State Reclamation Engineer
Dear Sir,

Creed M. Reasor of Pingree, Idaho asked that I write your office for some advise and information. He has 3 wells on his property and does not know if he has made proper proof of completion of works and beneficial use of the water. I will list the permit numbers and location of land to be watered on each, and ask if you will please let us know if something needs to be done, or if proof has already been made.

Permit #G27551, SW/NE 1/4 Sec 16 Tp 4S., R 33 EBM, Bingham County, Idaho.

Permit #G23261, NW/NE 1/4 Sec 15, 4S, R33 EBM, Bingham County, Idaho.

Permit #G31760, SE/SE 1/4 Sec 15, 4S, R33 EBM, Bingham County, Idaho.

Your help will be appreciated.

Sincerely yours,

Arvel Draper

Dear Mr. McElbowney:

Your letter of Jan 17th noted that permit #G-27551 was cancelled on Dec 20, 1963 for failure to submit proof of completion of works due Sept, 4, 1963. SW/NE 1/4 Sec 15, Tp 4 S., R. 33 E.B.M..

What is necessary for Mr. Reasor to do to get the permit again and to get a license? Please advise at once or as soon as convenient.

Your letter also mentioned that Permit #23261 was not on the West half of Sec 15, Tp 4 S., R. 33, but instead was issued to Homer Longurst on SW/NE 1/4 Sec 21 Tp 1 N., R. 35. We have assumed that the above was the correct permit number for a well on the W 1/2 Sec 15, Tp 4 S., R. 33. Do you have any way of telling who a permit was issued to on that land? And if a license was given? Please advise as soon as possible. Actually this is the N 1/4 Sec 15.

Your letter said that permit #G31370 would have Proof of completion of works and beneficial use of water due on March 6, 1969. That proof had not yet been submitted. We are grateful for this information and the necessary steps will be taken to get the proof. It will be appreciated if you will advise us of the steps needed to furnish this proof. The land is being sprinkled, last year being the first.

We realize submitting the above advise will take some time but will certainly appreciate any help you can give us. I will look forward to hearing from you.

Sincerely yours,

POINT OF DIVERSION

Permit No. G-23261

Comes now W. Homer Longhurst and
represents to the State Reclamation Engineer of the State of Idaho:

That he is (~~also~~) the owner and holder of Permit to appropriate the Public
Waters of the State of Idaho, No. G-23261.

That the point of diversion is described in said Permit as being located:

SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, T. 1 N., R. 35 E., B.M.

That he now requests that the point of diversion be changed to a point
located: SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, T. 1 N., R. 35 E., B.M.

That the reason for desiring to make such change is as follows:

To lay out a more efficient irrigation system and square it off with the other
systems adjacent to it.

That no one will be injured by such change, and that such change will be made
at Permit Holder's own risk.

Re: Permit No. G-23261

W. Homer Longhurst
Rt 1
Shelley, Idaho

Dear Mr. Longhurst:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-23261 shows the well is (~~are~~) capable of conveying 177 miner's inches, or 3.54 c.f.s. of water for the irrigation of 240 acres.

Upon receipt of the statutory fees, totaling \$ 17.00 , we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ 12.00 , based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of November 22, 1952 to the use of 3.54 second feet of subterranean water with the point of diversion in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 21 for irrigation of 240 acres in the NE $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 21, Township 1 North, Range 35 East, B.M.

Since your permit shows the point of diversion to be in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 21 and does not include the SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 21 it will be necessary to amend the point of diversion and the land list on the permit, if you want the extra land included in the license. The point of diversion must be amended. Complete the enclosed forms, submit them with the above mentioned statutory fees, plus an additional fee of \$2.00 for recording the amendments, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above. If you do not want the extra land included, the statutory fees will total \$14.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. W. Homer Longhurst, I live at Connel, Washington, my occupation is farming and my P.O. address is Rt. 1 Shelley Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. I am acting as an individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-23261 11/29/52 Priority Date 11/22/52

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. A drilled well to raise subterranean water located about the center of the west line of the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 21, T 1 N - R 35 E., B.M.

OK by P.M. & L.S.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. This is irrigated entirely by sprinkler system. The well is drilled to a depth of 375' the water stands at 324' & that's where I pump. The casing is 20" & is for 16'; equipped with 200 h.p. turbine type pump & motor, under free flow, I think it will produce better than 250". Under sprinkler system I run 8 lines at 60# pressure & each line has 33 nozzles. There are a standard nozzle. I run about 1500 gal./min thru system. This has been measured by the pump co.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ (40 ac.), NW $\frac{1}{4}$ NE $\frac{1}{4}$ (40 ac.), SE $\frac{1}{4}$ NE $\frac{1}{4}$ (40 ac.), NE $\frac{1}{4}$ SE $\frac{1}{4}$ (40 ac.), Sec. 21. There is no natural meadow. I have spent over \$50,000 on ~~storing~~ the well, pump & motor and the sprinkler system. All these improvements are a result of beneficial use on the land. The water is also used to irrigate SW $\frac{1}{4}$ SW $\frac{1}{4}$ (30 ac.) Sec. 15, NW $\frac{1}{4}$ NW $\frac{1}{4}$ (35 ac.), SW $\frac{1}{4}$ NW $\frac{1}{4}$ (40 ac.), NW $\frac{1}{4}$ SW $\frac{1}{4}$ (40 ac.) Sec. 22., all in 1N-35E.

Dear Mr. Harn:

We wish to acknowledge receipt of the several notices of publication of Proof of Application of Water to Beneficial Use.

In this case, we will state that notices were sent to the paper on November 8th and a reply has been received from the publisher stating that notices will be published in said paper as of November 14, 21, 28 and December 5th.

In regard to Permit No. G-23078, the application for amendment to permit signed by Roy Jernberg is not acceptable to this department. We are therefore returning one copy of said amendment together with additional blank applications for amendment and will request that amendment be signed by Charles Stewart, President of the Jefferson Irrigation Company.

We will write relative to Permits G-23078 and G-23079 after receipt of proofs.

Dear Mr. McDowell:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-23261, in the name of W. Homer Longhurst. Final Proof is to be made before you, as Notary on the 26th day of March, 1960, ~~xxxx~~ at 9:30 o'clock A.M., at Boise, Idaho.

As of this date we have mailed the Notice to the Daily Bulletin with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Mr. McDowell:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 23261 are due not later than April 13, 1960.

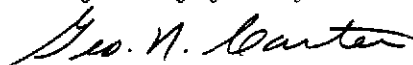

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.
