Permit Map No. 6-23257
As Approved
NOV 29 1952
MARK R. KULP
State Reclamation Engineer

State of Idaho

License and Certificate of Water Right

Water License No. G-23257

Amount 2.56 second feet

Water District No.

Priority November 21, 1952

THIS IS TO CERTIFY that KENNETH W. MARSHALL of Twin Falls, Idaho, made application for a permit to appropriate the public waters of the State of Idaho, dated November 21, 19 52; that Permit No. G-23257 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 2.56 second feet, was issued thereunder on October 28, 19 55, showing that said works were completed on the 27th day of May, 19 55; and that on the 27th day of May, 19 55,

KENNETH W. MARSHALL of Twin Falls, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of a well ~~rehabilitation~~ (subterranean flow), for the purpose of irrigation, under Use Permit No. G-23257 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume 9 of Licenses at page 5573, on the 28th day of October, 19 55; The right hereby confirmed dates from November 21, 19 52;

The Point of Diversion is located in the center of the NE $\frac{1}{4}$ ~~Section~~ ~~15~~ Sec. 15, Tp. 5 S., R. 30 E., B. M. Bingham County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 2.56 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
5 S.	30 E.	15	NE $\frac{1}{4}$ NE $\frac{1}{4}$	40	40
			NW $\frac{1}{4}$ NE $\frac{1}{4}$	40	40
			SW $\frac{1}{4}$ NE $\frac{1}{4}$	40	40
			SE $\frac{1}{4}$ NE $\frac{1}{4}$	40	40
			Number of Acres Actually Irrigated	- -	160

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this 28th day of October, 19 55.

HARK R. KULP

State Reclamation Engineer.

APPLICATION FOR PERMIT 35-2279
To Appropriate the Subterranean Waters of The State of Idaho

Application No. G-31029
Permit No. G- 23257
District No.

1. Name of Applicant: KENNETH W. MARSHALL
Postoffice address: Box 1014, Twin Falls County: Twin Falls State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second. 3.2 or Idaho
Miners' inches 160 or gallons per minute.
 - (b) Annual withdrawal in acre feet per annum 800
3. Source of water supply: Subterranean flow from a well
4. Location of point of diversion or well is in the center $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 15
Twp. 5 S. , Rge. 30 E. , B.M., County of Bingham
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B.M.
 - (b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Drilled well, equipped with turbine type pump; also sprinkler system
8. Estimated cost of works: \$ 16,000.00
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is Five(5) years.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation:
 - (b) Amount of capital stock: \$ (c) Amount paid in: \$
 - (d) Names and addresses of directors:
 - II. The financial resources of the applicant are (a) Cash on hand: \$
 - (b) Treasury stock: (c) Bonds to be issued:
 - (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Applicant.

Agent.

Returned to applicant for correction:

Corrected application received:

The number of this permit is G-23257

Recorded in Book 83 Page 23257 Approved November 29, 1952

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before January 29, 1953 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before May 29, 1955

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before **November 29, 1957**

Witness my hand this 29th day of November, 1952

ATTENTION: Harry B. Gambles, Assistant Manager

Dear Mr. Gambles:

Pursuant to your letter request of April 6, 1971, we wish to advise you as to the status of the two water rights in the name of Chester Wahlen.

Permit No. 42425/35-7019 has been approved for 2.32 cubic feet per second. The source of water supply is ground water. The point of diversion is located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 22, Township 4 S, Range 31 E, B.M., Bingham County. This permit has been approved for irrigational purposes from April 20 to November 1.

Permit No. 29558/35-2650 is licensed in the amount of 5.84 cubic feet per second, with a priority of March 10, 1961, from a ground water source. The point of diversion is in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 20, Township 6 S, Range 30 E, B.M., Bingham County.

Also, per your request, please be advised of the following:

Permit No. G-23257/35-2279, in the name of Kenneth W. Marshall, is licensed for the amount of 2.56 cubic feet per second, with a priority of November 21, 1952. The source is ground water, with the point of diversion being in the Center of the NE $\frac{1}{4}$ of Section 15, Township 5 S, Range 30 E, B.M., Bingham County.

35-2279

Permit No. G-25393/35-2286, in the name of John Lewis, is licensed in the amount of 1.34 cubic feet per second with a priority of January 24, 1955. The source is ground water, with the point of diversion being in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 25, Township 14 S, Range 35 E, B. M., Oneida County.

Permit No. G-25910/35-2433, in the name of Victor Fehringer, is licensed in the amount of 2.24 cubic feet per second, with a priority of August 29, 1955. The source of water supply is ground water, for the purpose of irrigation and domestic use. The point of diversion lies within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 22, Township 5 S, Range 30 E, B.M., Bingham County.

Permit No. G-26124/35-2446, in the name of Victor Fehringer, is licensed in the amount of 2.28 cubic feet per second, with a priority of December 27, 1955. The source of water supply is ground water and the use is for irrigational purposes. The point of diversion lies within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 22, Township 5 S, Range 30 E, B.M., Bingham County.

Permit No. G-26103/35-2443, in the name of Joseph Fehringer, is licensed in the amount of 2.42 cubic feet per second, with a priority of December 6, 1955. The source of water supply is ground water for irrigational purposes. The point of diversion lies within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 22, Township 5 S, Range 30 E, B.M., Bingham County.

Permit No. G-25452/35-2402, in the name of Leo F. Fehringer, is licensed in the amount of 5.36 cubic feet per second with a priority of February 14, 1955. The source of water supply is ground water, with the point of diversion being in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 22, and the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 23, both of Township 5 S, Range 30 E, B.M., Bingham County.

We hope that this information will be of assistance to you.

In the future, if you should have projects of this nature, please plat them on a map showing the points of diversion and places of use. This would assist us greatly in complying with your request.

Very truly yours,

Dorian Gray

RE: Permits Nos. G-23257 and G-23601

Mr. Kenneth W. Marshall
Box 1014
Twin Falls, Idaho

Dear Mr. Marshall:

We enclose Certificate of Completion of Works and License and Certificate of Water Right issued on Permit No. G-23257 confirming your right to the use of 2.56 second feet of water from a well in the center of the NE $\frac{1}{4}$ Section 15, Township 5 South, Range 30 East, B.M. with priority of November 21, 1952, for irrigation of land in the NE $\frac{1}{4}$ of said Section.

We also enclose Certificate of Completion of Works and License and Certificate of Water Right issued on Permit No. G-23601 confirming your right to the use of 2.38 second feet of water from a well in the center of the NE $\frac{1}{4}$ Section 34, Township 6 South, Range 30 East, B.M. with priority of January 20, 1953, for irrigation of land in the NE $\frac{1}{4}$ of said Section.

We also enclose departmental receipt No. G-1512 for \$26.00 which includes Certificate of Completion of Works and License fees on these two permits.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. G-23257

Mr. Kenneth W. Marshall
Box 1014
Twin Falls, Idaho

Dear Mr. Marshall:

The Report of our Field Engineer on examination for Completion of Works and Beneficial Use on your Permit No. G-23257 shows that your well in the center of the NE $\frac{1}{4}$ Section 15, Township 5 South, Range 30 East, B. M., will deliver 128 inches of water which has been used to irrigate 160 acres in that quarter Section.

A Certificate of Completion of Works and License can therefore be issued for 128 inches or 2.56 second feet upon receipt of the statutory fees. These amount to \$5.00 for Completion of Works and \$8.00 License fee or a total of \$13.00.

Very truly yours,

MARK R. KULP

REPORT OF ENGINEER

Permit No. G-23257

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Kenneth W. Marshall, P.O. Box 4, Twin Falls, Idaho
2. Source of water supply: Subterranean from a well
3. Location of point of diversion: Is in the center of NE $\frac{1}{4}$ of Section 15
T. 5 S. R. 30 E. County of Bingham
4. Describe works as they exist, giving dimensions and capacities of same: Smithway 100 H.P. motor,
serial no. 71456. Layne Turbine Pump serial No. 29090. 8' by 10' concrete
floor, aluminum sheet metal building. 8" delivery to the West into a closed
sprinkler system. Well is 309' deep by 18" diameter. 8' is cased. It equals
178', draw down is 6". There are 5, $\frac{1}{4}$ mile $\frac{1}{4}$ " laterals 33 sprinkler heads per
line. $\frac{1}{2}$ mile main line 8" diameter, black iron buried.
5. Water is used for: Irrigation
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Northeast Quarter Section 15, Twp. 5 South, Range 30 East, B. M.

See the map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Crops are hay, grain and potatoes.

This examination was made on the 2 day of July, 19 55

(Signed)

E. M. Humphrey
Examiner.

23257

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permits Nos. G-23257 & G-23601

Mr. Leonard H. Jacob
Box 426
Twin Falls, Idaho

Dear Mr. Jacob:

We have your letter of June 9th enclosing affidavits of publication from the Power County Press and the Aberdeen Times which complete the proof of completion of works and beneficial use on the above numbered Permits in the name of Kenneth W. Marshall.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made but our field engineer will try and contact Mr. Marshall at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G 23257.

Proof of Application of Water to Beneficial Use

and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Kenneth W. Marshall of P.O. Box 1014, Twin Falls, Idaho.

I am a farmer by education and occupation.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. no.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. G 23257 is dated and with priority of November 29, 1952.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean source with point of diversion in approximate center of NE $\frac{1}{4}$ of Sec. 15, Twp. 5 South, R 30 E.B.M. Bingham County, Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. 100 h.p. pump with electrically driven motor. Said pump is designed for 1150 GPM under sprinkler pressure. Water is pumped into steel mainlines for ultimate delivery to field through portable aluminum laterals. The well is 309' deep with static water level at 178' and 18" hole. There are 165 Rainbird sprinkler units, 11/64 by 3/32 in size with operating pressure of 45 lbs per sq. in.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used exclusively for irrigation purposes over the entire 160 acres of said NE $\frac{1}{4}$. The entire 160 acres are under cultivation with the exception of about 4 acres of rock outcroppings and rock piles. After the 1955 season, all but about 2 acres will be under cultivation.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

none.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 3.2 cubic feet per second of water is required.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. does not apply.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. This is the first crop season this 160 acres has been farmed by irrigation. The entire amount of water pumped will be used on this 160 acre area.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. none.

Kenneth W. Marshall

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Twin Falls, County of Twin Falls,

State of Idaho, on this 27th day of May, A. D. 1955.

My commission expires May 15, 1956.

Notary Public for Idaho
Residing at Twin Falls.

23257

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G 23257.

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is George R. Greer, age 40 of 1923-11th Ave. East,
Twin Falls, Idaho. I am an irrigation equipment salesman.

Ques. 2. Are you acquainted with Kenneth W. Marshall, the
holder of Permit No. G 23257? How long have you known him and where does
he reside?

Ans. I am acquainted with Kenneth W. Marshall, holder of permit No. G 23257,
and have known him for the past three years. He lives in Twin Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. G 23257, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Subterranean source. Point of diversion in approximately the center
of NE $\frac{1}{4}$ of Sec. 15, Twp. 5 South, R 30 E.B.M., Bingham County, Idaho. A 100 h.p.
pump electrically driven draws the water which is pumped into steel
mainlines for ultimate delivery to field through portable aluminum
laterals.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. The pump under sprinkler will deliver 1150 GPM and I have seen
at least this much water conveyed by the system.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen the system deliver 1150 GPM and measured by the
size of the nozzle on the sprinkler head and the operating pressure
produced by the pump.

23257

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation purposes over the NE¹ of Section 15, Twp 5 S, R 30 E.B.M. Approximately the entire 160 acres are under cultivation. The installation of the pump and sprinkler system comprises the main improvements.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Not apply.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is of Portneuf Silt lean character and 3.2 cubic feet per second of water is required to profitably cultivate the 160 acres.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in either the works, water or lands above mentioned.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I constantly travel in the vicinity where the land is located, and have seen the land on several occasions the past couple of years. This is the first season that the land is under cultivation. I have seen the land under cultivation.

(Signed)

George R. Greer

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Twin Falls, County of Twin Falls, State of Idaho, on this 27th day of May, A. D. 19 55.

Francis H. Jule

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G 23257.

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ralph McQuain, age 41 of Rupert, Idaho. I am a farmer by
occupation.

Ques. 2. Are you acquainted with Kenneth W. Marshall, the
holder of Permit No. G 23257? How long have you known him and where does
he reside?

Ans. I am acquainted with Kenneth W. Marshall and have been for about
5 years. He resides at Twin Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. G 23257, and are you
familiar with its provisions and conditions?

Ans. I have read the above numbered permit and am acquainted with
its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Water is supplied from subterranean source with a well located
in approximately the center of the Northeast Quarter of Section 15,
Twp. 5 South, R 30 E.B.M. Water is surfaced by means of a 100hp.
pump with electrically driven motor. Water is pumped into steel
mainlines for ultimate delivery to the field through portable aluminum
laterals.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. This unit will safely conduct 1150 GPM of water by means of
the sprinkler system. I have seen this amount conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen 1150 GPM of water pumped through this system. I
have been operating two pump irrigated farms, one within a short
distance of the land in question. I have also observed and studied
other systems. From this experience I have estimated the above.

23257

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation purposes over the entire 160 acres of said NE $\frac{1}{4}$ of Section 15. The entire 160 acres with the exception of some rock outcroppings is under cultivation. The pump and irrigation system comprise the improvements as well as the removal of rock from the land.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Only irrigation purposes.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is Portneuf Silt Loam and the maximum amount of water allowed for 160 acres would be needed to properly irrigate the land. This would be 3.2 cubic feet per second.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I am acquainted in this area and have seen this farm on various occasions, since I have a farm some miles from this 160 acre tract. This is the first year this farm has been under irrigation cultivation, but I have seen the crops planted and the sprinkler in operation.
