Dear Mr. Anderson:

Our field engineer's report on his inspection of completion of works and application of water to beneficial use under Permit No. G-23043 shows the well to be located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ (near south line) of Section 6, Township 2 South, Range 33 East, B.M. and that it is capable of conveying 200 miners' inches of water for irrigation of 29 $\frac{1}{4}$ acres. The record of the permit lists the point of diversion in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 6, therefore, it is necessary that the permit be amended. We have enclosed an application for amendment form for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totalling \$21.00, we will issue to New Frontier Farms, Inc., the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (sixteen dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of September 15, 1952, to the use of 4. second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 6, for irrigation of 29 $\frac{1}{4}$ acres in the N $\frac{1}{2}$ of Section 6, Township 2 South, Range 33 East, B.M.
