**NOTICE OF PROOF OF
COMPLETION OF WORKS**

**APPLICATION OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at 10:00 A. M., on the 20th day of October, 1954, at American Falls, County of Power State of Idaho, before L. R. Schou, Notary Public, proof will be submitted of the completion of works for the diversion of one cubic foot per second of the waters of a well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1, Twp. 7 S., Rge 30 E., B. M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-23182 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Robert Schroeder, American Falls, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is one cubic foot per second.

3. The use to which said water has been applied is irrigation-agricultural purposes, and the amount applied to beneficial use is one cubic foot per second.

4. The place where said water is used is Lot four (4) and the Southwest one-quarter (SW $\frac{1}{4}$) of the Northwest one-quarter (NW $\frac{1}{4}$) of Section one (1), Township seven (7) South, Range thirty (30) E. B. M.

5. The date of priority which said user is prepared to establish is October 11, 1952.

ATTENTION: Mr. L. R. Schou

Dear Mr. Schou:

We have your letter of May 11 enclosing your affidavit in connection with the taking of proof of completion of works and beneficial use on Permit No. G-23182 of Robert Schroeder, together with the affidavit of publication in the Power County Press.

This completes the proofs but before final action is taken in the matter, the law requires that a field examination be made by an engineer from this Department.

We cannot tell just when this examination will be made but our field engineer will try and contact Mr. Schroeder at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

RE: Permit No. G-23182

Messrs. Potvin & Schou
Phillips Building
American Falls, Idaho

ATTENTION: Mr. L. R. Schou

Dear Mr. Schou:

We are again writing you in regard to proofs on Permit No. G-23182 in the name of Robert Schroeder.

The matter cannot be held open indefinitely and if the proofs are to be accepted without republication, it will be necessary for us to have your affidavit as called for in our letter of January 25, 1955, also, the affidavit of publication in the Power County Press, which that paper was instructed to send Mr. Schroeder.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. G-23182

Messrs. Potvin & Schou
Attorneys at Law
Phillips Building
American Falls, Idaho

ATTENTION: Mr. L. R. Schou

Dear Mr. Schou:

We do not seem to have received a reply to our letter of January 25 in regard to proofs on Permit No. G-23182 in the name of Robert Schroeder.

In this letter we stated that since we did not wish to work a hardship on Mr. Schroeder on account of an error in publication, we could accept the proofs as submitted by you, taken on October 30, 1954, if you would accompany same by your own affidavit stating that your office was open on the date set for proof, that there were no protests filed, if such is the case, and that the taking of the proofs was continued until October 30, 1954.

Upon receipt of this affidavit and the affidavit of publication from the Power County Press the proofs could be accepted as submitted by you.

You understand, of course, that this matter cannot be held open indefinitely so we are bringing it to your attention thinking that you have probably overlooked completing the matter.

Very truly yours,

MARK E. KILP
State Reclamation Engineer

ATTENTION: Mr. L. R. Schou:

Dear Mr. Schou:

In further reference to proofs on the above numbered Permit in the name of Robert Schroeder.

We have a letter from the Power County Press enclosing a copy of their issue of October 7 which shows that although the legal notice was published the required number of times the date was not changed to October 30.

We do not wish to work a hardship on your client by requiring a republication. We can, therefore, accept the proofs as submitted by you, taken on October 30, 1954, if you will accompany same by your affidavit stating that your office was open on the date set for proof, that there were no protests filed (if such is the case) and that the taking of the proofs was continued until October 30, 1954. Upon receipt of this affidavit and also the affidavit of publication from the Power County Press, the proofs can be accepted as submitted.

Very truly yours,

RE: Permit No. G-23182

Power County Press
American Falls
Idaho

Gentlemen:

On September 11, 1954, we sent you notice for publication on Permit No. G-23182 of Robert Schroeder.

On September 29, we wrote you after checking a copy of this notice appearing in your issue of September 16 calling attention to some errors which would necessitate republishing and changing the date for making proof from October 20 to October 30, 1954.

In that letter we requested that you send us a tear-sheet of the corrected notice and also a copy of the first publication containing same.

We never received an acknowledgment of this letter nor a copy of the corrected notice.

Please advise if the corrected notice was published setting the date for making the proof October 30 instead of October 20.

If this publication was made, please send us an affidavit of publication of such corrected notice.

It is important that this matter be given your prompt attention.

Very truly yours,

MARK R. KULP

ATTENTION: Mr. L. R. Schou

Dear Mr. Schou:

Reference is made to your letter of January 18 in regard to proofs on Permit No. G-23182 of Robert Schroeder.

Our former letters in regard to these proofs over-looked the fact that we had notified the Power County Press to change the date from October 20 to October 30, 1954. This was partly due to the fact that we had never received an acknowledgment of our letter authorizing this change.

Enclosed is copy of letter we are today addressing the Power County Press, which we hope will straighten the matter up.

Very truly yours,

Re: Permit No. G-23182

Gentlemen:

On September 29th, 1954, you informed Mr. Robert Schroeder, the holder of Permit No. G-23182, that the notice published in the Power County Press had been improperly published, and that the date for making proof would, therefore, have to be advanced from October 20th to October 30th, 1954.

On October 30th, 1954, I forwarded the Depositions of two witnesses, and the Deposition of Mr. Schroeder as per your instructions.

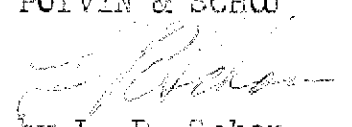

On November 2, 1954, you notified me by mail that the Depositions were dated October 30th, 1954, but that the published notice was set for October 20th, 1954, and that I should, therefore, forward my Affidavit to the effect that my office was open on October 20th, 1954, the date set for proof. You also requested that we get hold of the Affidavit of Publication and forward it to you.

As you can see, we have made every attempt to comply with your instructions short of filing two sets of proofs, one on the 20th and one on the 30th of October. I have secured another Affidavit of Publication from the Power County Press and note, that in spite of your directions to them, they republished the notice with the 20th day of October as the day for the submission of proof for the completion of works.

What shall we do now?

Very truly yours,

POTVIN & SCHOU

RE: Permit No. G-23182

Messrs. Potvin & Schou
Phillips Building
American Falls, Idaho

ATTENTION: Mr. L. R. Schou

Dear Mr. Schou:

We have your letter of October 30 enclosing depositions of Robert Schroeder and two witnesses, submitted in proof of completion of works and beneficial use on Permit No. G-23182.

We note that these depositions are dated October 30, 1954, but the published notice set October 20, 1954, as the date for making these proofs. The depositions should therefore be accompanied by your affidavit to the effect that your office was open on October 20, 1954, the date set for proof, that no protests were filed (if such is the case) and that the taking of the proof was postponed until October 30, 1954.

The affidavit of publication is an essential part of the proof and the Power County Press was instructed to send this to Mr. Schroeder. If he has not received it, we suggest he take the matter up with them at once.

Very truly yours,

BOISE, IDAHO

Permit No. G 23182

Proof of Application of Water to Beneficial Use

and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Robert Schroeder; Power County, Idaho; Farmer; American Falls, Idaho,

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-23182; October 29, 1952; October 29, 1952

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water is a well located approximately 100 feet south of the mid-point of the North boundary line of the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 1, Twp. 7 South, Range 30 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Depth of well is 167 feet; well is cased with 15 inch casing from surface down 10 feet, with 10 inch casing from the 90 foot level down 45 feet; depth to water is 76 feet; well is equipped with a deep well turbine pump and electric motor; discharge of pump is one c.f.s. determined by reference to number and size of nozzles and pressure; a sprinkler system with 58 nozzles 11/64" and 58 nozzles 3/32", pressure is 46 pounds per square inch.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used to irrigate 32 acres in Lot 4, Section 1, Twp. 7 South, Range 30 E.B.M. of which 16 acres was reclaimed desert land and 16 acres irrigated partially with water from another source, and 40 acres in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 1, Twp. 7 South, Range 30 E.B.M. of which 20 acres was reclaimed desert land and 20 acres partially irrigated with water from another source. All land is cultivated land.

23182

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. One cubic foot per second.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. One cubic foot per second of water was diverted by the works and used to irrigate the land in the latter part of June, 1953, and during the entire crop year of 1953 and 1954.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. 30 shares of Aberdeen-Springfield Canal Co. water have been applied to 16 acres in Lot 4, Section 1, Twp. 7 South, Range 30 E.B.M. and 12 shares of Aberdeen-Springfield Canal Co. water have been applied to the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 1, Twp. 7 South, Range 30 E.B.M. at all times mentioned above.

(Sign) Robert Schroeder

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in American Falls, County of Power,

Permit No. G 23182

Proof of Application of Water to Beneficial Use
Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Gordon C. Fannesbeck; 29 years; Power County, Idaho; farmer;
American Falls, Idaho.

Ques. 2. Are you acquainted with Robert Schroeder, the holder of Permit No. G 23182? How long have you known him and where does he reside?

Ans. Yes; four years; Power County, Idaho

Ques. 3. Have you read or heard read said Permit No. G 23182, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water is a well in SW $\frac{1}{4}$ of the NW $\frac{1}{4}$, Section 1, Twp. 7,
South, Range 30 E.B.M. Drilled, cased well with electric turbine
pump and Ames sprinkler system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. One cubic foot per second; one cubic foot per second

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. One cubic foot per second; estimated by reference to number and
size of nozzles and pressure.

23182

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used to irrigate 32 acres in Lot four (4) and 40 acres in SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ all in Section 1, TWP. 7 South, Range 30 E.B.M. Land irrigated is cultivated land.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land reclaimed was desert land of a sandy loam approximately 1.5 of 1 cubic foot of water is needed for its profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During the month of June, 1953, I witnessed approximately one cubic foot per second of water being used to irrigate the above-described lands. I also witnessed good crops harvested from the land in the fall of the same year.

(Signed) Gordon C. Fournestock

RE: Permits Nos. G-23182 and 19977

Power County Press
American Falls,
Idaho

Gentlemen:

We have checked the notices on Permits Nos. 19977 of Ben G. Kopp and Permit No. G-23182 of Robert Schroeder, appearing in your issue of September 16.

The notice on Permit No. 19977 seems to be correct but Permit No. G-23182 seems to be completely mixed up.

If you will check the printed notice, you will note that Paragraph 4 as printed contains a part of what is omitted from the very beginning, beginning with the fourth line in Paragraph 4 which should be the third line of the printed notice. But even at that, Paragraph 4 seems to be hopelessly confused.

This will require republication in four issues commencing with your next issue and the date for making proof will have to be advanced from October 20 to October 30.

Please send us a tear-sheet of the corrected notice and also be sure to send us a copy of the first publication containing same in order that we may check it.

Very truly yours,

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A.M., on the 20th day of October, 19 54, at American Falls, County of Power State of Idaho, before L. R. Schou, Notary Public, proof will be submitted of the completion of works for the diversion of one cubic ~~foot~~ per second of the waters of a well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1, Twp. 7 S., Rge. 30 E., B.M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-23182 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Robert Schroeder, American Falls, Idaho

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is one cubic ~~foot~~ per second.

3. The use to which said water has been applied is irrigation-agricultural purposes, and the amount applied to beneficial use is one cubic ~~foot~~ per second.

4. The place where said water is used is Lot four (4) and the Southwest one-quarter (SW $\frac{1}{4}$) of the Northwest one-quarter (NW $\frac{1}{4}$) of Section one (1), Township seven (7) South, Range thirty (30) E.B.M.

5. The date of priority which said user is prepared to establish is October ¹¹ 29, 1952.

MARK R. KULP

Re: Permit No. C-23182

Dear Sir:

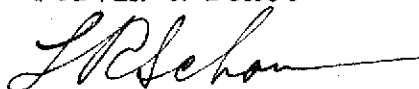

We represent Mr. Robert Schroeder, the holder of permit number G-23182.

On Mr. Schroeder's copy of the application for permit, item 13, appears the following information: "30 shares of Aberdeen-Springfield Canal Co. water stock on Lot 3 (NW $\frac{1}{4}$ SW $\frac{1}{4}$) and 12 shares on SW $\frac{1}{4}$ NW $\frac{1}{4}$ ". This information is in error and should read "Lot 4 (NW $\frac{1}{4}$ NW $\frac{1}{4}$)" instead of "Lot 3 (NW $\frac{1}{4}$ SW $\frac{1}{4}$)". Will you please check your records and correct them if they are in error? If this error cannot be corrected in this manner, please so inform us so that we may take whatever steps are necessary.

If the above error constitutes no serious difficulty, we will forward the notice of proof in the next few days.

Very truly yours,

POTVIN & SCHOU

American Falls, Idaho

Dear Sir:

We enclose herewith blank notice for proof of completion of works and application of water to beneficial use under your Permit No. G-23182. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than October 28, 1954.

Very truly yours,
MARK R. KULP

State Reclamation Engineer

Boise, Idaho

Dear Mr. Kulp:

The correct description of the land on which the water
is to be used is Lot 4 and SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 1, T. 7 S.,
R. 31 E.B.M.

These two parcels constitute the W $\frac{1}{2}$ NW $\frac{1}{4}$ of said section.

Yours truly,

Robert Schroeder

Robert Schroeder

*P.S. We believe this is correct now.
If not please advise me.*

23182

October 21, 1952

Mr. Robert Schroeder
American Falls
Idaho

Dear Mr. Schroeder:

We acknowledge return of your application for permit to appropriate water from a well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1, Township 7 South, Range 30 East, B.M.

We note that, although you describe the land in one place as the W $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 1, Question 12 and your sketch map show this in Lot 3 and the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of said section.

Our understanding is that Lot 3 is located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of the section, and that the W $\frac{1}{2}$ NW $\frac{1}{4}$ includes Lot 4 and the SE $\frac{1}{4}$ NW $\frac{1}{4}$.

Please check this and advise in order that there may be no error when your application is finally approved and permit issued.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Mr. Schroeder:

We are returning your application for permit for the following correction:

Under Question 12 of the application, in the tabulation, you have stated that the land to be irrigated is in the $W\frac{1}{2}$ NW $\frac{1}{4}$ of Section 1, while your sketch map shows the land in the $W\frac{1}{2}$ NE $\frac{1}{4}$ of Section 1.

Kindly show the correction of the land, and return the application to this department.

Very truly yours,

Dear Mr. Schroeder:

In reply to your letter of October 1, 1952, we enclose a form of application for permit to appropriate subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of completion of works and application of the water to beneficial use are required. The time required for making these proofs should be indicated under question 10.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mark Kulp:

Dear Sir,

I am going to drill a well (irrigation) and I wish to file for a water right at the present time.

The person I had in mind to help me with it said that he does not have any of the ~~new~~ new type application blanks so I am asking you to send me one. Also if you have 5 or 6 extras for this other fellow please send them. Thank You

Sincerely,
Robert Schroeder

NOTICE OF PROOF OF COMPLETION OF WORKS

APPLICATION F WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M., on the 20th day of October, 1954, at American Falls, County of Power State of Idaho, before L. R. Schou, Notary Public, proof will be submitted of the completion of works for the diversion of one cubic foot per second of the waters of a well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 1, Twp. 7 S., Rge 30 E., B. M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-23182 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Robert Schroeder, American Falls, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is one cubic foot per second.

3. The use to which said water has been applied is irrigation-agricultural purposes, and the amount applied to beneficial use is one cubic foot per second.

4. The place where said water is used is Lot four (4) and the Southwest one-quarter (SW $\frac{1}{4}$) of the Northwest one-quarter (NW $\frac{1}{4}$) of Section one (1), Township seven (7) South, Range thirty (30) E. B. M.

5. The date of priority which said user is prepared to establish is October 11, 1952.
