Permit No. G-23941

Dear Sir:

Enclosed you will find Mr. Williams's check in the amount of \$15.00 which is submitted for the purpose of obtaining a certificate of completion of works and license under permit number G-26042.

Upon checking the certificate of completion of works on Mr. Williams's permit number G-23941, I notice that the location of the second well under that permit on the certificate reads "Southwest Quarter, Northwest Quarter of Section 26". I would appreciate it if you would check with your field engineer to see if a mistake has not been made. It is my understanding that the actual location of that well is the Northwest Quarter Northwest Quarter (NW $\frac{1}{4}$ NW $\frac{1}{4}$), Section 26, Township 1 South, Range 34 E.B.M.

If upon checking with your field engineer, you discover that an error has been made on the certificate and the license, I will return them to you at your request so the correction can be made.

Thank you,

Dean Williams

Dear Mr. Williams:

In acknowledgement of your letter of July 22, 1957 relative to the proper location of the well described in the permit as being in the $SW\frac{1}{4}$ of the $NE\frac{1}{4}$.

Our field engineer, when making his examination in connection with the proofs submitted on the above numbered permit, named the location of the well as just being South of the North line of the $NE\frac{1}{4}$ of the $SE\frac{1}{4}$ of Section 35. We have taken the matter up with our field engineer in regard to the location of this well, and he admits that he may be in error as to the true location of the well. Therefore he has changed the location of same to a point in the $SW\frac{1}{4}$ of the $NE\frac{1}{4}$ of Section 35. Location the same, just over the South line of this 40-acre tract.

Therefore we will withdraw our request for an amendment to change the point of diversion in regard to the location of the well.

Dear Mr. Williams:

We have our field engineer's report on the inspection of proof of completion of works and application of water to beneficial use under Permit No. G-23941 (Boyd E. Williams) which shows that well # 1 is in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 35 and well # 2 is in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26 and that they are capable of conveying 328 miner's inches (6.56 c.f.s.) of water for irrigation of 410 acres. The record of Permit No. G-23941 shows well # 1 located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 35. Therefore, we enclose an application for amendment which we ask that you complete and have Mr. Williams sign.

Upon receipt of the above mentioned amendment and the statutory fee of \$31.00, we will issue the Certificate of Completion of Works (\$5.00) and the License and Certificate of Water Right (\$26.00--based at the rate of \$2.00 for each 40-acre subdivision) confirming the right with a priority of March 26, 1953, to his use of 6.56 second feet of the water from subterranean flow with the points of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 35 and the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, for irrigation of 410 acres in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ W $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 26; E $\frac{1}{2}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 35, all in Township 1 South, Range 34 East, B.M.

Re: Permit No. G-23941
Boyd E. Williams

Dear Mr. Kulp:

In your letter of July 15, 1957, you report that your field engineers have located well No. 1 in the above said permit as being in the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 35 contrary to the permit which describes the location as being in the SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ in Section 35.

It is possible that your field engineer could be mistaken concerning the location of this well? I, of my own knowledge, have seen this well and while I haven't run a survey on it, I know it is in line with well No. 2 which would be impossible if it were located where your field engineer reports it to be.

Therefore, before returning the application for amendment I would appreciate it if you can check with your field engineer to see if he could have been mistaken.

Thank you,

Dean Williams

Dear Mr. Williams:

We acknowledge receipt of the depositions of Mr. Boyd E. Williams and his two witnesses, also affidavit of publication in the Daily Bulletin, all submitted in proof of Completion of Works and Beneficial Use on Permit No. G-23941.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this Department.

We cannot tell just when this examination will be made, but our field engineer will try and contact the Permit holder at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Mr. Dean Williams

Dear Mr. Williams:

We hereby acknowledge receipt of "Notice of Proof of Completion of Works and Application of Water to Beneficial Use" made in connection with Permit No. G-23941, in the name of Boyd E. Williams. Said notice requires either clarification or additional information.

In the first instance, in said permit you filed on 400 miner's inches or 8.0 cubic feet per second. The notice states that you are proving-up on 3.5 c.f.s. or 175 miner's inches. You also state that the well is located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 35, Twp. 1 S., Rge 34 E.B.M. We wish to draw to your attention the amendment made in regard to this permit, filed October 19, 1955, in which you stated that you had changed the well location from the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 26 to the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, which amended permit to read point of diversions in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 26 and SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 35. Perhaps you did not drill a well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, as amended. Before this notice is sent for publication we would like to have you verify the point of diversion as to location.

Under question 5 of the publication notice you state that the land which you are to irrigate from said well is located in the W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{2}$ SE $\frac{1}{4}$, NE $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 35, Township 1 South, Range 34 E.B.M. The permit states: SW $\frac{1}{4}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, and the W $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 26; SW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{2}$ SE $\frac{1}{4}$, of Section 35 all in Township 1 South, Range 34 E.B.M.

This land list (notice) checks with the land as shown in the original permit except the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 35 which does not show in the permit. If this forty is to be included, it will be necessary to amend the permit.

RE: Permit Nos. G-23941, G-24487 & G-26042
Mr. Boyd E. Williams

Mr. Dean Williams
Attorney at Law
70 West Pacific Street
Blackfoot, Idaho

Dear Mr. Williams:

We have your letter of February 7, 1957, stating that Mr. Boyd E. Williams is prepared to make proofs of Completion of Works and Beneficial Use on his above captioned permits.

Before these proofs are made, the statutes require publication of a Notice once a week for four weeks in a county newspaper. This Notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the Notary Public before whom the proofs are to be made.

The proofs may be made at any place convenient for him and his two witnesses but the date must be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this department together with Form 11 which is his authorization for us to have the Notice Published at his expense in the designated county newspaper.

We shall then send a copy of the Notice to the newspaper with instructions in regard to publishing and shall send you the forms of depositions to be executed by the Permit holder and his two witnesses in making these proofs.

Very truly yours,

Dear Mr. Williams:

We enclose Permit No. G-23941 and direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose departmental receipt No. 25716 for the \$6.75 filing fee.

You will note that we have changed one point of diversion shown in Question 4, to the NE $\frac{1}{4}$ SW $\frac{1}{4}$ instead of the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, to conform to the sketch map and particularly as the SE $\frac{1}{4}$ NW $\frac{1}{4}$ is not included in your land description. If this is not correct, please notify us at once in order that we may make the necessary corrections on our records.

You will note that we have allowed 5 years for making the statutory proofs instead of the 8 as requested, as 5 years is the maximum allowed by statute.

Very truly yours,

Dear Mr. Williams:

We return your application for permit to appropriate 8 second feet of subterranean water, which is made out on the form used for filing on surface water. This application should be refiled on Form 3 enclosed.

Question 4 should give the location of the wells to a 40 acre subdivision, which we assume from your sketch map is the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 26, and the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 35.

The application should also be accompanied by the filing fee which amounts to \$6.75.
