RE: Permits Nos. G-24593 & G-24594

Mr. Harold A. Ranquist
Route 2
Blackfoot, Idaho

Dear Mr. Ranquist:

In checking notices received this morning for proofs of Completion of Works and Beneficial Use on the above numbered permits in the name of Neal Williams, we note the following discrepancies in the land descriptions in each.

Permit No. G-24593 described land in the $W\frac{1}{2}NW\frac{1}{4}$, $SE\frac{1}{2}NW\frac{1}{4}$ and $NE\frac{1}{4}SW\frac{1}{4}$ Section 15, Township 3 South, Range 33 East, B.M., whereas the notice only describes the $W\frac{1}{2}NW\frac{1}{4}$ of said section.

Permit No. G-24594 describes land in the $SW\frac{1}{4}$, $NW\frac{1}{4}SE\frac{1}{4}$ Section 16, Township 3 South, Range 33 East, B.M., whereas the notice only describes the $SW\frac{1}{4}SW\frac{1}{4}$ of said section.

Please advise if it was intended to only include a portion of the land in these notices or if the omission was in error.

Attention: Mr. Blair W. Archibald, Manager

Gentlemen:

Further check of our records in this office does indeed disclose that we erroneously reported to you that the licensed quantity of water under subject permit was 1.16 cubic feet per second. It should have been 2.46 cubic feet per second with a priority of December 3, 1953, from a well in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 16, Township 3 South, Range 33 E.B.M., for irrigation of land in the SW $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 16.

A re-examination would be necessary if the exact location of the well is desired, since it is so close to the center of the SW $\frac{1}{4}$ that our examiner reported the location as in NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 16.

We are very sorry if our mistake has caused you inconvenience.

Re: Neal Williams

Gentlemen:

Reference is made to your letter of May 17, 1962 signed by H. Petri, Water Rights Clerk, wherein you advised in response to our request for information on permit # G-24594 regarding Neal Williams, that this license was for 1.16 cubic feet per second with a priority of December 3, 1953 and was appurtenant to the SW-1/4, NW-1/4SE-1/4 of Section 16 Township 3 South Range 33 EBM in Bingham County Idaho. Mr. Williams has still been unable to locate his license, but we are writing to request that you again check your records as the information you furnished us does not seem to be proper since this would grant only 58 M.I. and Mr. Williams claims to be irrigating nearly 200 acres of land. Mr. Williams has been looking through his records and brought in a letter to us from you dated July 15, 1955 which would indicate that this particular permit was approved for 123 M.I. of water or 2.46 second feet.

We would appreciate it if you would again check your records and advise us as to which information is correct.

Yours truly,

RE: Permit No. G-24594

Mr. Neal Williams
Route 1
Pingree, Idaho

Dear Mr. Williams:

The report of our field engineer on examination for completion of works and beneficial use on your Permit No. G-24594 shows that your well in the SW¹/₄SW¹/₄ Section 16, Township 3 South, Range 33 East, T.M. will deliver 123 inches of water which has been used to irrigate 190 acres in the SW¹/₄ and NW¹/₄SE¹/₄ of said Section.

A Certificate of Completion of Works and License can, therefore, be issued for 123 inches or 2.46 second feet of water upon receipt of the statutory fees. These amount to \$5.00 for completion of works and \$10.00 license fee.

Very truly yours,

MARK R. KULP

Dear Mr. Williams:

This morning's mail brings us affidavits of publication in the Blackfoot Daily Bulletin in connection with the proofs of completion of works and beneficial use on the above numbered Permits.

This completes the proofs but before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

We enclose your statements for costs of publication which you will doubtless wish to keep in your own files.

RE: Permits Nos. G-24593 and G-24594

Mr. Harold A. Ranquist
1385 Butler Avenue
Salt Lake City, Utah

Dear Mr. Ranquist:

We have your letter of September 22 enclosing depositions of Neal Williams and two witnesses in proof of completion of works and beneficial use on the above numbered Permits.

We return the depositions for correction as follows:

1. Question 5 of the deposition of the Permit Holder should state the amount of water the works are capable of conveying and should also give the kind and power of the pump.

2. In the depositions in connection with Permit No. G-24593, we note under Question 6 they only described the W $\frac{1}{2}$ N $\frac{1}{4}$ of Section 15, Townsh. 3 South, Range 33 East B. .. Whereas, the original permit also includes the SE $\frac{1}{4}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$ of said Section. Was this omission intentional?

The affidavits of publication are also a necessary part of the proof and should accompany the depositions, and the Blackfoot Daily Bulletin was instructed to send these affidavits to Mr. Williams. If he has not received them, we suggest that the matter be taken up with the newspaper at once.

Dear Mr. Ranquist:

In checking notices received this morning for proofs of Completion of Works and Beneficial Use on the above numbered permits in the name of Neal Williams, we note the following discrepancies in the land descriptions in each. .

Permit No. G-24593 described land in the $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 15, Township 3 South, Range 33 East, B.M., whereas the notice only describes the $\frac{1}{2}$ NW $\frac{1}{4}$ of said section.

Permit No. G-24594 describes land in the SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 16, Township 3 South, Range 33 East, B.M., whereas the notice only describes the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of said section.

Please advise if it was intended to only include a portion of the land in these notices or if the omission was in error.

Dear Mr. Ranquist:

Your letter dated July 23 reached us a couple of days ago requesting both forms for making proof of completion of works and beneficial use on the above numbered Permits in the name of Neal Williams.

Notice should be made in duplicate on form 36 for each Permit setting the time and place and naming the Notary Public before whom the proof is to be made.

The proof may be made at any place convenient for Mr. Williams and his two witnesses and the time must be set sufficiently far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this department, for each permit, together with Form 11 which is authorization for us to have the notice published at Permit Holder's expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send Mr. Williams the necessary forms of deposition to be used in making the proof.

Very truly yours,

RE: Permits Nos. G-24593 and G-24594

Mr. Neal Williams
Pingree
Idaho

Dear Mr. Williams:

We enclose Permits Nos. G-24593 and G-24594, together with departmental receipts Nos. G-357 and G-358 for the filing fees in connection therewith.

You will note that we have allowed two years within which to make the proofs of completion of works and beneficial use required to complete the water right, although both applications state that the works are either completed at this time or will be completed by May 1, 1954.

The two years' time is in conformity with the statute which sets two years as the minimum within which we may require these proofs. However, they may be made at any earlier date that you are prepared to make them and we shall be glad to send you, upon request, the necessary forms for making the proofs.

Very truly yours,
