Re: Welland A. Hansen, et ux, - Connecticut General Life Insurance
Company proposed loan 7729400

Att'n: Marty Brown

Dear Ms. Brown:

This letter confirms our telephone conversation of December 27, 1977, with reference to the hereinafter described water permits. In the course of our conversation, I advised you that I was preparing mortgage loan instruments for Connecticut General Life Insurance Company and was checking concerning the standing of the hereinafter described water permits. The Borrower is Welland A. Hansen, et ux, and the water permits are as follows:

- (1) G-23888/35-2307
- (2) 35-2781
- (3) G-24686/35-2369
- (4) G-25996/35-2438

In the course of our conversation, you indicated that all of the above water permits are now licensed. You further advised that once the water permit was licensed, it became a permanent right and attached to the real property in question. You also advised me that since the above water rights are presently licensed it would not be necessary to take an assignment of a water permit as assignments of water permits are only proper before the permits become licensed.

You further advised me that all of the above water rights are currently in good standing.

If this letter accurately reflects our conversation, will you please

sign a copy of this letter and return it to me in the self-addressed envelope I have enclosed for your convenience. If this letter is not an accurate statement concerning our conversation, please call me immediately.

As soon as the loan has been closed, I will notify your Department of the mortgage by Connecticut General Life Insurance Company.

Yours very truly,

Deposition of Holder and Completion of Works

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Floyd T. Powell, Route 3, Blackfoot, Idaho. I am a farmer and my postoffice address is Route 3, Blackfoot, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. -----

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-24686, dated January 28th, 1954, with date of priority January 28th, 1954.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Two 18 inch wells, 160 feet deep with water level at 95 feet from surface. Well No. 1 located in E $\frac{1}{2}$ NE $\frac{1}{4}$, Well No. 2 located in E $\frac{1}{2}$ NW $\frac{1}{4}$, both in Section Eight, Township Three South, of Range Thirty-three, East of the Boise Meridian, in Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well No. 1 is equipped with 75-hp motor and pump; Well No. 2 is equipped with 100 hp motor and pump. Water is pumped into mainline pipe running East and West through center of N $\frac{1}{2}$ of Section Eight and West half of NE $\frac{1}{4}$ of Section Nine, said Township and Range. Both wells cased about 10 feet to lava, 12 $\frac{1}{2}$ -inch laterals each with 33 nozzles with 3/16th inch aperture, operating pressure about 45 pounds per square inch. Together the wells produce about 370 miners inches of water according to my best estimate.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is all used for irrigation of the lands shown on the permit plat in Sections 8 and 9, in Township 3 South, of Range 33, East of the Boise Meridian, in Idaho, as follows: Section 8: NW $\frac{1}{4}$ NW $\frac{1}{4}$ 25a; SW $\frac{1}{4}$ NW $\frac{1}{4}$ 25a; NE $\frac{1}{4}$ NW $\frac{1}{4}$ 40a; SE $\frac{1}{4}$ NW $\frac{1}{4}$ 40a; NW $\frac{1}{4}$ NE $\frac{1}{4}$ 40a; SW $\frac{1}{4}$ NE $\frac{1}{4}$ 40a; NE $\frac{1}{4}$ NE $\frac{1}{4}$ 40a; SE $\frac{1}{4}$ NE $\frac{1}{4}$ 40a. Section 9: NW $\frac{1}{4}$ NW $\frac{1}{4}$ 40a; SW $\frac{1}{4}$ NW $\frac{1}{4}$ 40a. All of said lands are sprinkled and all but a small area is cultivated. Improvements include dwelling, shed, fences, two labor houses and three steel granaries.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. - - - -

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. One inch per acre.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. - - - -

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Well No. 1 has been in operation and used since 1953, and Well No. 2 has been in operation and used since 1956. Crops have been produced each year since 1953 on increasing amounts of the land and the full acreage has been farmed since 1956.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

Dear Mr. Furchner:

In answer to your letter of January 22, 1959, will state that it will be necessary to republish the intention to make proof on Permit No. G-24686, in the name of Floyd T. Powell.

We are enclosing a Publication Notice, to be published in the Daily Bulletin, at Blackfoot, for four consecutive weeks prior to the date set for final proof, which is February 27, 1959. If this notice meets with your approval, you may send it to the Daily Bulletin for publication.

As per your request, we are enclosing five sets of depositions for your use for well permits only.

It is preferable to send the correct depositions with each proof to avoid mistakes, as there is a difference between well and surface water depositions.

Re: Permit No. G-24686.

Dear Mr. Carter:

Proceedings were started in the summer of 1956 to make proof on the above permit and notice that proof would be taken on the 7th day of September, 1956, before me at Blackfoot was published in The Daily Bulletin.

For some reason which I cannot now recall or explain, the holder of the permit and his witnesses did not come in to make the proof although the works were completed and the water had been applied to use on the land.

Our attention has been called to the failure to file these proofs by the holder of the mortgage on the land which desires to see the proof carried forward and license issued.

I am wondering if we can now proceed to take the testimony of the holder and witnesses and file them, together with our proof of publication of the notice, to secure the license. If that is possible will you please forward to me the proper forms for the depositions of the holder and witnesses.

Often times when people come in to make proof we find that for one reason or another we do not have sufficient of these deposition forms and would very much appreciate your sending a few extra copies of each to hold here in the office for future use. Thank you.
