RE: Permit No. 24129

Mr. Francis T. Smith
Route 1
Shelley, Idaho

Dear Mr. Smith:

The report of our field engineer on examination for completion of works and beneficial use on Permit No. 24129 in the name of Myrtle Elvirna Smith shows that the well in the S 1/4 SE 1/4 Section 18, Township 1 South, Range 36 East B.M. has been used to irrigate 19 acres in the NW 1/4 NW 1/4 (Lot 1) Section 19, same Township and Range.

A Certificate of Completion of Works and License can therefore be issued for 19 inches or .38 second foot of water from said well. The statutory fees for which amount to \$5.00 for Certificate of Completion of Works and \$2.00 License fee.

Very truly yours,

MARK R. VULP
State Reclamation Engineer

Permit No. 24129

Examination for Completion of Works
and Beneficial Use

County Bingham

18-1S-36E

Q = 0.68 c.f.s.

S = Well

NE = SW. SE, Sec. 18, T. 1 S. - R. 36 E

Use = Irrigation

Priority = May 15, 1953
Due = May 21, 1958

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 24129

This proof is for Completion of Works & Beneficial Use In Water District No.

1. Name of applicant Myrtle Elvirna Smith, Route 1, Shelley, Idaho

2. Source of water supply: Subterranean from a well

3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 18

T. 1 S. R. 36 E. County of Bingham

4. Describe works as they exist, giving dimensions and capacities of same: Well is 202'
deep by 20" diameter. Cased 20'. H=138', 5' draw down. Bowls and Column unknown.
Fairbanks Morse Pump No. PL 1388. 100 HP, U. S. Motor No. 857009. Wooden
pump house 6' by 6' by 7 $\frac{1}{2}$ ' high, concrete floor, aluminum roof. 12" delivery to the
West into a sump. Gravity system. Water is carried to the place of use through
a high dike ditch.

5. Water is used for: irrigation

6. State whether or not water has been turned into works of diversion:

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Lot 1, Section 19, Twp. 1 South, Range 36 East, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

This examination was made on the 16th day of June, 1954.

(Signed) E. H. Humphrey Examiner.

November 24, 1953

RE: Permits Nos. 24129 and 24380

Mr. Harley M. McDowell
Idaho Building
Boise, Idaho

Dear Mr. McDowell:

We have placed on file the depositions of Myrtle Elvira Smith and two witnesses, also affidavit of publication in the Shelley Pioneer in proof of completion of works and beneficial use on Permit No. 24129.

Also the depositions of Francis T. Smith and two witnesses together with affidavit of publication in the Shelley Pioneer in proof of completion of works and beneficial use on Permit No. 24380.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Smith at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 24129.....

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is Myrtle Elvina Smith; residence, 1 mile south and 1/2 mile west of Shelley, Idaho; occupation, housewife, postoffice address, Rt. 1, Shelley, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Number 24129; date of permit May 21, 1953; date of priority, May 15, 1953.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. The source of the water is a drilled well and is in the SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 18, T 1 S - R 36 E, B.M., Idaho. This well will produce approx. 250 miner's inches, the remaining portion of it has been allocated under Permits #21006 and 24380.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. My works consist of the drilled well, cased and drilled to a depth of 201' pumping from 143' with the pump set at 150' and water standing at around 138'. I have the same diversion works consisting of individual ditch to a point located in Lot 1 of Sec. 19 where I have installed a booster pump to raise the water 7 feet and place it on 19 acres of this land. I am only making beneficial use of some 19 Miner's inches here. The works are capable of conveying all the water which goes through this canal which could be as much as 200 Miner's inches. I have a 14 h.p. gas motor to raise this 7 ft. I raised this from the booster pump through a 4" pipe for a distance of some 300' to irrigate the 19 acres in Lot 1. As mentioned before, this pump is capable of discharging 250 Miner's inches. My estimate is made from the fact that I have lived around irrigation and seen water developed and witnessed measuring of water before and to best knowledge, I am getting at least 1 foot to the acre or some 19 Miner's inches on each acre of the 19 acres.

Ques. 6. State for what purpose water is used and describe place of use (and if used for irrigation, name each subdivision in which used, and number of acres in each subdivision that this have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The purpose of this water is only for irrigation. Its place of use is in Lot 1, Section 19, T 1 S - R 36 E, B.M., Idaho. The 19 acres is located in the Southeasterly portion of the lot. This 19 acres has been cultivated and there is no natural meadow land on it. All of the water diversion, distribution and irrigation works along with land levelling, seed preparation and agricultural production were made as a direct result of beneficial use on this land.

24129

112

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. This is used for irrigation purposes only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. The minimum amount of water required for the 19 acres I irrigate would be 19 Miner's inches.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the person who individually applied for this permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. As mentioned above, only 19 miner's inches of this water has been boosted through this pipeline and used to irrigate some 19 surface acres of land and I cannot make beneficial use on any more area in this subdivision.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. I made application, completed the distribution, booster pump and irrigation works in 1953 and used them on the full 19 acres of land to convey at least 19 miner's inches of water. There are no other rights in any manner appurtenant to this land irrigated and, as mentioned before, the diversions works contain water which is distributed as in Permits 21008 and 24380 but none of these are appurtenant to this land and no other rights are claimed on this land.

(Sign) *Myrtle Elvina Smith*

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise,
County of Ada, State of Idaho, on this 14 day of November,
A. D. 1953,

Harley L. McDonald

Notary Public for the State of Idaho

My commission expires 10/11/55

24129

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 24129

Proof of Application of Water to Beneficial Use
Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Maxine Ransom; age, 30; residence, 1/2 mile southeast of Kuna, Idaho;
occupation, housewife, postoffice address, Box 101, Kuna, Idaho.

Ques. 2. Are you acquainted with Myrtle Elvirna Smith, the
holder of Permit No. 24129? How long have you known him and where does
he reside?

Ans. I have been acquainted with her all my life and know that she resides at
1 mile south and 1/2 mile west of Phelley, Idaho.

Ques. 3. Have you read or heard read said Permit No. 24129, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Source of water is subterranean; place of diversion, SW 1/4 Sec. 18, T 1 S - R 36 E
B.M. works consist of drilled well, cased and equipped with 100 h.p. motor and pump and booster
pump to raise the water 7 ft. and place it on 19 acres of Lot 1.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate the works will safely conduct to place of use 250 Miner's inches and
have seen this amount so conveyed; however, only 19 Miner's inches is used in this permit.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen this pump deliver 250 Miner's inches of water (19 Miner's inches for
this permit). I have estimated this from having lived on a ranch all my life and watching
irrigation development.

A 24129

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation on Lot 1, Section 19, T 1 S - R 36 E, B.M., 19 acres. No natural meadow. All improvements have been as a result of agricultural development.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The character of this land is a volcanic ash, sandy loam. My estimate of the water required is at least 1 miner's inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have been over this land at frequent intervals since the well was drilled in 1949 and have witnessed the application to beneficial use of the water diverted under said permit.

(Signed) Mafine Ransom

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise, County of Ada, State of Idaho, on this 14 day of November, A. D. 1953.

Permit No. 24129

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Max P. Ransom, age, 30; residence, 1/2 mile southwest of Kuna, Idaho; occupation, farming and vocational agriculture instructor; postoffice address, Box 101, Kuna, Idaho.

Ques. 2. Are you acquainted with Myrtle Elvirna Smith, the holder of Permit No. 24129? How long have you known him and where does he reside?

Ans. I have known her 7 or 8 years and know that she resides 1 mile south and 1/2 mile west of Shelley, Idaho.

Ques. 3. Have you read or heard read said Permit No. 24129, and are you familiar with its provisions and conditions?

Ans. I have read this permit and am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The source of the water is subterranean, and the place of diversion in the SW 1/4 E 1/4, Section 18, T 1 S - R 36 E, B.M. Idaho. Works consist of drilled well, cased and equipped with turbine type pump and motor. (The point of diversion is the same as #21008). There is also a private ditch and canal. I have also installed a booster pump to raise the water 7 ft. and place it on the 19 acres of this land, in Lot 1.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. At least 250 Miner's inches of which only 19 Miner's inches is used in this permit.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I believe the pump to be capable of discharging around 250 Miner's inches of water but only 19 Miner's inches is appurtenant to this Permit. My estimate is based on my experience and a course in water measurement taken at Utah State College of Agricultural Mechanical Arts.

P 24129

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation, on Lot 1, Section 19, T 1 S - R 36 E, 19 acres.
There is no natural meadow land and all improvements have been as a result of agricultural development.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Character of this land is volcanic ash, sandy loam and I estimate the amount of water required to be 1 Miner's inch to the acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I was on the location at the time and shortly after this well was drilled and have been back to this property and examined it at least two or three times each year since the well was drilled in 1945.

(Signed) Max P. Ransom

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise,

RE: Permits Nos. G-24125, G-24126, G-24127 and G-24129

Mr. Harley M. McDowell
Idaho Building
Boise, Idaho

Dear Mr. McDowell:

We enclose Permits Nos. G-24127 and G-24129 in the names of Florence Ella Jones and Myrtle Elvirna Smith and direct their attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose two copies of each of these permits, one of which has been certified, to be used in connection with their desert entries filed in the Bureau of Land Management.

We also enclose Permits Nos. G-24125 and G-24126 in the names of Russell John Paul and Verna Delphine Paul. As you know, these two have been relinquished, but we thought you might wish to keep the originals for some possible future use.

We enclose departmental receipt No. G-5 for \$32.50, which includes \$24.50 filing fees on the above four applications and \$8.00 for two certified copies of each.

However, as no copies were made on Permits Nos. G-24125 and G-24126, we shall apply the \$4.00 paid for copies of these permits on other applications filed by you.

Very truly yours,
