RE: Water source for Permit 24-10673

Dear Mr. Carlisle:

Thank you for your letter clarifying the source of water you intend to develop in connection with Permit 24-10673. While your application stated "unnamed stream/spring" as the intended source, the map submitted with your application appears to show Spring Creek as the intended source. If you submit proof of beneficial use in connection with your permit, IDWR will evaluate your source of water during the required field inspection. IDWR cannot authorize a change in source, but if the location of your point of diversion matches the permitted location and the map submitted in connection with your permit, IDWR can clarify the name of the source when issuing a water right license.

If you have changed the source of water you intend to appropriate, then you should file an application for a new permit.

If you have any questions, please call me at 208-287-4947, or email me at shelley.keen@idwr.idaho.gov.

Sincerely,

Shelley W. Keen
Water Rights Supervisor
