We are commencing the processing of your application for transfer, but in checking the assessor's records we find all the land to be in the name of Daniel Polatis. Therefore, before this transfer can be approved we will need evidence that you are now in the process of purchasing the land or an affidavit from Daniel Polatis stating his approval of the change.

If one of the above mentioned documents are received before December 1, 1975, the processing of this application for transfer will not be delayed.

If you have any questions, please feel free to contact me.

Mr. Dean Williams
Kerr & Williams
P. O. Box 708
Blackfoot, Idaho 83221

Dear Mr. Williams:

We have received your three letters of June 1, 1973, and will attempt to answer your inquiries as follows:

Re: License No. G-22339/35-2240 (C. J. Polatis)--The Department has no procedure for changing the record of ownership once a permit has been licensed. When a license is issued, it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is specifically withheld in the deed. You may, however, submit to this office a copy of the deed or other document indicating a change of ownership which will be placed in the license file for future reference.

Re: Permit No. 35-7166 (Daniel Tyler Polatis)--The Department cannot approve an amendment which would enlarge or expand a water right. Therefore, a permit cannot be amended to include additional acreage or a greater quantity of water. In order for Mr. Polatis to establish a water right on the 104 acres, he must follow the permit procedure, which would of course initiate a water right with a priority of the date the application is filed. We have enclosed an application form for your use in the matter and also one for the additional use proposed from the well under License No. G-24024/35-2323 (Watson E. Thomson).

If you have any questions regarding the above matters, please do not hesitate to contact us or our Eastern District Office in Idaho Falls.

Sincerely,
