet. Pump discharges 1440 gallons per minute. This discharge was determined by the Pump Company who figured the job. The sprinkler system has one half mile of Main line with six four-inch laterals 1320 feet each with a rainbird every 40 feet, each rainbird throws between 7 $\frac{1}{2}$ and 7 $\frac{1}{3}$ gallons per minute or a total of 1440 gallons per minute.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. The northwest quarter or 160 acres is all in one field which is cultivated land. No improvements on this land except the sprinkler system. The sprinkler system covers all the land and it has all been irrigated.

Ref. 104

G24878

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 3.2 second feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The full amount of the 3.2 second feet of water was used for irrigation during the crop season of 1954.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. none

(Sign) _____

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Aberdeen, County of Bingham, State of Idaho, on this 3rd day of December, A. D. 1954.

BOISE, IDAHO

Permit No. G-24878

Proof of Application of Water to Beneficial Use

Deposition of Witness

and Completion of Work.

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Neal Williams, age 64 yrs Residence one mile east of Liberty siding,
Occupation farmer, Address Pingree, Idaho.

Ques. 2. Are you acquainted with T. S. Vanderford, the
holder of Permit No. G-24878? How long have you known him and where does
he reside?

Ans. I have known T. S. Vanderford of Aberdeen, Idaho the past fifteen years.

Ques. 3. Have you read or heard read said Permit No. G-24878, and are you
familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Center of the Northwest quarter of Section 16, twp. 3 South of Range
33 E.B.M., Subteranean. Well in center of place which is watered by or with a
sprinkler system.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. 3.2 second feet which I have seen used to irrigate potatoes on this farm.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. 160 miner's inches which I estimate is correct by the sprinkler system being
used on the farm. The sprinkler system has six lateral lines 1320 feet long with
33 rainbirds on each line that have been measured to through between 7 1/4 and
7 1/3 gallons per minute.

G24878

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation on the Northwest quarter of section 16 Twp. 3 So. Range 33 E.B.M.
The full quarter section or 160 acres has been irrigated and all is cultivated land.
The only improvements on the place is the sprinkler system.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is Lava Ash and needs about one miners inch to the acre of land.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. none

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have farmed land next to this farm the past crop season and have witnessed the planting, cultivating, irrigation and harvesting of a good crop of potatoes on the place under this permit. It is my honest opinion the water under this permit is being put to very good use.

(Signed) Paul Williams

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Aberdeen,
County of Bingham, State of Idaho, on this 3rd day of December,
A. D. 19 54.

24878

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G-24878

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. LaVar Murdock, age 26 yrs residence farm 2 1/2 miles west of the Liberty
siding, Farmer, Address Route # 1, Pingree, Idaho.

Ques. 2. Are you acquainted with T. S. Vanderford, the
holder of Permit No. G-24878? How long have you known him and where does
he reside?

Ans. I have known T. S. Vanderford of Aberdeen, Idaho the past three years.

Ques. 3. Have you read or heard read said Permit No. G-24878, and are you
familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Center of the Northwest quarter of Section 16, twp. 3 South of Range
33 E.B.M., Subterranean. Well in center of place which is watered by or with
a sprinkler system.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. 3.2 second feet which I have seen used to irrigate potatoes on this farm.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. 160 miner's inches which I estimate is correct by the sprinkler system being
used on the farm. The sprinkler system has six lateral lines 1320 feet long with
33 rainbirds on each line that have been measured to through between 7 1/4 and
7 1/3 gallons per minute.

J24878

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation on the Northwest quarter of section 16 twp. 3 So. Range 33 E.B.M.
The full quarter section or 160 acres has been irrigated and all is cultivated land.
The only improvements on the place is the sprinkler system.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is Lava ash and needs about one miners inch to the acre of land.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. none

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have lived next to this farm the past crop season and have witnessed the planting, cultivating, irrigation and harvesting of a good crop of potatoes on the place under this permit. It is my honest opinion the water under this permit is being put to very good use.

(Signed)

Lavar Murdoch
