NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 2 o'clock P. M., on the 25th day of August, 1956, at Blackfoot, County of Bingham, State of Idaho, before J. H. Andersen a Notary Public, proof will be submitted of the completion of works for the diversion of .8 cubic feet per second of the waters of subterranean water of Idaho and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G23075 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address

of the person or corporation holding said permit are Thomas A. Smith, Blackfoot, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit is .8 cubic feet per second.

3. The use to which said water has been applied is Irrigation purposes, and the amount applied to beneficial use is .8 cubic feet per second.

4. The place where said water is used is Northeast quarter of North-west quarter of Section 9, township 4 South, Range 33 East Boise Meridian, point of diversion NE 1/4 NW 1/4, Section 9, Township 4 South, Range 33 East.

5. The date of priority which said user is prepared to establish is September 24, 1952.

Priority September 24, 1952

THIS IS TO CERTIFY that THOMAS B. SMITH
of Blackfoot, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated September 24, 1952; that Permit No. G-23075
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
.7 second feet, was issued thereunder on November 20, 1957, showing that said works
were completed on the 25th day of August, 1956; and that on the 25th
day of August, 1956, THOMAS B. SMITH

of Blackfoot, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean, for the purpose of Irrigation
, under Use Permit No. G-23075 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
10 of Licenses at page 6215, on the 20th day of November, 1957;
The right hereby confirmed dates from September 24, 1952;

The Point of Diversion is located
in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 9, Tp. 4 S., R. 33 E., B. M. County Bingham
That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed .7 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
4 S.	33 E.	9	NE $\frac{1}{4}$ NW $\frac{1}{4}$	40	40
			Total number of acres irrigated	- - -	40

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this
20th day of November, 1957.

OFFICE MEMORANDUM

November 6, 1957

Re: Permit No. G-23075
Thomas B. Smith

Mr. J. H. Anderson
Attorney At Law
Blackfoot, Idaho

Dear Mr. Anderson:

Reinspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-23075, Thomas B. Smith of Blackfoot, shows that his well is capable of conveying 35 miner's inches (.7 c.f.s.) of water for irrigation of 40 acres.

Upon receipt of the statutory fees of \$7.00, as mentioned in our letter of September 25, 1957, we will issue the Certificate of Completion of Works and the License for .7 cubic foot per second.

Very truly yours,

MARK R. KULP

Re: Permit # G-23075

Mr. Thomas B. Smith
Blackfoot, Idaho

Dear Mr. Smith:

Statutes requires a field inspection in connection with the proofs on Permit # G-23075 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on _____

_____.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

E. N. Humphrey.
E. N. Humphrey
Deputy

Note: I will be in Aberdeen about noon and try to contact you by phone to see if we can make a re-check at that time.

October 10, 1957

Re: Permit No. 23075

Mr. Thomas B. Smith
Blackfoot, Idaho

Dear Mr. Smith:

In reply to your letter of October 4th regarding inspection on Permit No. G-23075, will say that it is difficult to believe that the engineer who made the inspection made a mistake, but will be glad to check into the matter further before issuance of License or anything further is done regarding the above numbered permit.

We find quite frequently and almost universally that operators of sprinkler systems do not use any where near as much water as they think they do.

I will contact you some time when I am passing through Blackfoot or will advise you by letter in advance when I am again working in that area.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

OCT 7 1957
Department of Reclamation

Blackfoot, Idaho
Oct 4, 1957

Department of Reclamation
State Of Idaho
Mark R. Kulp State Reclamation Engineer
Boise, Idaho

Dear Sir:

Your engineer must have inspected the wrong place for permit # G-23075. I would like to have you reinspect this as I'm sure the permit should be for at least 40 inches of water. We have been watering almost 80 acres from this well with 2 one fourth mile long aluminum sprinkler lines.

The firm that installed the pump and system tells me that it takes 20 inches of water to operate one line, and we are operating two lines.

We have harvested three fine crops of potatoes and grain from this 80 acres and this would have been impossible with only 18 inches of water.

Sincerely yours

T. B. Smith

Re: Permit No. G-23075
Thomas B. Smith

Mr. J. H. Anderson
Attorney At Law
Blackfoot, Idaho

Dear Mr. Anderson:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-23075, Thomas B. Smith, Blackfoot, Idaho, shows that his well is capable of conveying 18 miner's inches (.36 c.f.s.) for irrigation of 40 acres. This permit is now entitled to a Certificate of Completion of Works and a License and Certificate of Water Right.

Upon receipt of the statutory fees, total of \$7.00, we will issue to Mr. Smith, the Certificate of Completion of Works (for which the fee is five dollars) and the License (two dollars) confirming the right with priority of September 24, 1952, to his use of .36 second foot of subterranean water with the point of diversion in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 9, for irrigation of 40 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 9, Township 4 South, Range 33 East, B.M.

If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well, 155 feet deep, diameter 16 inches, forty feet to water, Layne-Bowler pump,
35 HP electric motor. eighty inches or 1.30 second feet. Six inch pipe buried
along entire south side, with risers to which springling 4-inch pipe lines are
attached with rainbird sprinklers attached on risers at intervals of 40 feet.
Risers on main line 60 feet apart. Line will support 2 $\frac{1}{2}$ sprinkling lines and
pump and motor will supply sufficient water for said 2 $\frac{1}{2}$ lines 1320 feet long. 6-inch nozs.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, NE $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 9, Township 4 South Range 33 East B.M.
forty acres irrigated. 40 acres of said subdivision have been irrigated for two
years. (1955, 1956). 15 acres of wheat about 25 acres of potatoes. Land has been
cleared and plowed for two seasons.

G 23075

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. one miner's inch per acre, or for the total .8 second feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Entire forty acres irrigated every ten days between May 15 and August 15th of the years 1955 and 1956, for grain, and between the first day of June and the 30 day of September for 1955, and 1956, for potatoes, (still irrigating potatoes every ten days 1956), water grain land after harvest of grain for fall plowing.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. NONE

Permit No. G23075.....

Proof of Application of Water to Beneficial Use
Deposition of Witness
and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Robert G. Sasser Pingree, Idaho, Farming, , Pingree, Idaho.

Ques. 2. Are you acquainted with Thomas B. Smith, the holder of Permit No. G23075? How long have you known him and where does he reside?

Ans. Yes. I have known him for more than five years. He resides at Blackfoot, Idaho.

Ques. 3. Have you read or heard read said Permit No. G23075, and are you familiar with its provisions and conditions?

Ans. Yes. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well, 16 Inch Diameter 150 feet deep, located on SW corner of forty acres described and NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 9, Township 4 South, Range 33 E.B.M. Well equipped Layne & Bowler Pump and 35 HP electric Motor, Steel 6-inch pipe underground on entire South side of land, attached to well pump and motor and lateral pipes 4-inch are attached to risers in main pipe and extend accross entire tract for sprinkling land.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 1.30 second feet.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 80 miner's inches, estimated from guarranteed flow of capacity of pump and motor over a sustained period of 12 hours. I farmed the land or did the farming work so far as the irrigation of the land was concerned for two seasons.

N 23075

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation, on the NE¹/₄ NW¹/₄ of Section 9, T. 4 S. R. 33 E. B. M. Forty acres irrigated, every week during irrigation season from May to September. Land planted to wheat and potatoes. Crop of wheat and Potatoes each year in 1955 and 1956.

Land cleared, plowed and in places leveled, and cultivated to crops.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is sandy loam or lava ash. One miner's inch of water per acre is required and has been used for its profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No. _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. From May to September, once a week, in years 1955 and 1956, forty to fifty miner's inches.

(Signed) Robert L. Shaver

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Blackfoot, County of Bingham, State of Idaho, on this 25th day of August, 1956, A. Deposition of Witness**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Thomas Wolfe, Blackfoot, Idaho, Salesman, Blackfoot, Idaho

Ques. 2. Are you acquainted with Thomas B. Smith, the holder of Permit No. G23075? How long have you known him and where does he reside? Yes. over five years, He resides at Blackfoot, Idaho.

Ans. Yes, over five years, He resides at Blackfoot, Idaho.

Ques. 3. Have you read or heard read said Permit No. G23075, and are you familiar with its provisions and conditions?

Ans. Yes. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well, SW corner of NE 1/4 NW 1/4 Sec. 9, T. 4 S. R. 33 E. B.M. Layne & Bowler pump 35 HP, Electric Motor. Main underground steel 6-Inch pipe along South side from well. equipped with risers at intervals for attachment of lateral pipes and and sprinklers extending to north to north boundry of property.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. about 2 second feet, one second foot.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. about fifty inches, based on capacity of motor and pump and sustained flow at about half capacity, over a period of 12 hours. easily irrigates forty acres of ground every seven days.

J 23075

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. On NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 9, T. 4 S. R. 33 E. B. M. 40 acres irrigated for two seasons, 1955 and 1956. in above legal subdivision. all cultivated to wheat and potatoes for two seasons. Sprinkling system for irrigation as above mentioned, land cleared and cultivated.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Lava Ash or sandy loam. Arid before reclamation, by claimant, One Minor's Inch per acre required for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No interest whatever.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. During irrigation seasons of 1955 and 1956 between May and September. crops developed to maturity by sprinkling. Lateral pipes are moved every few (12) hours so that entire land can be irrigated in seven days.

Dear Mr. Kulp:

I am handing you herewith in duplicate for amendment of Permit No. G23075 issued in name of Thomas B. Smith. The amendment may not be necessary as the only change is the location of the well which is in the SW corner of the forty instead of the NE Corner. When it came to sinking the Well the owner found that it was more practical to have the well in the SW corner and the underground pipe along the South side of the land, as shown by the accompanying maps which are in duplicate if necessary to substitute for the original maps.

I am also enclosing herewith application for making proof of beneficial use of water.

Yours very truly
