I, I. Marjorie Flint, do solemnly swear that I am the Principal Clerk of

The Daily Bulletin, which is a daily newspaper of general circulation published each day except Saturday and Sunday at Blackfoot, Bingham County, Idaho, said newspaper having been so published at Blackfoot aforesaid for more than one year past; that said newspaper heretofore complied with all the provisions of Chapter 154 of the Sessions Laws of Idaho of 1933, approved March 11, 1933, and duly designated, pursuant to law, a particular day of the week as the day on which legal notices required by law or by order of any Court of competent jurisdiction within the State of Idaho shall be published to-wit: Friday of each week; that the notice attached hereto, and which is a part of this affidavit and part of the proof of publication, was published in said Friday issue of said

newspaper 4 consecutive weeks the first publication

having been made on the 6th day of Nov., 1953

and the last publication having been made on the

27th day of Nov., 1953; that said

notice was published in the regular and entire issue of every number of the paper as aforesaid during the period and time of publication, and that the notice was published in the newspaper and not in a supplement.

Marjorie Flint

Subscribed and sworn to before me this 27

day of Nov, 1953

David L. Jones

Notary Public for the State of Idaho,
Residing at Blackfoot, Idaho.

NOTICE OF PROOF OF COMPLETION AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M., on the 10th day of December, 1953, at Blackfoot, County of Bingham, State of Idaho, before H. William Furchner, a Notary Public, proof will be submitted of the completion of works for the diversion of 3 cubic feet per second of the waters of Subterranean flow from a well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 5, Twp. 4 S., Rge. 33 E. B. M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G23909, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Robert Houghland, Springfield, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is three cubic feet per second.

3. The use to which said water has been applied is Irrigation and domestic purposes, and the amount applied to beneficial use is 3 cubic feet per second.

4. The place where said water is used is W $\frac{1}{2}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 5; S $\frac{1}{2}$ of NE $\frac{1}{4}$ of Sec. 6, Twp. 4 South, Range 33 East, B. M.

5. The date of priority which said user is prepared to establish is March 17, 1953.

MARK R. KULP

State Reclamation Engineer

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 31690
Permit No. G- 23909
District No.

1. Name of Applicant: Robert Houghland
Postoffice address: Springfield County: Bingham State: Idaho
2. Quantity of water claimed: 150 miners inches
 - (a) Rate of withdrawal in cubic feet per second. 3.0 or Idaho
Miners' inches or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Subterranean
4. Location of point of diversion or well is in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 5
Twp. 4 S , Rge. 33 E , B.M., County of Bingham
5. Water is to be used for: Irrigation & domestic
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Electric pump, cased drilled well
8. Estimated cost of works: \$ 2500.00
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is completed years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 120 shares Aberdeen Springfield Canal Co.
 - (a) 150 Miners/ inches (3 cubic feet) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Applicant.

Agent.

RE: Permit No. G-23909

Mr. Robert Houghland
Springfield
Idaho

Dear Mr. Houghland:

We now have on file the report of our field engineer on examination for Completion of Works and Beneficial Use on Permit No. G-23909.

This report shows that your well is actually located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 5, Township 4 South, Range 33 East, B. M., instead of the SW $\frac{1}{4}$ NE $\frac{1}{4}$ as given in your application and permit.

It will, therefore, be necessary for you to file an application for amendment to the point of diversion, and we enclose a form of application for such amendment herewith.

The report further shows that you have irrigated 160 acres in the W $\frac{1}{2}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 5, and S $\frac{1}{2}$ NE $\frac{1}{4}$ Section 6, Township 4 South, Range 33 East, B. M., and that your well will deliver 147 inches of water.

Upon return and approval of your application for amendment, Certificate of Completion of Works and License can be issued for 147 inches or 2.94 second feet of water.

The Certificate of Completion of Works fee amounts to \$5.00 and the License fee \$10.00. The latter being at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

Very truly yours,

Re: Permit No. G-23909
Robert Houghland
Springfield, Idaho

Dear Mr. Kulp:

Enclosed herewith please find Form 36, Notice of Proof of Completion of Works and Application of Water to Beneficial Use, together with the affidavit of publication, and the deposition of two witnesses and the holder of proof of application of water to beneficial use and completion of works relative to the above permit.

If any further information is required please notify me.

Very truly yours,

H. William Furchner

BOISE, IDAHO

Permit No. G-23909

Proof of Application of Water to Beneficial Use
and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Robert Houghland. I am a farmer and stockraiser. My postoffice address and residence are Springfield, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. --

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-23909, dated March 27, 1953, with priority of March 17, 1953.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Water supply is a well, located in the SW corner of the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 5, in Twp. 4 So., R. 33, E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. The well is 16 inches in diameter, 76 feet deep, cased about 8 feet/ with 16" casing to lava rock, with a lift of about 42 feet. It is equipped with a turbine pump and 20 h.p. electric motor. The pump discharges about 150 inches, or three second feet of water, according to my best estimate. Ditches run North, South and West over the lands shown in the permit plat.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is all used for irrigation of the lands described in the permit, as follows: Sec. 5: NW $\frac{1}{4}$ NW $\frac{1}{4}$ -35 a.; SW $\frac{1}{4}$ NW $\frac{1}{4}$ -40 a.; NW $\frac{1}{4}$ SW $\frac{1}{4}$ -25 a.; Sec. 6: SW $\frac{1}{4}$ NE $\frac{1}{4}$ -35 a.; SE $\frac{1}{4}$ NE $\frac{1}{4}$ -40 a., all in Twp. 4 So., R. 33, E.B.M. All of these lands have been cultivated, except for a few rocky spots, which are irrigated for pasture. All land has been fenced.

G23909

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. ---

Ques. 8. What is the minimum amount of water required for the purpose specified above?

It is my judgment that these lands require at least an inch and a half of water per acre for proper and adequate irrigation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. ---

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

The water from this well has been used for irrigation of the above-described lands for the past four crop seasons.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

I have also used the water from 120 shares of Aberdeen Springfield canal Co. (75 inches), on the South 40 acres in Sec. 5 during the past three seasons, part of the time; the existing ditches will only carry the canal water to this one forty. Most of the time, the bulk of the canal water has been used lower down the canal on other lands which I own and which are short of water.

(Sign)

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Blackfoot, County of Bingham, State of Idaho, on this 10th day of December, A. D. 19 53,

My commission expires Jan. 31, 1954.

Notary Public for Idaho, residing at Blackfoot, Idaho.

Permit No. G-23909

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Alden Judge. I am 43 years of age, a farmer, and my postoffice address is Pingree, Idaho.

Ques. 2. Are you acquainted with Robert Houghland, the holder of Permit No. G-23909? How long have you known him and where does he reside?

Ans. Yes. We have been acquainted for about 30 years. He resides at Springfield, in Bingham County, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-23909, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use. and in

Ans. Source of water supply is a well, located near the SW corner of the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 5, in Twp. 4 So., R. 33, E.B.M. The Well is 16 inches in diameter, 76 feet deep, cased about 8 feet to lava rock. Equipped with 20 h.p. electric motor and turbine pump. Ditches run from the Well to the North, South and West over the lands to be irrigated under the permit.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Main ditch at the well will carry 200 miners inches, and leads to smaller ditches which carry sufficient water for irrigation of the lands through which they run. Various capacities.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I estimate that the pump will deliver 150 miner's inches of water.

A 23909

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The well water is used for irrigation of the lands described in the permit: Twp. 4 So. R. 33, E.B.M., Sec. 5: NW $\frac{1}{4}$ NW $\frac{1}{4}$ -35a.; SW $\frac{1}{4}$ NW $\frac{1}{4}$ -40 a; NW $\frac{1}{4}$ SW $\frac{1}{4}$ -25a. Sec. 6: SW $\frac{1}{4}$ NE $\frac{1}{4}$ -35-a; SE $\frac{1}{4}$ NE $\frac{1}{4}$ -40 a. All cultivated and irrigated, except for a few rocky spots, which have been plowed and irrigated for pasture. All of the land has been fenced.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. --

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy loam. It requires an inch and a half of water per acre or more for adequate irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the waters from this well, used to irrigate the above-described lands for the past four crop seasons.

(Signed)

Alden Judge

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Blackfoot, Bingham County ~~Id~~, State of Idaho, on this 10th day of December, A. Permit No. G-23909

**Proof of Application of Water to Beneficial Use
and Completion of Works**
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. T. T. Edwards. I live at Springfield, in Bingham County, Idaho,
and am a farmer.

Ques. 2. Are you acquainted with Robert Houghland, the
holder of Permit No. G-23909? How long have you known him and where does
he reside?

Ans. Yes. I have been acquainted with him for about 30 years. He
also lives at Springfield, in Bingham County, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-23909, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. The source of water is a well, located in the SW corner of the
SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 5, in Twp. 4 So., R. 33, E.B.M. The well is 16 inches
in diameter, 76 feet deep, cased about 8 feet to lava rock, equipped
with 20 h.p. electric motor and turbine pump. Ditches run from the well
to the North, South and West over the lands described in the permit.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. The main ditch at the well will carry about 200 inches of water,
and leads to smaller ditches which carry sufficient water for irrigation
of the lands shown in the permit plat.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I estimate from long experience that the well will deliver at
least 150 miner's inches of water to the ditches.

23909

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The well water is used for irrigation of the lands described in the permit, as follows: Sec. 5: NW $\frac{1}{4}$ NW $\frac{1}{4}$ -35a.; SW $\frac{1}{4}$ NW $\frac{1}{4}$ -40 a; NW $\frac{1}{4}$ SW $\frac{1}{4}$ -25 a; Sec. 6: SW $\frac{1}{4}$ NE $\frac{1}{4}$ -35 a; SE $\frac{1}{4}$ NE $\frac{1}{4}$ -40 a., all in Twp. 4 So. R. 33, E.B.M. All of these lands are cultivated, except for a few rocky spots, which have been plowed and are now irrigated for pasture. All of the land has been fenced.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. --

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is a sandy loam. It requires about an inch and a half of water per acre or more for proper irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the water from this well used to irrigate the lands as above stated for the past four crop seasons.

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) October 28th, 1953

(P. O.) Blackfoot, Idaho

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Daily Bulletin of Blackfoot, Idaho published in
the county in which the works are situated.

Robert Houghland

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

RE: Permit No. G-23909

Mr. Robert Houghland
Springfield
Idaho

Dear Mr. Houghland:

In reply to your letter of April 7, 1953, requesting the forms for making proofs of completion of works and beneficial use on Permit No. G-23909.

The statutes require that before these proofs are made, notice must be published once a week for four weeks in a county newspaper. The notice should be made in duplicate on Form 36 enclosed, setting time and place and naming the Notary Public before whom proof is to be made.

Both copies of Form 36 to be returned to this department together with Form 11 which is authorization for us to have the notice published at your expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing.

Very truly yours,
