Dear Mr. Gneiting:

Mr. Darrell Stevenson from this department will call on you on Tuesday, August 12, 1958, to make inspection in connection with your Permit No. G-23676.

It will be necessary that you or someone representing you be present at said inspection. Inspection consists of -----

- 1 - Determining definitely where the well is located within a forty.
- 2 - Measuring the water that you use.
- 3 - Determining the number of acres in each 40-acre subdivision that you irrigate.

We have attempted on two former occasions to contact you when we were in that area without notifying you in advance without success, so this time we are advising you in advance of the date.

Dear Mr. Gneiting

Statutes requires a field inspection in connection with the proofs on Permit # G-23676 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Tuesday,

June 10, 1958

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Permit No. G-23676

Proof of Application of Water to Beneficial Use

and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Derrell A. Gneiting, Route #1, Blackfoot, Idaho. I am a farmer and stock raiser.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. ---

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G-23676, dated February 13, 1953, with priority of February 4, 1953.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Well, located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 28, Twp. 1 So., R. 35, E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well is 12 inches in diameter, 162 feet deep, with water standing at 105 feet; cased about 10 feet to lava rock. Equipped with 30 h.p. electric motor and turbine pump. Discharges about 80 inches of water into ditches running generally south from well over the lands to be irrigated. Ditches will carry about 100 inches of water.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is all used for irrigation of the lands described in the permit, as follows: NE $\frac{1}{4}$ NW $\frac{1}{4}$ -22 acres, and SE $\frac{1}{4}$ NW $\frac{1}{4}$ -38 acres, all in Sec. 28, Twp. 1 So., R. 35, E.B.M. The land is all cultivated, except for rough and high spots in each forty-acre tract, leaving balance above. Improvements consist of partial fencing, box car and leveling of land for better cultivation and irrigation.

23676

RAY

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. ---

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Land requires at least an inch of water per acre for proper irrigation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. ---

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water from the well has been used for irrigation of the above-described lands and production of crops thereon for the past five irrigation and farming seasons.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None.

Blackfoot, Idaho
Dear Sir:

The date for proofs of completion of works and application of water to beneficial use, as set out under the terms of Permit No. G-23676 are due not later than February 13, 1958.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper with the county.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed on, for what purpose it is used, the point or points of diversion and the location of use or the lands which are irrigated--all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.
