Re: Permits Nos. G-23266 and G-26420
Olen Lankford

Anderson & Beebe
Attorneys At Law
P. O. Box 752
Blackfoot, Idaho

Attention: Arnold T. Beebe

Dear Mr. Beebe:

In reply to your letter of May 28, 1958, in connection with the above captioned permits.

As per your request, we wish to advise that the $E\frac{1}{2}SW\frac{1}{4}$ of Section 14 can be included in the license under Permit No. G-23266, however, Mr. Humphrey states that the $E\frac{1}{2}SW\frac{1}{4}$ of Section 14 is now being irrigated from a well located in the $SW\frac{1}{4}SW\frac{1}{4}$ of Section 14 and is the same point of diversion as given as the location of the well under Permit No. G-26420.

In talking with Mr. Humphrey, he states that it would be to the advantage of Mr. Lankford, since he has measured the flow of both wells, that Permit No. G-26420 be amended to include the $E\frac{1}{2}SW\frac{1}{4}$ of Section 14, however, it is up to Mr. Lankford and yourself as to whether the $E\frac{1}{2}SW\frac{1}{4}$ of Section 14 is included in Permit No. G-23266 or Permit G-26420.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

License and Certificate of Water Right

Water License No. G-23266

Amount 2.92 c.f.s.

Water District No. _____

Priority November 24, 1952

THIS IS TO CERTIFY that BRUCE M. PARMELEE - OLEN LANKFORD, Assignee
of Springfield, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated November 24, 19 52; that Permit No. G-23266
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
2.92 second feet, was issued thereunder on June 19, 19 58, showing that said works
were completed on the 23rd day of November, 19 57; and that on the 23rd
day of November, 19 57, OLEN LANKFORD

of Sterling, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
a tributary of subterranean, for the purpose of Irrigation and domestic
use, under Use Permit No. G-23266 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
10 of Licenses at page 6353, on the 19th day of June, 19 58;
The right hereby confirmed dates from November 24, 19 52;

The Point of Diversion is located
in the SW 1/4 SE 1/4, Sec. 14, Tp. 4 S., R. 31 E., B. M. County Bingham
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 2.92 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 31039
Permit No. G- 23266
District No.

Assigned to *Olin Lankford*
Stirling Ida

1. Name of Applicant: BRUCE M. PARMELEE
Postoffice address: Springfield County: Bingham State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. Six (6) or Idaho
Miners' inches 300 or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Underground from well
4. Location of point of diversion or well is in the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 14
Twp. 4 S., Rge. 31 E., B.M., County of Bingham
5. Water is to be used for: Irrigation and domestic purposes
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Deep well, and electric pump and motor
8. Estimated cost of works: \$ 5,000.00
9. (a) Is reservoir to be used?
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is Five(5) years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
(b) Amount of capital stock: \$ (c) Amount paid in: \$
(d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

By Fred W. Kiefer Agent.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G23266

Comes now Olen Lankford and represents to the State Reclamation Engineer of the State of Idaho: That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-23266. That the point of diversion is described in said permit as being located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 14, Twp. 4 S., Rge. 31 E.M. That he now requests that the point of diversion be changed to a point located in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, Twp. 4 S., Rge 31 E.B.M. That his reasons for desiring to make such change are as follows: to conform to actual situation of well. That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Blackfoot, Idaho, this 2d day of October, 1957

Gentlemen:

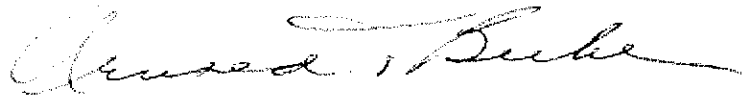

Re: Permits #G 23266 and G26420
Olson Lankford

We enclose herewith Mr. Lankford's check for \$15.00 in payment of statutory fees for Certificate of Completion of Works and License and Certificate of Water Right in accordance with your letter of May 14, 1958, in connection with permit #G23266. In this connection, Mr. Lankford has appreciated your services and your suggestions as to putting the E $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14 under his other permit.

We enclose herewith Application for Amendment to permit #G 26420, adding to the list of lands the E $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14.

Very truly yours,

ANDERSON & BEEBE

P. O. Box 752
Blackfoot, Idaho

Attention: Arnold T. Beebe

Dear Mr. Beebe:

In reply to your letter of May 28, 1958, in connection with the above captioned permits.

As per your request, we wish to advise that the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 can be included in the license under Permit No. G-23266, however, Mr. Humphrey states that the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 is now being irrigated from a well located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 14 and is the same point of diversion as given as the location of the well under Permit No. G-26420.

In talking with Mr. Humphrey, he states that it would be to the advantage of Mr. Lankford, since he has measured the flow of both wells, that Permit No. G-26420 be amended to include the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14, however, it is up to Mr. Lankford and yourself as to whether the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 is included in Permit No. G-23266 or Permit G-26420.

Very truly yours,

MARK R. KULP

Re: Permits Nos. G-23266 & G-26420
Olin Lankford

Anderson & Beebe
Attorneys At Law
P. O. Box 752
Blackfoot, Idaho

Attention: Mr. Arnold T. Beebe

Dear Mr. Beebe:

This is in answer to your letter of May 21, 1958, in which you state that the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14, Township 4 South, Range 31 East should be included in the land description as shown in our office letter of May 14, 1958.

There seems to be a mix-up regarding these permits in the name of Olin Lankford. It is true that according to the amendments in this department in connection with Permit No. G-23266, the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 should have been included in the land description and connected with said permit. However, when Mr. Humphrey, Deputy State Reclamation Engineer, made the engineer's report of the examination, Mr. Olin Lankford accompanied him on said inspection and it was Mr. Lankford's wish that the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 be included in Permit No. G-26420 at that time, as proofs of Completion of Works and Application of Water to Beneficial Use had not been made, although inspection has been made on both permits by Mr. Humphrey.

Mr. Humphrey states that we should write you in this regard and make sure under which permit the E $\frac{1}{2}$ SW $\frac{1}{4}$ should be included. Provided it is Mr. Lankford's wish to have the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14 included under Permit No. G-26420, it will be necessary to amend both permits to make the correction.

We are enclosing forms for that purpose in case you wish to use them. However, we will await your reply before further action is taken in the matter.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. G 23266
Olen Lankford

Dear Sir:

We received your letter of May 14, advising us of the results of your field engineer's report which is to the effect that the license and certificate will issue for 2.92 second feet of subterranean water for irrigation of 200 acres in the Southeast quarter Section 14 and Northwest quarter of the Southwest quarter, Section 13, all in Township 4 South, Range 31, East Boise Meridian.

Our file reflects that in addition to the lands above described the Permit G 23266 includes the East half of the Southwest quarter of Section 14, being 80 acres. Reference to this is omitted from your engineer's report or your letter. It may be that the proof under the permit caused the omission of these lands, but our record indicates that they should be included in the license. Would you kindly check this and let us have your comments.

Very truly yours,

ANDERSON & BEEBE

Arnold T. Beebe

Olen Lankford

Mr. Arnold T. Beebe
Anderson & Beebe
Attorneys-At-Law
P. O. Box 752
Blackfoot, Idaho

Dear Mr. Beebe:

Our field engineer's report on his inspection of completion of works and application of water to beneficial use under the terms of Permit No. G-23266, Olen Lankford, Sterling, Idaho, shows the well is capable of conveying 146 miners' inches (2.92 c.f.s.) of water for irrigation of 200 acres.

Upon receipt of the statutory fees, totaling \$15.00, we will issue to Olen Lankford, the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (ten dollars—based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of November 24, 1952, to the use of 2.92 second feet of subterranean water, with the point of diversion in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, for irrigation of 200 acres in the SE $\frac{1}{4}$ of Section 14 and the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 13, Township 4 South, Range 31 East, B.M.

Mr. Olen Lankford
Sterling,
Idaho

Dear Mr. Lankford:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Daily Bulletin, all submitted in proof of Completion of Works & Beneficial Use on Permit No. G-23266.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Permit No. G-23266

Proof of Application of Water to Beneficial Use

and Completion of Works Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Olen Lankford, Sterling, Idaho; farmer.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Not applicable

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-23266, dated November 29, 1952, with priority date November 24, 1952.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean waters from well in the Northwesternly portion of SW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 14, Township 4 South, Range 31, EBM, Bingham County, Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well: 145 feet, 16-inch casing 6 feet deep, and 50 feet to water.
Pump: 1600 gallons per minute at 60 lbs. pressure at pump.
Sprinkling System: 8 lines, $\frac{1}{4}$ -mile, 33-11/64 Bucknerbirds to a line, operating at 60 lbs., produces 177 miners inches.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation of cultivated land. Used for cultivation purposes on the E $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ of Sec. 14, and NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, all in Twp. 4 S., Range 31, EBM, Bingham County, Idaho. All of said land has been tilled and prepared for cultivation, E $\frac{1}{2}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$ in potatoes, 1957; W $\frac{1}{2}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$ irrigated in preparation of planting, 1958. Entire NE $\frac{1}{4}$ SW $\frac{1}{4}$ irrigable. SE $\frac{1}{4}$ SW $\frac{1}{4}$ (39 Acres) all in potatoes (28 acres) or grain (11 acres), 1957. One acre of rock outcropping. NW $\frac{1}{4}$ SE $\frac{1}{4}$ all irrigable; 30 acres in potatoes, 1957; and balance of 10 acres irrigated irrigated in preparation for planting. SE $\frac{1}{4}$ SE $\frac{1}{4}$ entirely irrigable and in potatoes in 1956 and 1957. NE $\frac{1}{4}$ SE $\frac{1}{4}$ entirely irrigable and in barley in 1957. SE $\frac{1}{4}$ SE $\frac{1}{4}$ all irrigable except about 3 acres in SE corner where canal crosses. 15 acres wheat & 8 acres barley in 1957, balance irrigated for planting.
NW $\frac{1}{4}$ SW $\frac{1}{4}$ all irrigable and all irrigated in preparation of planting.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not applicable.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 173 miners inches.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. By assignment.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Crops grown as specifically set out in answer to Ques. 6 hereof; were irrigated through said sprinkler system in accordance with good sprinkler irrigation farming methods to the extent of at least 5/8 miners inch per acre, and application of water to lands in preparation of spring planting was made in similar manner.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

Permit No. G-23266

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Eddie W. Mihelish, age 33; address, 220 Robertson, Blackfoot, Idaho; occupation, office manager, Agricultural Services, Inc.

Ques. 2. Are you acquainted with Olen Lankford, the holder of Permit No. G-23266? How long have you known him and where does he reside?

Ans. Yes. Three years. Sterling, Idaho.

Ques. 3. Have you read or heard read said Permit No. G23266, and are you familiar with its provisions and conditions?

Ans. Yes. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean waters from well in Northwestly portion of SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 14, Twp. 4 S., R. 31, EBM, Bingham County. Well 145' deep, 16" casing 6' deep; 50' to water. 1600 gpm's at 60# pressure at pump. Sprinkling system. 8 lines, $\frac{1}{4}$ -mile, 33 - 11/64 Bucknerbirds to a line, operating at 60#, produces 177 miners inches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 177 miners inches. (3.5 sec. feet). Safely conveyed and have seen so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 3.5 cu. ft. Estimate based upon observation and experience in such systems.

23266

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation purposes. Entire acreage except approximately 1 acre in SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13 and about 3 acres in SE corner of SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 14; said subdivisions being: E $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$, Sec. 14; and NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, all in Twp. 4 S., R. 31 EBM, Bingham County. Diverted from arid desert land to cultivated irrigable farming land.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Portnuf silt loam, reclaimed from waste desert land. Needs at least 5/8 miners inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Acreage set out in #7 above has been irrigated in 1957.

(Signed)

Eddie W. Mitchell

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Blackfoot, County of Bingham, State of Idaho, on this 23rd day of November, A. Permit No. G-23266

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Robert W. Chaffin; age 29; residence, Route #1, Blackfoot, Idaho; occupation, salesman (agricultural implements.)

Ques. 2. Are you acquainted with Olen Lankford, the holder of Permit No. G23266? How long have you known him and where does he reside?

Ans. Yes. Three years. Sterling, Idaho.

Ques. 3. Have you read or heard read said Permit No. G23266, and are you familiar with its provisions and conditions?

Ans. Yes. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. subterranean waters from well in NWly portion of SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 14, Twp. 4 S., R. 31, EBM, in Bingham County. Well 145 feet deep, 16-inch casing for 6 feet; 50 feet to water. 1600 gmp's at 60# pressure at pump. Sprinkling system: 8 lines, $\frac{1}{4}$ -mile, 33 - 11/64 Bucknerbirds to a line, operating at 60#, produces 177 miners inches.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 177 miners inches, or 3.5 sec. feet. Safely conveyed and have seen it so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 3.5 cu. ft. Estimate based upon observation of said system and experience with such systems.

23266

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation purposes. Entire acreage except approximately 1 acre in SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, and about 3 acres in SE corner of SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 14, said Subdivisions being: E $\frac{1}{2}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$, Sec. 14; and NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, all in Twp. 4 S, R. 31, EBM, in Bingham County. Diverted from arid desert land to cultivated irrigable farming land.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not applicable

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Portnuf silt loam, reclaimed from waste desert land. Needs at least $\frac{5}{8}$ miners inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Acreage set out in #7 above has been irrigated in 1957.

ATT: Arnold T. Beebe

Dear Mr. Beebe:

This acknowledges receipt of the Notice of proofs of completion of works and application of water to beneficial use under Permit No. G-23266, in the name of Olen Lankford. Final proof is to be made before you, as Notary, at 10:00 A.M. on the 23rd day of November.

As of this date, we have mailed the Notice to the Daily Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and to then mail the affidavit of publication and statement of costs to you.

In completing the enclosed depositions, it is very important that the Permit holder and his two witnesses, who are familiar with the terms and work done thereunder, execute the depositions before you, as Notary, at the time, date and place as advertised in the publication Notice, as well as all other necessary information called for. The signatures of the holder and witnesses, and, your Notary seal are essential.

When returning the depositions to this office, please be sure to include the affidavit of publication.

Att: Arnold T. Beebe

Dear Mr. Beebe:

In reply to your request of October 3rd, 1957, we herewith in-
close two (2) sets of Form 36 and 11. In case Mr. Lankford is
prepared to make final proof on both Permits.

Proofs on Permit No. G-23266 are due November 22, 1957, and on
Permit No. G-26420 proofs are not due until July 13, 1961. How-
ever proofs on Permit No. G-26420 may be made at any time, pro-
viding all works are completed and water applied to beneficial
use.

The amendments mailed in, have been approved and will be for-
warded to you in the next few days.

ATTENTION: Mr. Arnold Beebe

Dear Mr. Beebe:

Enclosed are the applications for amendment to Permits No. G-23266 and G-26420, Olen Landford, Sterling, Idaho, which were approved by the State Reclamation Engineer and recorded in the Department of Reclamation with the respective permit to which they refer in Book 83 of Permits at Page 23266 changing the point of diversion to read "SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 14, Township 4 South, Range 31 East, B.M." and the list of lands to read "E $\frac{1}{2}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ Section 14; NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 13, all in Township 4 South, Range 31 East, B.M., Bingham County, Idaho" and in Book 93 of Permits at Page 26420 changing the list of lands to read "W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 14; E $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 23, all in Township 4 South, Range 31 East, B.M., Bingham County, Idaho."

These amendments should now be attached to the original permit to which they refer and of which they become a part.

Very truly yours,

MARK R. KULP

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G23266

RECEIVED
OCT 4 1957
Department of Reclamation

Comes now Olen Lankford and represents to the State
Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G 23266.

That the point of diversion is described in said permit as being located
in the NW¹ SE¹ Section 14, Twp. 4 S., Rge. 31 EBM
now

That he now requests that the point of diversion be changed to a point
located in the SW¹ SE¹ Section 14, Twp. 4 S., Rge. 31 E. B. M.
SW¹

That his reasons for desiring to make such change are as follows:

to conform to actual situation of well

That no one will be injured by such change, and that such change will be
made at Permit Holder's own risk.

Signed at Blackfoot, Idaho, this 2d day of October, 1957

Olen Lankford

Date of receipt at Department of Reclamation October 4, 1957

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby
approve the above and foregoing application for amendment to Permit to appropriate
the Public Waters of the State of Idaho, No. G23266. This approval constitutes
a new permit and is issued as an amendment to the original permit, to which it re-
fers and of which it becomes a part, and said application is approved only insofar
as the rights of others will not be adversely affected thereby.

Mark R. Kulp
State Reclamation Engineer

D 23266

OCT 4 1957

To Permit to Appropriate the Public Waters
of the State of Idaho, No. G-23266

Comes now Olan Lankford, and represents to the State
Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of
Idaho, No. G23266, and requests that the list of lands to be irrigated, as described in said
permit, be changed to read as follows:

E $\frac{1}{2}$ SW $\frac{1}{4}$ and the SE $\frac{1}{4}$, Sec. 14, and NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13, all in
Twp. 4 S., Rge. 31 E. B. M., Bingham County, Idaho

making a total of 280 acres.

That an additional amount of water is not asked for, and that the rights of others will not be ad-
versely affected by such change.

Signed at Blackfoot, Ida., this 2d day of October, 1957.

Olan Lankford

Date of receipt at office of Department of Reclamation October 4, 1957

APPROVAL OF STATE RECLAMATION ENGINEER

I, MARK R. KULP, State Reclamation Engineer of the State of Idaho, hereby approve
the above and foregoing application for amendment to Permit to Appropriate the Public Waters of
the State of Idaho, No. G-23266. This approval constitutes a new permit and is issued as an
amendment to the original permit, to which it refers, and of which it becomes a part, and said appli-
cation is approved only insofar as the rights of others will not be adversely affected thereby.

Blackfoot, Idaho

Attention: Mr. Arnold Beebe

Dear Mr. Beebe:

In reply to your letter of September 23, 1957, in regard to the above captioned permits, we wish to state that the assignment of Permit No. G-23266 which misspelled Mr. Lankford's name has been corrected on the original record in this department. Therefore we do not think that any affidavit will be necessary as per your suggestion.

In studying over the land description described under Permits No.s G-23266 and Permit No. G-26420, we might suggest the following; that Permit No. G-23266 may be amended to include the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 13, together with the SE $\frac{1}{4}$ and the E $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Section 14, since the W $\frac{1}{2}$ of the SW $\frac{1}{4}$ of 14 is not in crop at this time and ready to be proved up upon, we might suggest that Permit No. G-26420 be amended to include the W $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 14, and exclude the NW $\frac{1}{4}$ of the SW $\frac{1}{4}$ of 13. Providing that Mr. Lankford proposes to operate all his lands included in both permits, it might be well that he amend permit No. G-23266 to include all of the lands except the W $\frac{1}{2}$ of the SW $\frac{1}{4}$ of 14 which cannot be proved up on at this time, then amend Permit No. G-26420 to include all of the lands under both permits. This would give the holder of the Permit the right to distribute his water from either well in any manner he chooses, or where he chooses.

We are enclosing herewith some amendment forms for your use in case you wish to use them, also we will await hearing from you before we publish said notice for completion of works and beneficial use on Permit No. G-23266 until we hear from you whether you wish to amend same or not.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Department of Reclamation

Mr. Mark R. Kulp
State Reclamation Engineer
State of Idaho
Department of Reclamation
Boise, Idaho

Dear Mr. Kulp:

Re: Permit No. G 23266
Olen Lankford, Assignee

Permit No. G 26420
Olen Lankford, Permittee

In connection with G 23266, we enclose herewith letter authorizing publication of notice, duplicates of which notice are likewise enclosed.

We note the assignment of G 23266 does not correctly spell Mr. Lankford's name, and wonder if you will require any correcting affidavit. It is our thought such affidavit would not be necessary where the final proof will show that Olen Lankford, and not "Olin Langford" is the name of the person in possession of the land and well and making the proof.

The two captioned permits present some problems unusual to us, and we will appreciate the benefit of the departments experience and requirements. The two wells presently have systems that inter-connect. While the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 13 is listed under G 26420 and proof can eventually be made under that permit, it will be more feasible to pump water for that land from the well that is described in G 23266. Is there any way Mr. Lankford can obtain the priority which could be afforded under G 26420, and obtain a right to use the water from the nearest well, that is the well described in G 23266? Could this be done by obtaining and new permit for this land, using the well nearest, aforesaid, and proving up on such new permit and also G 26420 for this particular land?

Also, the W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 14 is not yet under water and proof under G 23266 will not include this said land. However, it appears that Mr. Lankford will amend to put this 80 acres under G 26420. Permit G 26420 asks for 147 miner's inches, and lists 147 acres of land. If another 80 acres were listed, the land might exceed in water per acre needed the amount asked for in the permit. Can such an amendment be made where more water will be asked for? If not, then the above mentioned land in Sec. 13 would best be eliminated to make room for the 80 acres in Sec. 14, and a new permit sought for the Sec. 13 land.

N 23266

Mr. Mark R. Kulp
9/23/57
Page 2

We will appreciate whatever suggestions and assistance you can give as to the proper solution of these problems in the light of procedures and regulations of the department.

Very truly yours,

ANDERSON & BEEBE

Blackfoot, Idaho

ATTENTION: Mr. Arnold T. Beebe

Dear Mr. Beebe:

This is a reply to your letter of February 12, 1957, relative to the permits captioned above in the name of Olen Lankford.

The status of the permits is as follows: Permit G-23266 was filed and approved in this department on November 29, 1952. Completion of Works and Beneficial Use Proofs are due at the same time and are not due until November 29, 1957. Permit No. G-26420 was filed May 16, 1956, proofs of completion of works and beneficial use are not due until July 15, 1961.

Proofs on Permit No. G-23266 will have to be completed by November 29, 1957. No extension of time can be granted on this permit since the five-year maximum time allowance will expire on the said date. The sixty-day clause and the 1/5 completion clause of the permit are statutory requirements, however, this department does not police same but is concerned only with the completion of works and water put to beneficial use date as stated under the terms of the permit.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. G23266
Olen Lankford, Assignee

Permit No. G26420
Olen Lankford

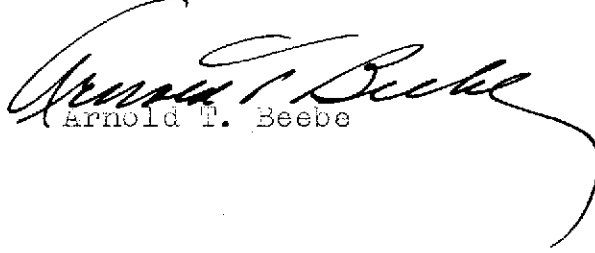

Dear Mr. Kulp:

In connection with the two above captioned subterranean water permits the holder thereof desires to make proof of completion of works under the respective permits. It is anticipated that the application of water to beneficial use will be entirely or almost entirely completed in the next farming season, but in the meantime, at least as to Permit No. G23266, the permit provides for 1/5 of the work to be completed on or before May 29, 1955. We are not familiar with making proof of completion or partial completion of the work separate from the final proof of application to beneficial use and accordingly would appreciate your sending us the necessary forms and any suggestions you have in this regard.

We are wondering if there is not some procedure whereby an extension of time could be granted for making proof of completion so that the proof of completion and application to beneficial use could coincide and be made some time next summer when the crops have been irrigated. This procedure would be better in the event there is any publication or extra expense involved in making the proof of completion which is due shortly.

Very truly yours,

ANDERSON & BEEBE
