APPLICATION FOR PERMIT To appropriate the Subterranean Waters of The State of Idaho

Application No. G-32639
Permit No. G- 24824
District No.

1. Name of Applicant: ABERDEEN SPORTSMEN'S ASSOCIATION, INC.
Postoffice address: Aberdeen County: Bingham State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 0.2 or Idaho
Miners' inches 10 or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean from a well
4. Location of point of diversion or well is in the NW 1/4 of the NE 1/4 of Section 36
Twp. 5 S. , Rge. 31 E. , B.M., County of Bingham
5. Water is to be used for: Irrigation and domestic - picnic area
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the NW 1/4 of the NE 1/4 of Section 36 , Twp. 5 S.
Rge. 31 E. , B.M. and SW 1/4 SE 1/4 Sec. 25, T/ 5 S., R. 31 E.n.m.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.
7. Kind of works: Well, with turbine pump
8. Estimated cost of works: \$ 5,000.00
9. (a) Is reservoir to be used?
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is Two (2) years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

By Marion Gull Agent.
President.

RE: Permit No. G-24824

Aberdeen Sportsmen's Association, Inc.
Mr. Marion Gull (Agent)
Aberdeen, Idaho

Gentlemen:

We now have on file the report of our field engineer on examination for completion of works and beneficial use on your Permit No. G-24824 which shows that approximately 7 acres of land have been irrigated in the NW¹/₄NE¹/₄ Section 36, Township 5 South, Range 31 East, B.M. with the waters of a well located in the same subdivision.

A Certificate of Completion of Works and License can, therefore, be issued for $\frac{1}{4}$ second foot of water upon receipt of the statutory fees amounting to \$5.00 for completion of works and \$2.00 license fee.

Very truly yours,

MARK R. KULP

REPORT OF ENGINEER

Permit No. G-24824

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Marion Gull

2. Source of water supply: Subterranean flow from a well

3. Location of point of diversion: Is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 36

T. 5 S. R. 31 E., B.M. County of Bingham

4. Describe works as they exist, giving dimensions and capacities of same: Well is 8" diameter by 200' deep, cased to the bottom. This is a flowing well when there is highwater. Motor is a Fairbanks Morse 10 hp serial No. 580750 connected to a Peerless Turbine No. 21695. Column is 4" diameter by 100' long. 4" bowls, 10 stage, connected to a small sprinkler system in the park, using 24 sprinklers size 3/32 by 11/64. Pumping 18" of water. When well is flowing, irrigation is accomplished by gravity.

5. Water is used for: Irrigating State Park (trees and grass) and drinking purposes

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 36., Twp. 5 S., Rge. 31 E., B.M. 5 acres.

See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: This irrigates all the land belonging to the park plus any ground that lies between the park and the lake.
This is a nice little community park and is a credit to the Town of Aberdeen to whom the Sportsmen have now donated the park.

This examination was made on the 8th day of June, 1956

(Signed) E. M. Humphrey Examiner.

Re: Permit No. G-24824

Mr. Marion Gull
Aberdeen, Idaho

Dear Mr. Gull:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Aberdeen Times, all submitted in proof of completion of works and beneficial use on the above captioned Permit.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP

Permit No. _____
G24824

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Marion Gull Reside at Aberdeen Idaho
Occupation Inspector for State Of Idaho Horticulture

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Aberdeen Sportsmens Association Inc. (President) Non Profit

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G24824 March 26 1954

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Drilled well located in the N W $\frac{1}{4}$ of the N E $\frac{1}{4}$ of Sect 36
T 5S Range 31 E B M

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Drilled well 200ft deep cased to the bottom with 8" casing and there is artesian flow of about ten miners inches, water is applied to park area by sprinkling pumped by turbine pump through 500ft of 4" main line and diverted into two inch sprinkling lines, will operate 24 sprinklers at seven gallons per minute at 30 pounds pressure.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigating State Park (trees and grass) and drinking purposes
location of well is in N W $\frac{1}{4}$ of N E $\frac{1}{4}$ Sect 36 Township 5S 31 E B M
covers about five acres set aside as State Of Idaho Park #3 recreation area operated and leased to Aberdeen Sportsmens Association a (non profit organization

24824

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation and drinking water only

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. when irrigating with 24 sprinklers need at least 150 gallons P M

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Original applicant for permit

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. For the past two irrigation seasons we have operated a pump attached to 500 ft of 4" main and diverted into 2" laterals with 24 seven gallon per minute sprinklers under satisfactory pressure.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. no other water is allocated ~~to this~~ for this land

holder of Permit No. G24824 ? How long have you known him and where does
he reside?

Ans. For past fifteen years resides in Aberdeen Idaho

Ques. 3. Have you read or heard read said Permit No. G 24824, and are you
familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Drilled well place of well is in N W $\frac{1}{4}$ of N E $\frac{1}{4}$ T5S R 31 E B M
conveyed to point of use by turbine pump connected to 4" main and
diverted at 40 ft intervals through connecting valves into two inch
laterals with Rain Bird sprinklers of seven gallon per minute capacity

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. I have actually observed system in operation delivering sufficient
water to operate 24 sprinklers of 7 gallon P M capacity

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. By observation when in operation 24 sprinklers at 7 gallons
per minute at 30 pounds pressure is equal to 168 gallons per minute

S24824

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Use of water is irrigation and drinking for patrons at the recreation park covering approximately 5 acres located in the N W $\frac{1}{4}$ of N E $\frac{1}{4}$ of Section 36 T 5S R 31 EBM , as a result of this well the area has been set aside as State park and has been planted to grass and a number of shade trees

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. no

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Character of the land was alkali and covered by grease wood when first set aside as park , has now been cleared and washed clear of alkali and have now good stand of grass on the area, and some shade trees

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. Only as a member of the Aberdeen Sportsmens Association Inc. a not profit organization .

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. All during the 1954 and 1955 irrigation seasons by weekly observation have witnessed the application of irrigation water from the well by sprinkling .

RE: Permit No. G-24824

Aberdeen Sportsmens assoc., Inc.
Aberdeen
Idaho

ATTENTION: Mr. Marion Gull,
President

Gentlemen:

We acknowledge receipt of notice for completion of works and beneficial use proof on Permit No. G-24824 to be made March 1, 1956, before Mr. Calvin Moser, Notary Public.

We shall send a copy of the notice to the Aberdeen Times with instructions to publish it once a week for four weeks prior to that date and to send you the affidavit of publication together with statement of costs.

At the time set, you should appear before Mr. Moser together with two disinterested witnesses who are familiar with the terms of the Permit and the work done thereunder for the purpose of executing the enclosed depositions.

Very truly yours,

MARY R. KULP

Idaho

Dear Sir:

We enclose herewith blank notice for proof of completion of works and application of water to beneficial use under your Permit No. G-24824. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than March 26, 1956.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

March 17, 1954

Mr. Marion Gull, President
Aberdeen Sportsmen's Association
Aberdeen, Idaho

Dear Mr. Gull:

We have your letter of March 15 enclosing application for permit to appropriate 250 gallons per minute of water from a well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 36, Township 5 South, Range 31 East B. M., accompanied by check for the \$5.00 filing fee.

Question 12 of the application describes the land in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 36, but the sketch map shows land in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of said section and we return both for the necessary corrections.

Also Question 12 should give the acres to be irrigated in each subdivision.

The check should be made to the order of the Department of Reclamation and not to the State Land Department. We return same herewith.

Very truly yours,

Mark R. Kulp
