FEB 12 1953
MARK R. KULP
State Reclamation Engineer

State of Idaho
License and Certificate of Water Right

Water License No. G-23674 Amount 2.32 second feet
Water District No. Priority January 30, 1953

THIS IS TO CERTIFY that WILLIAM LIESE
of American Falls, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated January 30, 19 53 ; that Permit No. G-23674
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2.32 second feet, was issued thereunder on February 7, 19 56, showing that said works
were completed on the 4th day of February, 1955 ; and that on the 4th
day of February, 19 55 ,

WILLIAM LIESE
of American Falls, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
~~located on~~ (subterranean flow), for the purpose of irrigation
, under Use Permit No. G-23674 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
9 of Licenses at page 5653, on the 7th day of February, 19 56 ;
The right hereby confirmed dates from January 30, 19 53 ;

The Point of Diversion is located
in the NW 1/4 NE 1/4, Sec. 33, Tp. 7 S, R. 29 E., B. M. Power County
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 2.32 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
7 S.	29 E.	28	S 1/2 SE 1/4	80	80
		33	W 1/2 NE 1/4	80	80
			Total Number of Acres Irrigated	-	- 160

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
7th day of February, 19 56 .

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G-31145
Permit No. G- 23674
District No.

1. Name of Applicant: WILLIAM LIESE
Postoffice address: American Falls County: Power State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 3.2 or Idaho
Miners' inches 160 or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: drilled well (subterranean flow)
4. Location of point of diversion or well is in the NW 1/4 of the NE 1/4 of Section 33
Twp. 7 S., Rge. 29 E., B.M., County of Power
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the 1/4 of the 1/4 of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the 1/4 of the 1/4 of Section , Twp. , Rge. , B.M.
7. Kind of works: Well, turbine pump and sprinkler system
8. Estimated cost of works: \$ 20,000.00
9. (a) Is reservoir to be used?
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is Two (2) years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

By _____ Agent.

Corrected application received: February 5, 1953

REPORT OF ENGINEER

Permit No. G-23674

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant William Liese, American Falls, Idaho
2. Source of water supply: Subterranean flow from a well
3. Location of point of diversion: Is in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 33
T. 7 S. R. 29 E. County of Power
4. Describe works as they exist, giving dimensions and capacities of same: Well is 300' deep by 20" diameter, cased 8' and cased 14' to 180'. H is 192'. No draw down. 8" column 5 stage 12" bowls. 100 hp Smithway Motor, serial no. 62489. Layne Bowler Turbine Pump serial No. 26078. Concrete floor 7' x 7', one wall on the East for protection and panels. This is a sprinkler system with 4 laterals $\frac{1}{4}$ mile each 4" diameter each has 33 nozzles 3/32 by 3/16.

5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

W $\frac{1}{2}$ NE $\frac{1}{4}$ Section 33;

S $\frac{1}{2}$ SE $\frac{1}{4}$ Section 28;

Twp. 7 South, Range 29 East, B. M.

See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Crops are hay, grain, potatoes and sugar beets.

This examination was made on the 4 day of Aug, 1953

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. G-23674

Mr. William Liese
American Falls
Idaho

Dear Mr. Liese:

The Report of our Field Engineer on examination for Completion of Works and Beneficial Use on Permit No. G-23674 shows that your well in the NW¹/₄ NE¹/₄, Section 33, Township 7 South, Range 29 East, B. M., will deliver 116 inches of water which has been used to irrigate 160 acres in the S¹/₂ SE¹/₄ Section 28 and the W¹/₂ NE¹/₄ Section 33, Township 7 South, Range 29 East, B. M.

A Certificate of Completion of Works and License can therefore be issued for 116 inches or 2.32 second feet upon receipt of the statutory fees amounting to \$5.00 for Completion of Works and \$8.00 License fee or a total of \$13.00.

RE: Permit No. G-23674

Messrs. Potvin & Schou
Phillips Building
American Falls, Idaho

ATTENTION: Mr. Gregg R. Potvin

Dear Mr. Potvin:

We received your letter of February 16 some time ago and corrected the location of the well in accordance therewith.

This mornings mail brings us from Mr. Liese the Affidavit of Publication in the Power County Press. This completes the proof but before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made but our field engineer will contact Mr. Liese at the time he makes the examination in order that he may arrange to show him over the ground.

Very truly yours,

MARK R. KULP

NOTICE OF PROOF OF COMPLETION OF WORKS

and

APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:30 A. M., on the 22nd day of January, 1955, at American Falls, County of Power, State of Idaho, before Gregg R. Pottvin, Notary Public proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of the water of a subterranean well and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-23674 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are William Liese, American Falls, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation of crops purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The place where said water is used is W $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 33 & S $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 28, T. 7 S, R. 29, EBM, and the well is located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 33, Township 7 South, Range 29 East B.M.

5. The date of priority which said user is prepared to establish is January 30, 1953.

RE: Permit No. G-23674

Messrs. Potvin & Schou
Phillips Building
American Falls, Idaho

ATTENTION: Mr. Gregg R. Potvin

Dear Mr. Potvin:

Your letter of February 2 reached us this afternoon enclosing depositions of William Liese and two witnesses in proof of completion of works and beneficial use on Permit No. G-23674.

All these depositions describe the point of diversion or location of the well as the "a point 660 feet South of the Northwest Corner of the Northeast Quarter of the Northeast Quarter of Section 33", which would bring it in the ~~NE 1/4~~ of the Section; whereas, the Permit describes it as being in the ~~NE 1/4~~ of Section 33.

If this is a typographical error in the depositions, it may be corrected. Otherwise, it will be necessary to file an application for amendment to the point of diversion, and it may necessitate republication as the notice describes the location in the ~~NE 1/4~~ of said Section.

We have not received the affidavit of publication from the Power County Press and when the notice was sent them they were definitely requested to send it to Mr. Liese. If he has not received it, he should take the matter up with them at once as this affidavit is an essential part of the proof.

Since the permit calls for 3.2 second feet or 160 Miner's inches the quantity in gallons is not too important and the application may be changed from 1320 to 1440 and we can change the record accordingly.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Sir:

Enclosed herewith the Affidavits of holder and witness in connection with Permit No. G-23674. We are assuming that the Power County Press has sent you the Affidavit of Publication, if such is not the case, please let us know, and we will see that you get it.

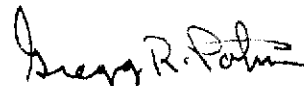

In examining the above mentioned permit, we note that the quantity of water claimed is described as 3.2 second feet, or 160 miners inches, or 1320 gallons per minute. The last figure is obviously in error, and should read 1440 gallons per minute.

Will you please let us know how this may be changed so that it will read correctly?

Please bill us for all expenses so incurred.

Very truly yours,

POTVIN & SCHOU

BOISE, IDAHO

Permit No. G-23674

Proof of Application of Water to Beneficial Use

and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. William Liese, American Falls, Idaho, Farmer, American Falls,
Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. None

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-23674, January 30th, 1953.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean Well. A point 660 feet South of the Northwest Corner
of the Northeast Quarter of the Northeast Quarter of Section 33, Township
Seven (7) South, Range 29, EBM.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Depth of well - 300 feet. 20 inch casing to an 8 foot depth. 194 feet
to water. 1440 gallons per minute as determined by factory representative.
132 nozzles - 1/16 and 3/16. Approximately 42 lbs. pressure.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigating of crops on cultivated land, which has been
improved from dry farm land to irrigation land.

The W $\frac{1}{2}$ of NE $\frac{1}{4}$ of Section 33 (80 A); and the S $\frac{1}{2}$ of the SE $\frac{1}{4}$ of Section
28 (80 A), all in Township 7 South, Range 29, EBM.

23674

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. None

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 1440 gallons per minute.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Does not apply.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Starting on June 13, 1953, the entire flow of the well has been used to irrigate crops during the irrigating season.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. I have no other water rights.

(Sign) *John L. Lee*

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in American Falls, County of Power,

State of Idaho, on this 4th day of February, A. D. 1955

BOISE, IDAHO

Permit No. G-23674

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Arthur Liese, 40 yrs of age, Res. 417 East Park, American Falls, Idaho.
Ass't. Mgr. Farmers Co-op. Oil Ass'n. American Falls, Idaho.

Ques. 2. Are you acquainted with William Liese, the holder of Permit No. G-23674? How long have you known him and where does he reside?

Ans. I have known William Liese for 30 years. He resides 14 miles West of American Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-23674, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean Well. A point 660 feet South of the Northwest Corner of the Northeast Quarter of the Northeast Quarter of Section 33, Township 7 South, Range 29, EBM.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 3.2

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen pump deliver 1440 gallons per minute. This was estimate by the amount of water the sprinkle system requires.

J 23674

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigating crops on cultivated land, which has been improved from dry farm land to irrigated land.

The W $\frac{1}{2}$ of NE $\frac{1}{4}$ of Section 33 (80 A); and the S $\frac{1}{2}$ of the SE $\frac{1}{4}$ of Section 28 (80 A), all in Township 7 South, Range 29, EBM.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy Loam - 1440 gallons per minute.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have seen the entire flow used to irrigate crops on several occasions, commencing June 13, 1953.

**NOTICE OF PROOF OF
COMPLETION OF WORKS**

and

**APPLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at 10:30 A. M., on the 22nd day of January, 1955, at American Falls, County of Power, State of Idaho, before Gregg R. Pottvin, Notary Public proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of the water of a subterranean well and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-23674 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are William Liese, American Falls, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation of crops purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The place where said water is used is W $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 33 & S $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 28, T. 7 S, R. 29, EBM, and the well is located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 33, Township 7 South, Range 29 East B.M.

5. The date of priority which said user is prepared to establish is January 30, 1953.

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:30 A.M., on the 22nd
day of January, 1955, at American Falls, County of
Power, State of Idaho, before Gregg R. Potvin, Notary Public
proof will be submitted of the completion of works for the diversion of 3.2
cubic feet per second of the waters of a subterranean well
and of the application to beneficial use of said water, in accordance with
the terms and conditions of Permit No. G-28674 heretofore issued by the
Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are William Liese, American Falls, Idaho
2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 3.2 cubic feet per second.
3. The use to which said water has been applied is irrigation of crops
purposes, and the amount applied to beneficial use is
3.2 cubic feet per second.
4. The place where said water is used is W¹NE¹ Sec. 33 & S¹SE¹ Sec 28,
T. 7 S, R. 29, EBM and the well is located in the NW¹NE¹ Section 33, Township
7 South, Range 29 East B.M.
5. The date of priority which said user is prepared to establish is
~~January 13, 1952~~ January 30, 1953.

RE: Permit No. G-23674

Messrs. Potvin and Schou
Phillips Building
American Falls, Idaho

ATTENTION: Mr. Gregg R. Potvin

Dear Mr. Potvin:

We are sending to the Power County Press notice for completion of works and beneficial use proofs on Permit No. G-23674 of William Liese, to be made January 22, 1955, with instructions to publish once a week for four weeks prior to that date and to send Mr. Liese the affidavit of publication together with statement of costs.

We have had to make one change in the notice as the date of priority which can be established under this Permit is January 30, 1953, the date the application was filed in this office.

We enclose the forms of deposition to be used by Mr. Liese and two disinterested witnesses in making these proofs.

Very truly yours,

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) December 17, 1954

(P. O.) American Falls, Idaho

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Power County Press of American Falls published in
the county in which the works are situated.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

RE: Permit No. G-23674

Mr. William Liese
American Falls
Idaho

Dear Mr. Liese:

This department has had some correspondence with you regarding the correct location of the land to be irrigated under the above numbered permit, but we do not seem to have received a reply from you.

Your permit describes the land as the S $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 28, and the N $\frac{1}{2}$ NE $\frac{1}{4}$ Section 31, and the location of the well in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 31. However, Section 33 lies directly South of Section 28, whereas Section 31 does not touch Section 28, which makes us believe that the description in Section 31 is incorrect and it should be Section 33.

It is important to you that the permit be correct, so we are again bringing the matter to your attention.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

PERMIT NO. G-23674

RECEIVED
MAR 13 1953
Department of Reclamation

H 23674

March 6, 1953

RE: Permit No. G-23674

Mr. William Liese
American Falls
Idaho

Dear Mr. Liese:

In rechecking your Permit No. G-23674, we note that your point of diversion or location of the well is described as being in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 31, Township 7 South, Range 29 East, B.M., and the land to be irrigated is described as the S $\frac{1}{2}$ SE $\frac{1}{4}$ Section 28, and the N $\frac{1}{2}$ NE $\frac{1}{4}$ Section 31.

This is in accordance with your application and sketch map, but we think it is apparent that Section 33 lies directly South of Section 28 and not Section 31, and it would appear that the well is located in the NE $\frac{1}{4}$ Section 33, and that the 80 acres lying South of the S $\frac{1}{2}$ SE $\frac{1}{4}$ Section 28 would be the N $\frac{1}{2}$ NE $\frac{1}{4}$ Section 33, and not Section 31.

Please check this and if you find there has been an error in your permit, will you please return same to this department for correction.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By
