Gentlemen:

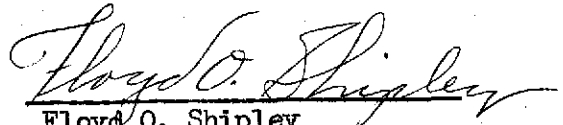

I have been unable to locate the Well Application Number and the Well Permit Number.

This well was drilled by Dean Lloyd in 1952 on the South Half of the North East Quarter of Section 14, Township 4 South Range 32 E. B. M.

Since then I have acquired the place and am in need of these documents. Will you kindly issue me a copy of this permit and application. Mr. Lloyd has searched his records without success.

Your help in this matter will be very much appreciated.

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Dean M. Lloyd. My residence and Postoffice address are,
Springfield, Idaho. I am a farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. -----

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-23993, dated _____, with priority of
June 1, 1953.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well, located on N-S center line of ^{the NE $\frac{1}{4}$} Sec. 14, Twp. 4 So., R. 32, E.B.M.,
about 6 feet North of the South line of the Northeast quarter of said
section.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well 65' deep, 12" in diameter. Cased with 12" casing 55 feet.
Water level is 13# from surface. Equipped with 10 h.p. electric turbine
pump, pipes and sprinkler system. 31 nozzels, #40 Rainbird type. Operating
pressure at pump is 110 lbs, approx. Produces flow of approximately
60 miner's inches of water. This is based on my estimate from long
experience at irrigation.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation of approximately 40 acres in the South
half of the NE $\frac{1}{4}$ of said sec. 14, all lying South of the U.P. Railroad
tracks running generally East and West through said NE $\frac{1}{4}$. Approximately
20 acres cultivated and remainder natural meadow and pasture. Improve-
ments consist only of fences, in addition to the irrigation equipment.

Part

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. --

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. An inch per acre is required for proper irrigation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. --

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water has been used for irrigation of the above lands for entire irrigation seasons of 1954 and 1955.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Permit No. G-23993

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Max L. Young. 31 years of age, I reside at Springfield,
Idaho, same being my postoffice address. I am a farmer.

Ques. 2. Are you acquainted with Dean M. Lloyd, the
holder of Permit No. G-23993? How long have you known him and where does
he reside?

Ans. Yes. I have known him about five years. He lives near
Springfield, in Bingham County, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-23993, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Well, located on N-S center line of NE $\frac{1}{4}$ Sec. 14, Twp. 4 South,
Range 32, East Boise Meridian, just North of the South line of said
NE $\frac{1}{4}$. It is equipped with electric motor and turbine pump; pipe lines and
sprinkler system. Main pipeline runs North and South, and lateral for a
quarter of a mile East and West.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. I have estimated the flow of the well to be about 60 inches.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. Same as answer to No. 5. Based only on my estimate from irrigation
experience.

N 23993

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used entirely for irrigation of that part of NE $\frac{1}{4}$ of
said Sec. 14 lying South of the Union Pacific Railroad tracks, being about
20 acres in each subdivision. Irrigated land is also fenced. About 20
acres are cultivated and remainder natural meadow pasture.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. - - - -

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is lava ash soil. Requires about an inch of water per
acre for proper irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the well, sprinkler system and works used for
irrigation of the above lands for the years 1954 and 1955.

Gentlemen:

We have checked the notices on the above numbered Permits appearing in your issue of August 26 and note the following typographical errors:

1. In Permit No. G-22978 of John Fink, in the second line of the paragraph beginning 1. The name and postoffice address etc., the word person is misspelled.
2. In the notice on Permit No. 21223 of M. & W. Farms, Inc., in the ninth line of the first paragraph, the words "from a well" are omitted after the words subterranean sources.
3. Also on this Permit, in the second line of the paragraph beginning 1. The name and postoffice address etc., the name of the permit holder is M. & W. Farms, Inc. and not H. & W. Farms, inc.
4. The notice on Permit No. G-23993 is correct.

Please make these corrections in your subsequent issues.

RE: Permit No. G-23993

Mr. D. M. Lloyd
Springfield
Idaho

Dear Mr. Lloyd:

Reference is made to your letter of June 15 in regard to your Permit No. G-23993.

If you will refer to the fourth page of your Permit, you will note that proofs of completion of works and beneficial use are due on or before April 17, 1957.

In other words, all that is required to complete your water right is to submit these proofs. Although they are not actually due until the above date, they may be made at any earlier date.

In order to make these proofs, the law requires publication of a notice once a week for four weeks in a county newspaper. This notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the Notary Public before whom the proofs are to be made.

These proofs may be made at Springfield or any place convenient for yourself and your two witnesses but the date, of course, must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this Department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the forms of deposition to be executed by yourself and two disinterested witnesses in making this proof.

Gentlemen.

In April 1953 I applied for permit to drill a well. This was granted by permit # 23993. All work has been completed on this project and was in operation by July 1st 1954.

Now I am not sure as to my responsibility in this, but I believe I should file on this well. Do you have blanks for this purpose? If not what is the procedure.

Thank you for helping me.
