Mr. J. Blaine Anderson

Dear Mr. Anderson:

Our field engineer's report on his inspection of completion of works and application of water to beneficial use under Permit No. G-23042, Robert Reese, shows the well located in the northeast corner of the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 1, Township 2 South, Range 32 East, B.M. is capable of conveying 204 miners' inches (4.08 c.f.s.) of water for irrigation of 320 acres. The point of diversion is listed in the permit as being in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 1, therefore it is necessary that the permit be amended. We have enclosed an application for amendment to point of diversion form for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees, totalling \$21.00, we will issue to Robert Reese, the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (sixteen dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of September 15, 1952, to his use of 4.08 second feet of subterranean water, with the point of diversion in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 1, for irrigation of 320 acres in the S $\frac{1}{2}$ of Section 1, Township 2 South, Range 32 East, B.M.
