Re: Permit No. G-24173

Dr. C. Steven Hatch, M.D.
1050 Memorial Drive
Idaho Falls, Idaho

Dear Dr. Hatch:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-24173 shows that the well is capable of conveying 100 miners' inches (2.0 c.f.s.) of water for irrigation of 250 acres, and, that it is located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 7, Township 3 South, Range 32 East, B.M., whereas, the record of the permit lists the point of diversion in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 7. Therefore, it is necessary that the permit be amended and we have enclosed a form for application for amendment to point of diversion for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totalling \$21.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (sixteen dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of June 1, 1953, to your use of 2.0 second feet of subterranean water, with the point of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 7, for irrigation of 250 acres in the S $\frac{1}{2}$ of Section 7, Township 3 South, Range 32 East, B.M.

Hatch Clinic

Attention: Mr. Steven Hatch, M. D.

Dear Dr. Hatch:

Acknowledging your letter of December 20, 1957 in regard to Permits as stated above.

We wish to state that in reference to Permits Nos. G-24173 and G-24174, final proofs have been received on both of these permits. Before state license can be issued, it is necessary that a field examination be made by the department, as you have been previously notified. Due to so many field examinations to be made, it was not possible to make these examinations last fall, however, said examination will be made this next spring or early summer. You will be advised when the inspection can be made.

In connection with Permit No. G-24172, final proofs are not due until June 5, 1959, however proofs can be submitted prior to said date, providing you have everything in readiness for making final proofs. Permit No. G-24172 can also be granted an additional two years extension from June 5, 1959 to June 5, 1961, for the reason that an extension is allowable due to the fact that you were not allowed to go on to said land by the Bureau of Land Management in connection with your desert entry No. Idaho 04246. We can allow you five years from the date of approval of your desert entry, which would be until July 5, 1961, by request in letter form.

We hope this gives you the desired information, and if not, feel free to write us again.

Very truly yours,

RE: Permit No. G-24173

Dr. C. Steven Hatch, M. D.
1050 Memorial Drive
Idaho Falls, Idaho

Dear Doctor Hatch:

We acknowledge receipt of the affidavit of publication in The Daily Bulletin and we appreciate your prompt attention in this request.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Doctor Hatch:

In answer to your letter of July 15th in regard to publication notices in connection with Permit Nos. G-24173 and G-24174, was somewhat confusing since you stated that your proofs were to be made in Blackfoot and we naturally considered that your Notary would be in Blackfoot also. However, we have requested the paper to change the location from Blackfoot to Idaho Falls in their subsequent issues for publication. Therefore you may have the depositions taken in connection with said proofs at Idaho Falls.

You also wish to know how soon after said proofs are made on your water right that you should make final proofs requesting patent for your land from the Bureau of Land Management. We see no reason why you should not apply for patent any time you wish, as in a good many cases the Bureau of Land Management issues a patent prior to the Department of Reclamation issuing a license on the water right. It may take some time after applying for the patent before you receive same and by that time, in all probability, your license or water right can be obtained.

THIS LETTER IS AN INQUIRY AS TO WHETHER OR NOT IS NECESSARY FOR THE PROOF OFFICER TO RESIDE IN BLACKFOOT. CONVENIENCE OF APPEARANCE OF BOTH APPLICANTS AND WITNESSES WOULD BE FACILLITATED BY THE AFFIDAVITS BEING MADE OUT IN IDAHO FALLS.

WE WILL AWAIT YOUR REPLY, AND IF NECESSARY, MAKE APPROPRIATE CHANGES IN ARRANGEMENT.

ONE OTHER POINT WHICH YOUR EXPERIENCE MAY CLEAR FOR ME IS THIS: IT APPARENTLY IS NECESSARY TO HAVE THE STATE RECLAMATION ACTION ON THE WATER PRIOR TO FINAL PROOF FOR THE DEPARTMENT OF INTERIOR FOR RECEIVING TITLE TO THE LAND. IF SUCH IS TRUE, HOW MUCH TIME SHOULD ELAPSE AFTER THE APPEARANCE WITH WITNESSES FOR APPLICATION FOR THE WATER TO BE REASONABLY SURE OF HAVING THE WATER CLEARED PRIOR TO PLANNING THE APPEARANCE BEFORE THE PROOF OFFICER FOR THE DEPARTMENT OF INTERIOR IN ORDER TO RECEIVE TITLE FOR THE LAND. IN OTHER WORDS, HOW LONG DOES IT TAKE FOLLOWING THE SUBMISSION OF THE QUESTIONNAIRES FROM THE PROOF OFFICER TO RECEIVE POSITIVE INFORMATION.

I AM VERY APPRECIATIVE OF YOUR HELPFULNESS TO US.

Dear Dr. Hatch:

We have your letter of June 24, 1957 stating that you are prepared to make proofs of completion of works and beneficial use on Permits Nos. G-24173 and G-24174.

Before these proofs are made, the statutes require publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the notary public before whom the proofs are to be made.

Both copies of Form 36 to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the forms of deposition to be executed by you self and two disinterested witnesses in making these proofs.

The proofs may be made at any place convenient for you and your two witnesses but the date must be set far enough ahead to allow for four weeks publication.

RE: Permits Nos. G-24172, G-24173 & G-24174

Dr. C. Steven Hatch
1050 Memorial Drive
Idaho Falls, Idaho

Dear Dr. Hatch:

We enclose herewith extension of time for completion of works on Permit No. G-24172 to June 6, 1959; extension of time for completion of works on Permit No. G-24173 to October 28, 1959; and extension of time for completion of works on Permit No. G-24174 to September 14, 1959, all of which have been approved by the State Reclamation Engineer and recorded in this department.

These extensions of time should be attached to the original Permits of which they now form a part.

Very truly yours,

Permit G-24173
CSH:175:PF

Mark R. Kulp
State Reclamation Engineer
Department of Reclamation
Boise, Idaho

Dear Sir:

Relative to the above permit to appropriate subterranean water in the state of Idaho, please allow this letter to serve as formal application for extension of time for completion of works in application of water to beneficial use.

Although permit was granted on June 6, 1953, we were prohibited occupancy until October 28, 1954. Over half of the land has been cleared; a well supply sufficient for the total acreage has been drilled and a sprinkler system was used for cultivation of the prepared land. Additional clearing will be required and additional sprinkler system extension plus a change in the size of the pump to complete the works and beneficial use of water on this farm.

A two year is respectfully requested. If any further information or activity is required by us regarding this, kindly advise.

Very truly yours,

C. Steven Hatch

Dear Sir:

We enclose herewith blank notice for proof of completion of works and application of water to beneficial use under your Permit No. 0-24173. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than June 6, 1956.

Very truly yours,

MARK R. KULP

RE: Permit No. G-24173

Dr. C. Steven Hatch
1050 Memorial Drive
Idaho Falls, Idaho

Dear Dr. Hatch:

Your letter of June 30th has been referred to this Department by the Idaho District Land Office and we note that you have completed your well and sprinkler system and are irrigating the cleared land under Permit No. G-24173.

If the land has been completely irrigated so that you are able to make proof of completion of works and beneficial use, you may do so at any time, although the proofs are not actually due until June 6, 1956.

Before these proofs are made, the statutes require publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the Notary Public before whom the proofs are to be made.

The proofs may be made at Idaho Falls or any place convenient for you and your two witnesses but the time must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this Department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the forms of deposition to be executed by yourself and two witnesses in making these proofs.

Very truly yours,

MARK R. KULP

Dear Sir:

I am happy to inform you that under permit No. G-24173 for desert land entry, a well has been installed and a sprinkling system set up and I am now in the process of irrigating the cleared land.

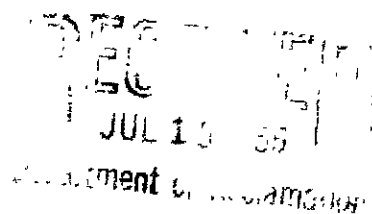

If this letter will not serve as proof of water use, would you kindly inform me as to what steps are necessary to provide formal proof and if forms are necessary, would you kindly provide the same.

Sincerely yours,

C. Steven Hatch M.D.

RE: Permits Nos. G-24172, G-24173, and G-24174

Mr. Harvey A. Hatch
Idaho Falls
Idaho

Dear Mr. Hatch:

Reference is made to your telephone request for two copies of Permits Nos. G-24172, G-24173 and G-24174 in the names of yourself, C. Steven Hatch, and Joseph M. Hatch, to be sent to the Bureau of Land Management for use in connection with desert land entries filed there.

The applications did not state that these permits were to be used in connection with desert land entries or we would have informed you at the time that these extra copies were required.

However, we shall make two copies of each of these permits, certify one of each and forward to the Bureau of Land Management within the next day or two. The fee for making these will be \$2.00 each, for which please send us your check.
