Dear Mr. John Rast:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Power County Press, all submitted in proof of beneficial use on Permit No. G-23732.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Rast:

Enclosed is the License and Certificate of Water Right issued under Permit No. G-23732, also, departmental receipt #G-3788 for fee.

As mentioned in our October 2nd, 1958 letter--Permit No. G-27131 is in good standing and can be used if you decide to increase the capacity of your irrigation system at a later date.

There should be an amendment to the land list before advertising to include the full 320 acres.

Re: Permit No. G-23732

Mr. John Rast
American Falls
Idaho

Dear Mr. Rast:

Our field engineer's report on his inspection of the beneficial use of the water under the terms of Permit No. G-23732 shows that the completed works are capable of conveying 142 miners inches (2.84 c.f.s.) of water from a well for irrigation of 320 acres.

Upon receipt of the statutory fee of \$16.00 (fee is based at the rate of two dollars for each 40-acre subdivision) we will issue the License and Certificate of Water Right confirming the right with priority of November 29, 1953, to the use of 2.84 second feet of subterranean water, with point of diversion in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 29, for irrigation of 320 acres in the NW $\frac{1}{4}$ Section 28 and NE $\frac{1}{4}$ Section 29, Township 7 South, Range 30 East, BM

Dear Mr. John Rast:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Power County Press, all submitted in proof of beneficial use on Permit No. G-23732.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Umeo T. Taki, Age: 32; Residence: American Falls, Idaho.

Farmer, Postoffice Address: American Falls, Idaho.

Ques. 2. Are you acquainted with John Rast, the holder of Permit No. G-23732? How long have you known him and where does he reside?

Ans. Yes. I have known applicant 6 years. He resides 7 miles NW of American Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-23732, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean well. Diverted on NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 29, Twp. 7 S., R. 30 E., B.M. Water is conveyed from well and pump by 12, 10 and 8 in. steel pipe to place of use.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen approx. 4.8 cfs conveyed by this system. This is about its normal carrying capacity.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 4.5 to 4.8 cfs. I counted the sprinkler heads, - have seen them in operation, and have operated this type of installation for some years myself.

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigation. On NW $\frac{1}{4}$, Sec. 28, and NE $\frac{1}{4}$ Sec. 29, Twp. 7 S., R. 30 E., B.M. This entire tract was irrigated during the 1958 irrigation season. This is cultivated land. One raw 40-acre tract was cleared especially for this irrigation operation.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not for power. For irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Fairly level land. Soil is sandy loam. This land requires the entire 4.8 cfs. of water applied for to profitably irrigate.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I am at present leasing 160 acres of this land from the applicant, on a cash lease basis.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have worked on this land all during the 1958 irrigation season, doing part of the irrigating myself, and know the conditions from personal observation.

Dear Mr. Rast:

This acknowledges the Notice of Proof of Application of Water to Beneficial Use under Permit No. G-23732. The proofs are to be made at 10:00 A. M. on the 10th day of December, 1958, before T. C. Sparks, Notary Public, at American Falls, Idaho.

You will note we have changed the date for making final proof to December 10, 1958 for the reason that the Notice for Publication was received on November 3, 1958 and it would not be possible to publish the Notice for four weekly issues prior to the original date of November 28, 1958. If this date does not meet with your approval, and a change of date is necessary, please notify the paper, the Power County Press, and the Notary and this department of the change.

As of this date we have mailed the Notice to the Power County Press, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each, and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

American Falls, Idaho

Dear Mr. Rast:

The engineer's examination of your irrigation system indicates that you were using about 140 inches of water to irrigate the NW $\frac{1}{4}$ of Section 28 and the NE $\frac{1}{4}$ of Section 29. You applied for 240 inches of water under Permit No. G-23732.

To obtain the best priority, you can sign the enclosed amendment list which would place all of your land under Permit No. G-23732. Complete the top three lines on the enclosed notice for publication to prove beneficial use under Permit No. G-23732 of all the water from your well. Your priority would be November 17, 1953, provided you made the depositions before the Notary Public on November 28. A later date of making the depositions would make your priority a like number of days later. Prompt return of the forms would allow ample time for publication of the notice November 6-27th inclusive.

Permit No. G-27131 is in good standing and can be used if you decide to increase the capacity of your irrigation system at a later date.

A Certificate of Completion of Works will be issued you for the capacity of your system under Permit No. G-23732 for irrigation of the NW $\frac{1}{4}$ of Section 28 and the NE $\frac{1}{4}$ Section 29 upon receipt of the signed amendment and the recording fee of \$5.00.

Mr. John Rast
American Falls, Idaho

Dear Mr. Rast:

We acknowledge receipt of the depositions of Holder and two witnesses and the affidavit of publication in the Power County Press in proof of completion of works and beneficial use under Permits Nos. G-23732 and G-27131.

Before a permit can be licensed, the law requires that a field examination be made by an engineer from this department. At this time we cannot tell just when this will be made but our field engineer will contact you prior to the time he is to make the inspection so that you can arrange to accompany him.

Re: Permits Nos. G-23732 and G-27131

Mr. John Rast

Dear Mr. Rast:

This will acknowledge receipt of the Proof of Application of Water to Beneficial Use and Completion of Works, consisting of one deposition of the holder and two witnesses, for Permit No. G-23732, also Proof of Beneficial Use and Completion of Works, consisting of one deposition for the holder and one of each of two witnesses, in connection with Permit No. G-27131.

Relative to Permit No. G-23732, we will state that this permit was approved on February 20, 1953, that the full five years allowable for making proof was given you at the time and the permit stated that you were to make completion of works and apply the water to beneficial use within the five year period. Since you have not applied the water to beneficial use and so state in your proof, we can examine your permit for completion of works and if found as stated in the proofs, can give you a certificate of completion of works for 4.8 cubic feet per second, which will keep your permit in good standing.

After you have applied the water to beneficial use and irrigate the land listed under the terms of the permit, it will be necessary for you to re-publish and make new proofs for application of water to beneficial use. We would suggest that you do not make the supplemental proofs until you have all the land under cultivation and applied the water to same.

Relative to the priority date under this permit, your priority date will be advanced the length of time that your beneficial use proof is late.

Mr. John Rast

-2-

January 24, 1958

Relative to Permit No. G-27131, the proofs under this permit should not have been made until you had applied the water to beneficial use. Your permit gives you until 1962 to make said proofs. Therefore, it will be necessary for you to re-publish and make new proofs under this permit after you have applied the water to beneficial use, since you also state that the water will not be applied to beneficial use until 1958.

However, this proof submitted for Permit No. G-27131 can be accepted for Completion of Works and later it will be necessary for you to make new proofs of application of water to beneficial use, the same as described under Permit No. G-23732, or if you desire, you can make completion of works proof and beneficial use proof at the same time at a future date.

P. S. In order to record your Proof of Completion of Works on Permit No. G-23732, it will be necessary for you to submit to this office a statutory recording fee of five dollars. The same will apply to Permit No. G-27131 in case you wish your proofs made to include Completion of Works.

DEPARTMENT OF RECLAMATION

RE: Permit No. G-23732

Date December 1, 1957

Joh Rast
American Falls, Idaho

Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-23732 are due not later than February 20, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper with the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. G-23732

Mr. John Rast
American Falls
Idaho

Dear Mr. Rast:

Enclosed are the Applications for Amendment to Permit No. G-23732 which were approved by the State Reclamation Engineer and recorded in the Department of Reclamation in Book 84 of Permits at Page 23732 amending the point of diversion as described in the original permit to read as follows: "NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 29, Township 7 South, Range 30 East, B.M." and the list of land to read "NW $\frac{1}{4}$, Section 28, E $\frac{1}{2}$ NE $\frac{1}{4}$ Section 29, Township 7 South, Range 30 East, B.M." These should now be attached to the original permit to which they refer and of which they become a part.

Very truly yours,

MARK R. KULP
