INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Name of applicant Ivan Gardner Phone 785-3619Post Office address Rt. 1, Box 200, Blackfoot, Idaho 83221

A. DESCRIPTION OF RIGHT AS RECORDED

1. Right evidenced by:

a. Decree No. _____ Decreed to _____ (Name)
in case of _____ vs _____
dated in _____ in _____ county of _____
(Name of court)

b. License No. 35-2136 issued by the Idaho Department of Water Resources

c. Claim No. _____ on file with the Idaho Department of Water Resources

2. If applicant is not the original holder of this right, explain how it was acquired and attach a copy of the deed or other evidence of ownership of the land to which the right is appurtenant Applicant obtained water right through purchase of the land under water right license.

3. Source of water Groundwater tributary to _____

4. Date of priority 4-9-1949

5. Water is used for the following purposes

amount 3.20 cfs for Irrigation purposes from 4-1 to 11-1
amount _____ for _____ purposes from _____ to _____
amount _____ for _____ purposes from _____ to _____
(month/day — both dates inclusive)

6. Total amount of water under right: a. 3.20 cubic feet per second
&/or
b. _____ acre feet per annum

7. Location of original point of diversion is SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 18
Township 1S Range 36E, B.M., in Bingham County
Additional points of diversion, if any _____

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 32176
Permit No. G- 24380
District No.

1. Name of Applicant: FRANCIS T. SMITH
Postoffice address: Rt. 1, Shelley County: Bingham State: Idaho
2. Quantity of water claimed: 120 Miner's inches
 - (a) Rate of withdrawal in cubic feet per second. 2.4 or Idaho
Miners' inches or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: 2 drilled wells to raise subterranean water
4. Location of point of diversion or well is in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 18
Twp. 1 S. , Rge. 36 E. , B.M., County of Bingham
5. Water is to be used for: irrigation and domestic
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: 2 drilled wells equipped with motor and pump for raising subterranean water through a cased well.
8. Estimated cost of works: \$ 6,000 (apportioned to the water applied for under this permit.)
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5 years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash onhand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

All of the land included in this application for which beneficial use will be made by irrigation of water raised through subterranean sources from a drilled well has been either applied for under desert land entry or has been purchased from the Federal Government. The source of this water and the two points of diversion designated are already set up as points of diversion under water permits #21009 and 21008. I have drilled these wells under permits as applied for in 1949 and have used the water continuously on these lands designated since that time and have paid trespass to the Federal Government for the use of this water on these lands in agricultural production; however, the survey in this area has been very controversial and it is only recently that I was able to obtain an accurate engineered survey which showed that I had more land under irrigation than I had originally applied for and as the water produced from my two wells will adequately qualify the amounts needed to fill permits #21008 and 21009 as well as permit #24129 granted to Myrtle Elvirna Smith, I will be prepared to make proof of completion of works and beneficial use of water. BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

FRANCIS T. SMITH

Applicant.

By

Agent.

Date of first receipt at Department of Reclamation: 3:15 p.m. August 19, 1953

Returned to applicant for correction:

Corrected application received:

Approval of State Reclamation Engineer

The number of this permit is G-24380

Recorded in Book 86 Page 24380 Approved August 24, 1953

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ to be filed on or before

Work to begin on or before October 24, 1953

and to continue diligently and uninterruptedly to completion,

unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before February 24, 1956

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before August 24, 1958.

Witness my hand this 24th day of August, 1953

MARK R. KULP
State Reclamation Engineer.

Permit No. G-24380 CERTIFICATE OF COMPLETION OF WORKS																			
TO ALL WHOM IT MAY CONCERN: This is to certify that FRANCIS T. SMITH of Shelley, County of Bingham, and state of Idaho, the holder of Permit No. G-24380, issued upon Application No. G-32176 bearing date of priority of August 19, 1953, authorizing the diversion of 2.4 second feet of the waters of Two wells (subterranean flow) County of Bingham, State of Idaho for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 1.98 second feet of the waters of said wells; that the points of diversion of said waters are as follows: SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 18, Twp. 1 South, Range 36 East, B.M. and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: E $\frac{1}{2}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17; E $\frac{1}{2}$ NE $\frac{1}{4}$ Section 18; NE $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 19; Township 1 South, Range 36 East B.M.																			
Witness my hand this 6th day of November A. D. 1954.																			
Proof of completion of works made November 14, 1953 Certificate of Completion of Works issued November 6, 1954															MARK R. KULP State Reclamation Engineer

Re: Permit No. G-24129 and G-24380

Mr. Francis T. Smith
Route 1
Shelley, Idaho

Dear Mr. Smith:

We enclose Certificate of Completion of Works also License and Certificate of Water Right issued under Permit No. G-24380 confirming your right to the use of 1.98 second foot of water from two wells in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 18, Township 1 South, Range 36 East B.M. with priority of August 19, 1953 for irrigation and domestic use on the W $\frac{1}{2}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ Section 17; E $\frac{1}{2}$ NE $\frac{1}{4}$ Section 18; NE $\frac{1}{4}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ and S $\frac{1}{2}$ SW $\frac{1}{4}$ Section 19, Township 1 South, Range 36 East B.M.

We also enclose Certificate of Completion of Works and License and Certificate of Water Right issued under Permit No. G-24129 confirming the right of Myrtle Elvirna Smith to the use of 0.38 second foot of water from a well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 18, Township 1 South, Range 36 East B. . with priority of May 15, 1953, for irrigation of 19 acres in Lot 1 Section 19, Township 1 South, Range 36 East B.M.

We also enclose departmental receipt No. G-847 for \$32.00 for fees for completion of works and licenses on the above numbered Permits.

Very truly yours,

MARK L. KULP

RE: Permit No. 24380

Mr. Francis T. Smith
Route 1
Shelley, Idaho

Dear Mr. Smith:

The report of our field engineer on examination for completion of works and beneficial use on Permit No. 24380 shows that your well in the SW¹/₄SE¹/₄ of Section 18, Township 1 South, Range 36 East B.M. will deliver 71 inches and your well in the SE¹/₄SE¹/₄ of said Section 18 will deliver 28 inches and that this water has been used to irrigate 99 acres in Sections 17, 18 and 19.

A Certificate of Completion of Works and License can therefore be issued for 71 inches from the West well and 28 inches from the East Well upon receipt of the statutory fees. These amount to \$5.00 for Certificate of Completion of Works and \$20.00 License fee, the latter being at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 24380

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Francis T. Smith, Route 1, Shelley, Idaho

2. Source of water supply: Subterranean from two wells

3. Location of point of diversion: Is in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 18

T. 1 S. R. 36 E. County of Bingham

4. Describe works as they exist, giving dimensions and capacities of same: _____

See Permits Nos. 21008 and 21009.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: _____

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

W $\frac{1}{2}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 17;

E $\frac{1}{2}$ NE $\frac{1}{4}$ Section 18;

NE $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 19;

Twp. 1 South, Range 36 East, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

_____s permit is supposed to be on _____ same two wells named in 21008 and 21009-but through an error in filing for 24380 one well was described as in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 18 instead of NE $\frac{1}{4}$ SE $\frac{1}{4}$, and it was so advertised. However, there seems to be some little doubt in Smith's mind as to whether it is actually on which 40- So when inspection is made one or the other will have to be amended. The same two wells are the ones from which water is claimed on 21008, 21009, 24129 and 24380

This examination was made on the 16th day of June, 19 54.

(Signed) E. H. Humphrey Examiner.

RE: Permits Nos. 24129 and 24380

Mr. Harley M. McDowell
Idaho Building
Boise, Idaho

Dear Mr. McDowell:

We have placed on file the depositions of Myrtle Elvirna Smith and two witnesses, also affidavit of publication in the Shelley Pioneer in proof of completion of works and beneficial use on Permit No. 24129.

Also the depositions of Francis T. Smith and two witnesses together with affidavit of publication in the Shelley Pioneer in proof of completion of works and beneficial use on Permit No. 24380.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Smith at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP

Mr. Max Williams
287 So. Birch St.
Blackfoot, Idaho

Dear Mr. Williams:

We enclose Permit No. G-23989 together with departmental receipt 25761 for \$5.75 filing fees.

You will note that this has been approved for 3.2 second feet, or 160 inches, as one inch per acre is the maximum allowed by statute for irrigation purposes.

You will also note that we have allowed five (5) years within which to make proof of completion of works and beneficial use, as that is the maximum allowed by statute.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 24380

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is Francis T. Smith; residence, 1 mile south and 1/2 mile west of Shelley,
Idaho; occupation, farming; postoffice address, Rt. 1, Shelley, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual.

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. The number of my permit is 24380; date of permit, August 24, 1953 and date of priority August 19, 1953.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water is subterranean with two drilled wells, both equipped with turbine type pumps. The points of diversion are T 1 S - R 36 E, Section 18, SW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. The diversion works consist of two drilled wells, one equipped with 100 h.p. motor, cased with 20" and 18" casing, the other equipped with 75 h.p. motor and 18" casing. The wells are drilled to a depth of 201' and 175' respectively and the diversion works are capable of diverting all of the water claimed in Permits #21008 and #21009 and in addition that 120 inches claimed in this permit now applied for and designated as #24380. The pumps are capable together of discharging 450 Miner's inches and as these two permits only make proof on 320 Miner's inches and this permit is for 120 Miner's inches, this does not exceed the total discharge of both wells. This was measured by the well driller and pump company by a system which I witnessed and which in my best estimate was accurate.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation of the following described land: T 1 S - R 36 E, Section 17, NW $\frac{1}{4}$ NW $\frac{1}{4}$, 8 acres; SW $\frac{1}{4}$ NW $\frac{1}{4}$, 15 acres; NE $\frac{1}{4}$ SW $\frac{1}{4}$, 8 acres; Sec. 18, NE $\frac{1}{4}$ NE $\frac{1}{4}$, 7 acres, SE $\frac{1}{4}$ NE $\frac{1}{4}$, 30 acres; Sec. 19, NE $\frac{1}{4}$ NE $\frac{1}{4}$, 11 acres, SW $\frac{1}{4}$ NE $\frac{1}{4}$, 8 acres; NE $\frac{1}{4}$ SW $\frac{1}{4}$, 8 acres; SW $\frac{1}{4}$ SW $\frac{1}{4}$, 1 acre; SE $\frac{1}{4}$ SW $\frac{1}{4}$, 24 acres. All of the land is cultivated and tilled and there is no natural meadow. All the improvements have been made as a direct result of the use on the land and I again wish to refer to my comment on Permit #24380 wherein I entered this land, set up my water system and actually irrigated it as early as 1950 without any knowledge that the land did not belong to me. Since then I have gained patent and right on the land but my priority actually dates back to 1950 rather than the date I am trying to establish at this time.

24380

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Only irrigation.

Ques. 8. What is the minimum amount of water required for the purpose specified above? The amount applied for on these subdivisions and these acreages is the minimum that could be used to raise an agricultural crop.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the person who actually made application for this permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water from these two wells has been diverted since 1949 when they were drilled and used in actual agricultural production during the years 1950, 1951, 1952 and 1953 except for a small portion of that in the southwestern part of Section 19 which was only cultivated in 1953. All of this water has been used for agricultural production and beneficial use on these lands.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There are no waters claimed or used on these lands other than those mentioned in this permit, as to actual acreage; however, the points of diversion and distribution works are used in connection with permits #21008 and 21009 but there is no overlapping of the acreage and I claim no priority other than on this permit and as mentioned in the conditions and remarks which I made appurtenant thereto.

(Sign) Francis T. Smith

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise, County of Ada, State of Idaho, on this 14 day of November, A. D. 19 53,

Harley M. McDonald
Notary Public for the State of Idaho

My commission expires 10/11/55

24380

**STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO**

Permit No. 24380

**Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Maxine Ransome; age, 30; residence, 1/2 mile southwest of Kuna, Idaho;
occupation, housewife; postoffice address, Box 101, Kuna, Idaho.

Ques. 2. Are you acquainted with Francis T. Smith, the holder of Permit No. 24380? How long have you known him and where does he reside?

Ans. I have known him all my life and he resides 1/2 mile west of Shelley,
Idaho.

Ques. 3. Have you read or heard read said Permit No. 24380, and are you familiar with its provisions and conditions?

Ans. Yes I have and am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of water is subterranean; places of diversion, 2 drilled wells in T 1 S-
R 36 E, Section 18, SW₄SE₄, SE₄SE₄. Works consist of 2 drilled wells, with 100 h.p. and 75 h.p.
pumps and motors. NE

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate the two wells are capable of producing 450 Miners inches of water, 320
of which has been applied for in 21008 and 21009 and the remainder of 120 Miner's inches in this

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons ^{permit.} per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen these pumps deliver 450 Miner's inches I would estimate, 120 of which
is covered in this permit. My estimate is based on the fact that I have lived on a ranch and
seen irrigation all my life.

24380

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation on the following subdivisions: T 1 S - R 36 E, B.M. Section 17, NW $\frac{1}{4}$ NE $\frac{1}{4}$, 8 acres; SW $\frac{1}{4}$ NW $\frac{1}{4}$, 15 acres; NW $\frac{1}{4}$ SW $\frac{1}{4}$, 8 acres; Section 18, NE $\frac{1}{4}$ NE $\frac{1}{4}$, 7 acres; SE $\frac{1}{4}$ NE $\frac{1}{4}$, 30 acres; Section 19, NE $\frac{1}{4}$ NE $\frac{1}{4}$, 11 acres; SW $\frac{1}{4}$ NE $\frac{1}{4}$, 8 acres; NE $\frac{1}{4}$ SW $\frac{1}{4}$, 8 acres; SW $\frac{1}{4}$ SW $\frac{1}{4}$, 1 acre; SE $\frac{1}{4}$ SW $\frac{1}{4}$, 21 acres. There is no natural meadow land and all the improvements are as a direct result of agricultural development.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. For irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Character of the land is volcanic ash, sandy loam soil. The amount of water required for profitable cultivation would be at least 1 Miner's inch to the acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been over this land at frequent intervals since the well was drilled in 1949 and have witnessed the application to beneficial use of the water.

(Signed) Marjorie Ransom

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Poise, County of Ada, State of Idaho, on this 14 day of November, A. D. 1953.

veying water from point of diversion to place of use.

Ans. The source of this water is subterranean; place of diversion, 2 drilled wells,
T 1 S - R 36 E, Section 18, SW 1/4 SE 4, NE 1/4 SE 4. works consist of 2 drilled wells, one with 100 h.p.
and one with 75 h.p. motors and turbine type pumps. I know that these lands were irrigated by
the applicant prior to 1953. In fact they have been used, as he mentions on the permit since
1950. They were drilled in 1949.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. The two wells are capable of producing 450 Miner's inches and I know that they pro-
duce at least a surplus of 120 Miner's inches included in this permit over that which has been
proven on the above two permits.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen these pumps deliver 450 Miner's inches of water, 320 of which is covered
in permits 21008 and 21009. I have had some experience in seeing water measured over a weir
from a course taken in water measurement at Utah State College of Agricultural Mechanical Arts
and my estimate is based on this experience.

24380

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used on the following subdivisions for irrigation: T 1 S - R 36 E, Section 17, NW $\frac{1}{4}$ NW $\frac{1}{4}$, 8 acres; SW $\frac{1}{4}$ NW $\frac{1}{4}$, 15 acres; NW $\frac{1}{4}$ SW $\frac{1}{4}$, 8 acres; Section 18, NE $\frac{1}{4}$ NE $\frac{1}{4}$, 7 acres; SE $\frac{1}{4}$ NE $\frac{1}{4}$, 30 acres; Sec. 19, NE $\frac{1}{4}$ NE $\frac{1}{4}$, 11 acres; SW $\frac{1}{4}$ NE $\frac{1}{4}$, 8 acres; NE $\frac{1}{4}$ SW $\frac{1}{4}$, 8 acres; SW $\frac{1}{4}$ SW $\frac{1}{4}$, 1 acre; SE $\frac{1}{4}$ SW $\frac{1}{4}$, 21 acres. All the land is cultivated for intensive agriculture and none of it could be natural meadow land. All the improvements are made as a direct result of this beneficial use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only, no power.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of the land is volcanic ash soil, sandy loam. My estimate of the amount of water required for profitable cultivation is at least 1 Miner's inch/acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I was on the location at the time and shortly after these wells were drilled and have been back to this property and examined it at least two or three times each year since 1949.

(Signed)

Max G. Ransom

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise, County of Ada, State of Idaho, on this 14 day of November, A. D. 1953.

Harley L. McDowell

Notary Public.

**NOTICE OF PROOF OF COMPLETION
OF WORKS and APPLICATION OF
WATER TO BENEFICIAL USE**

Notice is hereby given that at 10:00 A. M., on the 14th day of November, 1953, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, proof will be submitted of the completion of works for the diversion of 2.4 cubic feet of the waters of subterranean flow from two wells in the SE $\frac{1}{4}$ -SE $\frac{1}{4}$ and SW $\frac{1}{4}$ -SE $\frac{1}{4}$, Sec. 18, Twp. 1 S., Rge. 36 E. B. M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 24380 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Francis T. Smith, Rt. 1, Shelley, Idaho.

Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 2.4 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 2.4 cubic feet per second.

4. The place where said water is used is T 1 S - R 36 E, Sec. 17, W1/2NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 18, E1/2NE $\frac{1}{4}$; Sec. 19, NE $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, E1/2SW1-4, and SW $\frac{1}{4}$ SW $\frac{1}{4}$, B. M.

5. The date of priority which said user is prepared to establish is August 19, 1953.

MARK R. KULP,
State Reclamation Engineer.

Affidavit of Publication

I, John Colley

publisher

....., of the
SHELLEY PIONEER, published weekly at Shelley, Idaho, do
solemnly swear that a copy of the notice, as per clipping attached

**NOTICE OF PROOF OF COMPLETION
OF WORKS and APPLICATION OF
WATER TO BENEFICIAL USE**

Notice is hereby given that at 10:00 A. M., on the 14th day of November, 1953, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, proof will be submitted of the completion of works for the diversion of 2.4 cubic feet of the waters of subterranean flow from two wells in the SE $\frac{1}{4}$ -SE $\frac{1}{4}$ and SW $\frac{1}{4}$ -SE $\frac{1}{4}$, Sec. 18, Twp. 1 S., Rge. 36 E. B. M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 24380 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Francis T. Smith, Rt. 1, Shelley, Idaho.

Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 2.4 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 2.4 cubic feet per second.

4. The place where said water is used is T 1 S. - R 36 E, Sec. 17, W1/2NW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$; Sec. 18, E1/2NE $\frac{1}{4}$; Sec. 19, NE $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, E1/2SW $\frac{1}{4}$, and SW $\frac{1}{4}$ SW $\frac{1}{4}$, B. M.

5. The date of priority which said user is prepared to establish is August 19, 1953.

10-29 MARK R. KULP,
State Reclamation Engineer.
