INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G-32441
 Permit No. G-24630
 District No.

2070 Addison Ave.
 Twin Falls, Idaho

1. Name of Applicant: G. T. NEWCOMB
 Postoffice address: Twin Falls County: Twin Falls State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 4.8 or Idaho
 Miners' inches 240 or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean, to be raised through a drilled well
4. Location of point of diversion or well is in the SE 1/4 of the SW 1/4 of Section 8
 Twp. 2 S. , Rge. 33 E. , B.M., County of Bingham
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp.
 Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
 at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.
7. Kind of works: Drilled well, to be cased and equipped with turbine pump and sprinkler system
8. Estimated cost of works: \$ 13,000.00
9. (a) Is reservoir to be used? No
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is Five(5) years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Remarks:

Idaho as herein set forth.

Applicant.

RE: Permit No. G-24630, G-24641 & G-23034

Mr. G. T. Newcomb
2070 Addison East
Twin Falls, Idaho

Dear Mr. Newcomb:

State law requires that a field inspection be made on any Permit being brought to license within the State of Idaho.

I intend to make inspection in connection with your three permits on Friday, July 27, 1956, in the morning.

Please be prepared to accompany me on the inspection or have someone who is familiar with the works do so.

I will drive to the place where the wells are located if I do not contact you before the time of our meeting.

I intend to stop overnight in Idaho Falls or Blackfoot, probably at the Cottage Hotel in Blackfoot the night before. If for any reason this is unsatisfactory for you please advise by return mail or call this office so that I can change the schedule.

Very truly yours,

Re: Permits Nos. G-24630 and G-24641

Mr. G. T. Newcomb
2070 Addison East
Twin Falls, Idaho

Dear Mr. Newcomb:

We acknowledge receipt of the depositions of yourself and the two witnesses, also affidavits of publications in the Shelley Pioneer, all submitted in proof of completion of works and beneficial use on the two above captioned Permits.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Ans. Acting as an individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. The number of my permit is 24630, date of permit is 1/2/54, and date of priority I propose to establish is 12/30/53

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. The source of my water supply is a drilled well to raise subterranean water, located in SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 8, T. 2 S. R 33 E., B. M. Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Drilled well 300' deep, 16" casing, 140' lift and which will flow 240 miner's inches from free flow. I have a sprinkler system with main line of 10", 8" and 6". My laterals are portable aluminum 4". I have 6 laterals and each lateral has 33 nozzles. My nozzles are 3/32 by 11/64ths, operate under 40# pressure and will average 7 gallons per minute per nozzle. My pump is 125 H.P. my estimate of 240 inches made from seeing the well tested with this equipment and from my experience in pumping.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water here is used for irrigation and I irrigate the entire 240 acres described as SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 8, T. 2 S. R 33 E., B. M. It is all cultivated land and all the improvements here have been made as a direct result of this irrigation use. I spent \$3000.00 in well, \$6000.00 for pump and motor, \$16800.00 sprinkler system, \$12000.00 on the land.

24630

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Only irrigation.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I feel that the water now being used on this land and that applied for in this permit (4.8 second feet) is the minimum which will properly irrigate this land.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the person who originally held and was issued this permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. This diversion was first started in 1953 and has been continuous for agricultural production since that time.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There are no other permits from which water is delivered on this land. However I do have permits # 23034 and 24641 which are in a direct line with this pump system and all of the operation is continuous.

(Sign)

G. T. Newcomb

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise, County of Ada,

State of Idaho, on this 25th day of February, A. D. 1956.

Harley M. McDaniel
Notary Public for Idaho.

My commission expires 10-11-59

24630

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 24630

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Reed Winmill, my age is 31, I reside at Pioneer Trailer Courts,
Twin Falls, Idaho, occupation is pump installer, P. O. Address, Pioneer Trailer Courts,
Twin Falls, Idaho.

Ques. 2. Are you acquainted with G. T. Newcomb, the
holder of Permit No. 24630? How long have you known him and where does
he reside?

Ans. Yes. I have known him 3 years and know that he resides at 2070 Addison
St. East, Twin Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. 24630, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. The source of water is subterranean and the point of diversion is SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 8
T 2 S - R 33 E., B. M. The works consist of a 16" well drilled to a depth of 300' and
raising water 140' with 125 H.P. motor. It has a mainline sprinkler system and 6 laterals
with 33 nozzles per lateral and each nozzle operating under 40 lbs. pressure, will produce
approximately 7 gallons per minute. The facilities here are adequate for conveying all the
water from the diversion to the place of use.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate from seeing pumps measured that it will produce 240 miner's inches.
and I have seen this much water conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen the pump deliver 240 miner's inches under free flow and I measure
this by seeing pumps measured

B 24630

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation on the SW¹/₄, NW¹/₄SE¹/₄, SW¹/₄SE¹/₄, Section 8, T. 2 S., R. 33 E., B. M. and 40 acres in each subdivision has been irrigated. No natural meadow of any kind could ever be raised here and no crops can be raised without artificial irrigation. The cost of the improvements here are for well \$3,000.00, pump and motor \$6,000.00, sprinkler system \$16,800.00 and on the land \$1,200.00.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is a lava ash soil, very productive and needs irrigation and reclamation for development. I believe that the water now being used on the land would be the minimum which could be used for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None- whatever.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been familiar with this since it was first set up. In fact I installed the first pump that was put on this property and have been familiar with it since that time.

Permit No. 24630

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Eugene R. Hamilton, age is 36, residence 211 Sidney St., Twin Falls, Idaho, occupation is pump setter, P. O. Address is 211 Sidney St., Twin Falls, Idaho.

Ques. 2. Are you acquainted with G. T. Newcomb, the holder of Permit No. 24630? How long have you known him and where does he reside?

Ans. I have known him 3 1/2 years and know that he now resides at 2070 Addison St. East, Twin Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. 24630, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean water raised through a drilled well in SE 1/4 SW 1/4 Sec. 8, T. 2 S., R33 E., B. M. The works here consist of a 16" well drilled to a depth of 300' and raising water 140' with 125 H.P. Motor. It has a mainline sprinkler system and 6 laterals with 33 nozzles per lateral and each nozzle operating under 40 lb. pressure will produce approximately 7 gallons per minute. The facilities here are adequate for conveying all the water from the diversion to the place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate from seeing this well, that it will under free flow produce 240 miner's inches, and I base this on my experience in the pump business and seeing the wells tested.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I know that the water produced from this well can be safely conveyed to the place of use and in having seen this well deliver and discharge 240 inches under free flow as mentioned above, this is based on my experience and from seeing wells tested.

24630

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation on SW¹/₄, NW¹/₄SE¹/₄, SW¹/₄SE¹/₄, Sec. 8, T. 2 S - R 33 E., and 40 acres has been irrigated in each subdivision. No cultivated or natural meadow of any kind could ever be raised here and no crops can be raised without artificial irrigation. The improvements made here were well, \$3,000.00, pump and motor \$6,000.00, sprinkler system 16,800.00, and on land \$1,200.00.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Only irrigation.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This land is a lava ash soil, very productive and needs irrigation and reclamation for development. I believe that the water now being used on the land would be in minimum which is necessary for profitable irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None whatever.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen this well since it was first developed and have had occasion to be familiar with the project during the entire period of use.

**NOTICE OF PROOF OF COMPLETION
OF WORKS and APPLICATION OF
WATER TO BENEFICIAL USE**

Notice is hereby given that at 10:00 a. m., on the 25th day of February, 1956, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary Public, proof will be submitted of the completion of works for the diversion of 4.8 cubic feet per second of the waters of subterranean source with point of diversion in SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 8, T2S-R33 E., B. M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24630 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are G. T. Newcomb, 124 Blue Lakes South, Twin Falls, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 4.8 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 4.8 cubic feet per second.

4. The place where said water is used is SW $\frac{1}{4}$, NW $\frac{1}{4}$, SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 8, T2S-R33 E., B. M.

5. The date of priority which said user is prepared to establish is December 30, 1953.

RE: Permits N.S. G-23034 & G-24630

Mr. Harley M. McDowell
519 Idaho Building
Boise, Idaho

Dear Mr. McDowell:

We are today sending to the Shelley Pioneer two notices for completion of works and beneficial use proof on the above numbered Permits to be made February 25, 1956, before you as Notary Public.

The Shelley Pioneer has been instructed to publish these notices once a week for four weeks prior to that date and to send Mr. G. T. Newcomb the affidavits of publication together with statements of costs.

At the time set, Mr. Newcomb should appear before you together with two disinterested witnesses who are familiar with the terms of the Permits and the work done thereunder for the purpose of executing the enclosed depositions.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M., on the 25th
day of February, 19 56, at Boise, County of
Ada, State of Idaho, before Harley M. McDowell, Notary Public,
proof will be submitted of the completion of works for the diversion of 4.8
cubic feet per second of the waters of subterranean source with point /
and of the application to beneficial use of said water, in accordance with
the terms and conditions of Permit No. G-24630 heretofore issued by the
Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation
holding said permit are G. T. Newcomb, 124 Blue Lakes South, Twin Falls, Idaho

2. Said works of diversion will be fully completed on the date set
for such completion, and the amount of water which said works are capable of
conveying to the place of use, in accordance with the plans accompanying the
application for such permit, is 4.8 cubic feet per second.

3. The use to which said water has been applied is irrigation
purposes, and the amount applied to beneficial use is
4.8 cubic feet per second.

4. The place where said water is used is SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$,
Sec. 8, T 2 S - R 33 E., B.M.

5. The date of priority which said user is prepared to establish is
December 30, 1953.

**NOTICE OF PROOF OF COMPLETION
OF WORKS and APPLICATION OF
WATER FOR BENEFICIAL USE**

Notice is hereby given that at 10:00 a. m., on the 25th day of February, 1956, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, Notary Public, proof will be submitted of the completion of works for the diversion of 4.8 cubic feet per second of the waters of subterranean source with point of diversion in SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 8, T2S-R33 E., B. M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24630 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are G. T. Newcomb, 124 Blue Lakes South, Twin Falls, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 4.8 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 4.8 cubic feet per second.

4. The place where said water is used is SW $\frac{1}{4}$, NW $\frac{1}{4}$, SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec 8, T 2 S - R 33 E., B. M.

5. The date of priority which said user is prepared to establish is December 30, 1953.

MARK R. KULP,

State Reclamation Engineer.

Pub. Feb. 2, 9 ~~1953~~, 1956.
