RE: Permits Nos. C-24663, 21612, 21613, 21614, 21615, 21616

Mr. J. Blaine Anderson
P. O. Box 752
Blackfoot, Idaho

Dear Mr. Anderson:

We acknowledge receipt of your letter of July 30, enclosing the instruments listed in regard to the above numbered Permits of the Rising River Land and Livestock Company.

In checking these proofs, we note a slight discrepancy in some of them as to the land description.

However, these will doubtless be ironed out when a field inspection is made as required by statute.

We cannot tell just when this inspection will be made, at this time, but our field engineer will try and contact Mr. Johnston at the time he makes the inspection so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP

Attn: Arnold T. Beebe

Dear Mr. Beebe:

Enclosed is an order for correction of License No. 21615. Thank you for calling the error to our attention. The second part of the order has been typed under the land list, the Section 15 has been marked out and Section 11 has been inserted above, and recorded on the license record in this office.

This office does not keep a record of owners of Water Licenses after change in ownership.

Probably the best method for changing ownership when more than one new owner is involved in one license is to give each one the proportionate share of the water as he gets of the land involved. Referring to license 21615, if one man is to buy the land in Sections 2 and 11 and another the land in Section 14, the first man would get 550/870ths and the second 320/870ths of the water represented by the license. Production of water from wells varies with efficiency of the pump and the lift. If one man is to get a set amount, the other would suffer by any decrease.

If each new owner gets all the production from one or more wells, the listing of the point of diversion would be proper and the above would not apply.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Dear Mr. Anderson:

We acknowledge receipt of your letter of July 30, enclosing the instruments listed in regard to the above numbered Permits of the Rising River Land and Livestock Company.

In checking these proofs, we note a slight discrepancy in some of them as to the land description.

However, these will doubtless be ironed out when a field inspection is made as required by statute.

We cannot tell just when this inspection will be made, at this time, but our field engineer will try and contact Mr. Johnston at the time he makes the inspection so that arrangements may be made to show him over the grounds.

POINT OF DIVERSION

Permit No. G-24321

RECEIVED
OCT. 4, 1957
Department of Reclamation

Comes now CHRIST N. MAISCH
and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-24321.

That the point of diversion is described in said Permit as being located:

NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 15, Township 5 South, Range 31 East, B.M.

That he now requests that the point of diversion be changed to a point located:

NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 15, Township 5 South, Range 31 East, B. M.

That the reason for desiring to make such change is as follows:

The location of the well was changed to irrigate land not in the original
application.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Re: Licenses Nos. 21612 to 21616 incl.

24663

Rising River Land & Livestock Co.
Anderson & Beebe
Attorneys at Law
Box 752, Blackfoot, Ida.

Attn: Arnold T. Beebe

Dear Mr. Beebe:

Enclosed is an order for correction of License No. 21615. Thank you for calling the error to our attention. The second part of the order has been typed under the land list, the Section 15 has been marked out and Section 11 has been inserted above, and recorded on the license record in this office.

This office does not keep a record of owners of Water Licenses after change in ownership.

Probably the best method for changing ownership when more than one new owner is involved in one license is to give each one the proportionate share of the water as he gets of the land involved. Referring to license 21615, if one man is to buy the land in Sections 2 and 11 and another the land in Section 14, the first man would get 550/870ths and the second 320/870ths of the water represented by the license. Production of water from wells varies with efficiency of the pump and the lift. If one man is to get a set amount, the other would suffer by any decrease.

If each new owner gets all the production from one or more wells, the listing of the point of diversion would be proper and the above would not apply.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

RE: Permit No. G-24663

Mr. James S. Johnston, Manager
Rising River Land & Livestock Company
Blackfoot, Idaho

Dear Mr. Johnston:

We enclose your application for amendment to the land list in Permit No. G-24663 which has been approved by the State Reclamation Engineer and recorded in this department.

We also enclose Certificate of Completion of Works and also License and Certificate of Water Right issued under this Permit confirming your right to the use of 0.53 second foot of water from a well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 13, Township 1 South, Range 35 East B.M. with priority of January 16, 1954 for irrigation and domestic use on land in the N $\frac{1}{2}$ Section 13, Township 1 South, Range 35 East B.M. and the NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 18, Township 1 South, Range 36 East B.M.

We also enclose departmental receipt No. G-873 for the \$5.00 fee for Certificate of Completion of Works.

Very truly yours,

RE: Permit No. G-24663

Mr. James S. Johnston, Manager
Rising River Land & Livestock Co.
Blackfoot, Idaho

Dear Mr. Johnston:

The report of our field engineer on examination for completion of works and beneficial use on Permit No. G-24663 shows that your well in the NW¹/₄NE¹/₄ Section 13, Township 1 South, Range 35 East B. . will deliver an additional 26.4 inches which has been used for supplemental irrigation of the N¹/₂ Section 13, Township 1 South, Range 35 East B.M. and the NW¹/₄NW¹/₄ Section 18, Township 1 South, Range 36 East B.M.

Since this last 40 is not included in Permit No. G-24663, it will be necessary to amend the Permit and we enclose a form of application for amendment herewith.

A Certificate of Completion of Works and License can then be issued for that amount under Permit No. G-24663. The statutory fee will amount to \$5.00 for Certificate of Completion of Works and there will be no additional license fee.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
