Re: Permit Nos. G-22934 and G-24600

Mr. Orland E. Simonson
Sterling
Idaho

Dear Mr. Simonson:

Some time ago Mr. William L. Anderson was in this office and said that you wished to make proofs on the $S\frac{1}{2}NW\frac{1}{4}$ and $SW\frac{1}{4}$ of Section 10, Township 4 South, Range 31 East B.M., at this time.

From the information Mr. Anderson gave us we assume that you wish to make the proofs on Permit No. G-22934 on the $S\frac{1}{2}NW\frac{1}{4}$ and the $N\frac{1}{2}SW\frac{1}{4}$ of Section 10 and that Inez Simonson wishes to make the proofs on Permit No. G-24600 on the $S\frac{1}{2}SW\frac{1}{4}$ of Section 10 -- for the use of water from a well located 1320 feet East of the $W\frac{1}{2}$ corner of Section 10 which would be in the center of the $W\frac{1}{2}$ of Section 10. If this is the case, it will be necessary to make amendments to the points of diversion as follows:

Permit No. G-22934 - to amend the point of diversion from the $NW\frac{1}{4}SE\frac{1}{4}$ of Section 9 to - the Center of the $W\frac{1}{2}$ of Section 10, Township 4 South, Range 31 E.B.M.

Permit No. G-24600 - to amend the point of diversion from the $SW\frac{1}{4}SW\frac{1}{4}$ of Section 10 to - the Center of the $W\frac{1}{2}$ of Section 10, Township 4 South, Range 31 E.B.M.

We have enclosed the forms "Application for Amendment" which will change the points of diversion, when properly filled out, and returned to this department.

Since the land in connection with the water permits is a desert land entry, we think there would be less confusion at the Land Office if you were to make the proofs on both permits since each permit lists only half of the land to which the water filed on is to be appurtenant.

Very truly yours,

This license should be amended showing 3.12 cfs rather than 2.12 cfs. The field exam shows 156" allowable which is 3.12, & the letter of 9/10/57 clearly shows an error was made in calculating the cfs from 156 inches.

Dear Mrs. Simonson:

You are correct in regard to Water License No. G-24600 as being complete and final. Mr. Simonson had applied for permits on other ground as stated in the notices you received and are on record in this department. Those Permits No. G-24386 and G-22934 will be cancelled and should cause you no further trouble. Idaho Statutes require that notices be sent before the permits can be cancelled.

Dear Mr Carter:

In receipt of your letter
Oct 30 - 1958 concerning the
well on our desert property
I certainly do not under-
stand what I have failed
to comply with.

I have the "notice of comp-
letion of works & application
of water to Beneficial Use"
also the licence for the well.
The permit no. which you
have on your letter is
G-24386. Also 22934. neither
of which corresponds with
mine, which is G-24600
The point of diversion is

24600

N.E. $\frac{1}{4}$ S.W. $\frac{1}{4}$ Sec 10. T4 S R31 EBN.
The place where water is used
is S $\frac{1}{2}$ S.W. $\frac{1}{4}$ & W $\frac{1}{2}$ S.E. $\frac{1}{4}$.

This action was pub June 7

and all monies have been
paid.

We did have another
160^S West of this property which
had a well started on it.
but we did not finish the
well & we turned the property
back. a man by the name
of Walter G. Bartlett now has
this property & has now
finished the well.

I am wondering, since
the permit numbers you
refer to do not correspond
with mine - if there is
not a mistake -

also - the permit I have is
filed in Inez Simonson -
which probably does not
matter as we are husband

Please advise me about
this matter immediately &
explain to me where I have
failed to do right, as I
had thought every thing had
been finished properly.

Re: Permit No. G-24600

Mrs. Inez Simonson
Sterling,
Idaho

Dear Mrs. Simonson:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-24600 shows that your well is in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 10 and is capable of conveying 156 miner's inches (2.12 c.f.s.) of water for irrigation of 250 acres in the SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, and S $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 10, all in Township 4 South, Range 31 East, B.M. The record of the permit shows the point of diversion to be in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 10 and the land listed as being in the S $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 10, Township 4 South, Range 31 East, B.M. Therefore, it is necessary, before a Certificate of Completion of Works and a License and Certificate of Water Right can be issued, that an amendment which changes the point of diversion and the land list on the permit, be made. We have enclosed the necessary forms for this purpose and ask that you complete and return them.

Upon receipt of the amendments, mentioned above, and the total statutory fee of \$21.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License (sixteen dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of December 5, 1953, to your use of 2.12 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 10, for irrigation of 250 acres in the SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 10, Township 4 South, Range 31 East, B. That he now requests that the point of diversion be changed to a point located NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 10, Twp. 4.S. R. 31.E.

That his reasons for desiring to make such change are as follows:
Better location for well,

Signed at Boise Idaho., this 1 day of April 1957

Inez Simonson,

By *Mark R. Kulp* Agent.

Re: Permit Nos. G-22934 and G-24600

Mr. Orland E. Simonson
Sterling
Idaho

Dear Mr. Simonson:

Some time ago Mr. William L. Anderson was in this office and said that you wished to make proofs on the $S\frac{1}{2}NW\frac{1}{4}$ and $SW\frac{1}{4}$ of Section 10, Township 4 South, Range 31 East B.M., at this time.

From the information Mr. Anderson gave us we assume that you wish to make the proofs on Permit No. G-22934 on the $S\frac{1}{2}NW\frac{1}{4}$ and the $N\frac{1}{2}SW\frac{1}{4}$ of Section 10 and that Inez Simonson wishes to make the proofs on Permit No. G-24600 on the $S\frac{1}{2}SW\frac{1}{4}$ of Section 10 -- for the use of water from a well located 1320 feet East of the $W\frac{1}{2}$ corner of Section 10 which would be in the center of the $W\frac{1}{2}$ of Section 10. If this is the case, it will be necessary to make amendments to the points of diversion as follows:

Permit No. G-22934 - to amend the point of diversion from the $NE\frac{1}{4}SE\frac{1}{4}$ of Section 9 to - the Center of the $W\frac{1}{2}$ of Section 10, Township 4 South, Range 31 E.B.M.

Permit No. G-24600 - to amend the point of diversion from the $SW\frac{1}{4}SW\frac{1}{4}$ of Section 10 to - the Center of the $W\frac{1}{2}$ of Section 10, Township 4 South, Range 31 E.B.M.

We have enclosed the forms "Application for Amendment" which will change the points of diversion, when properly filled out, and returned to this department.

Since the land in connection with the water permits is a desert land entry, we think there would be less confusion at the Land Office if you were to make the proofs on both permits since each permit lists only half of the land to which the water filed on is to be appurtenant.

Very truly yours,
