Blackfoot, Idaho

Dear Mr. Anderson:

In accordance with your letter of October 28, 1953, we have corrected the land descriptions in the proofs of completion of works and beneficial use on Permit No. G-23437 of Ewald A. Funk, to include the entire SE $\frac{1}{4}$ of Section 28, Township 6 South, Range 30 East, B.M.

This completes the proof but before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Funk at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP

Permit No. G-23437

Dear Jeanne:

As usual, when you catch one of my mistakes,
which seem to be rather frequent, my face
is a little red.

All of the 160 acres should be included in
the description. That, of course, would
include SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 28, Township 6
South, Range 30 E.B.M. Will you please
make this addition.

Our sincere thanks for calling this matter
to our attention.

Very truly yours,

Dear Mr. Anderson:

We have your letter of October 27, 1953, enclosing depositions of Ewald A. Funk and two witnesses, also affidavit of publication in the Blackfoot Daily Bulletin, all submitted in proof of completion of works and beneficial use on Permit No. G-23437.

In checking the land descriptions in these proofs, we note that they do not include the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 28, Township 6 South, Range 30 East, B.M., although the entire quarter section is included in the permit and in the published notice. Was this subdivision intentionally omitted or was it an oversight?
