Dear Mr. Archibald:

This is in reply to your letter of January 22, 1970, regarding water rights for Rast Mountain View Farms Corp. If the description on your letter is right, all but one small 5 acre section is under water in American Falls Reservoir. I thought perhaps you may have meant the description to be 30 East, B.M., therefore, listed below are three wells in that area.

35-2247 - License issued to Edward Rast for 2.0 c.f.s. from a well in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, Section 16, with a priority of September 11, 1952.

35-2483 - License issued to Edward Rast for 2.0 c.f.s. for a well in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 16, with a priority of November 9, 1956.

35-2817 - Permit issued to Edward Rast for 3.2 c.f.s. for a well in the Center of the NE $\frac{1}{4}$, Section 16, T 7 S., R 30 E., B.M. with a priority of February 23, 1966.

This permit will be licensed as soon as our field exam is completed. Let us know if we can help your office further.

RE: Permit No. G-23037

Mr. Edward Rast
American Falls
Idaho

Dear Mr. Rast:

We now have on file the report of our field engineer on examination for completion of works and beneficial use on your Permit No. G-23037 which shows that your well in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 16, Township 7 South, Range 30 East, B.M. will deliver 100 inches or 2 second feet of water which has been used to irrigate 320 acres of land in the E $\frac{1}{2}$ Section 16.

However, since your original permit shows the point of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ instead of the NW $\frac{1}{4}$ SE $\frac{1}{4}$ the enclosed amendment should be completed and returned to this department for record.

A Certificate of Completion of works and license can, then be issued for 2 second feet of water upon receipt of the statutory fees amounting to \$5.00 for completion of works and \$16.00, or a total of \$21.00.

Re: G-23037 Edward Rast

Enclosed is the Notice of Proof of Completion of Works and application of Water to Beneficial use, as per your letter of April ~~11~~ 12th.

The water was used on the south quarter since Sept. 11, 1952, and will be applied to the north quarter this spring. Don't assume that it will be necessary to change the notice for that. The full 3.2 was applied to south quarter during the irrigation season, and Mr. Rast conceived the idea of using the water prior to and after the regular irrigation season to water his Fall Wheat. Thinks it will double his yield.

Believe you had best send me new blanks for notice and new order

should be able to establish a priority of Sept. 11, 1952, on the SE $\frac{1}{4}$

Re: Permit No. G-23037 Edward Rast

Mailed you notice and order for publication, yesterday.

I do not have the permit before me, but believe the notice is in error.

The original filing, I believe, was for 3.2 second feet for SE $\frac{1}{4}$ Sec. 16, Twp. 7, So., R. 30, E. B. M., and then an amendment was allowed to make the 3.2 available for the NE $\frac{1}{4}$ same section.

I filled in NE $\frac{1}{4}$ only in the notice.

What Mr. Rast desires is to prove ~~XXXXXXXX~~ up on ~~3.2 second feet~~ 3.2 second feet appurtenant to SE $\frac{1}{4}$ for the regular irrigation season; and have the 3.2 second feet made appurtenant to the NE $\frac{1}{4}$ outside of the regular irrigation season, so that he can use the water on the NE $\frac{1}{4}$ early in the spring and late Fall to irrigate his winter wheat.

Please correct the notice sent you before ordering publication, or return it to me for correction.

Edward Rast

of American Falls, Power County,

State of Idaho, being first duly sworn, upon his oath deposes and says:

He is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho

No. G 23037

Under the terms and conditions of said permit, construction work thereunder was required to be and proof of completion submitted completed by Sept. 16, 1954.

That he has heretofore performed the following work described under said permit.....

Drilled well about 300 feet north of center of SE $\frac{1}{4}$, Sec. 16, Twp. 7, So., R. 30, E. B. M., and installed a sprinkler system to water all of said quarter section, and raised crops on said land, beginning irrigation on June 1st, 1953, and continuing through the cropping seasons of 1952, 1953, and 1954; that in October, 1953, an extension line was run across the NE $\frac{1}{4}$ of Sec. 16, Twp. 7, So., Range 30, E. B.M., and the winter wheat was watered.

costing \$20,000.00

That he is unable to complete the remainder of the work within the required time, for the following reasons, to-wit: That he has found that the watering of the fall wheat on the said NE $\frac{1}{4}$ increases the yield considerably, and desires to use an extension line across said NE $\frac{1}{4}$ to water the winter wheat in the Fall and Spring after and before the water is used on the irrigated crops in the SE $\frac{1}{4}$. That he borrowed a portable line for watering the NE $\frac{1}{4}$ in the Fall of 1953; and desires to buy a permanent extension line for the NE $\frac{1}{4}$, and begin watering it in the spring and fall of 1956: This will cost an additional \$4,000.00 or thereabouts; That such additional line will be completed by May 1st, 1956.

Mr. W. C. Loofbourrow
Attorney At Law

Dear Mr. Loofbourrow:

Reference is made to your letter of October 26, 1955, in regard to Permit No. 23037 in the name of Edward Rast.

Our records show that although Notice was published that proof of Completion of Works and Beneficial Use will be made July 30, 1954, before L. R. Schou, Notary Public, the proofs were never made or at least they were never transmitted to this Department.

For your further information we will state that this Permit is for 160 inches of water for use on 160 acres in the SE $\frac{1}{4}$, Section 16, Township 7 South, Range 30 East, B. M.

If Mr. Rast wishes to include an additional 160 acres in the NE $\frac{1}{4}$ of this Section the Application may be amended to include this additional acreage but the amount will still only be 160 inches.

Technically speaking this Permit is actually subject to cancellation as these proofs were due on or before September 16, 1954, however, he may apply for an Extension of Time and make the proofs later on, but this should be taken care of at once.

We enclose a Form of Application to amend the land list to include the additional acreage and we also enclose a form of Application for Extension of Time for making proof of Completion of Works and Beneficial Use.

Sir:

Re: Permit G - 23037
Edward Rast

SE $\frac{1}{4}$ 16-7S-30 E

Mr. Rast is in the office, now, and desires to have this permit amended to cover all of the NE $\frac{1}{2}$ of Said Sec. 16.

He also seems somewhat hazy as to whether or not he has made proof of water to beneficial use. He says notice of hearing was run in the local paper, but he did not appear before a Notary Public with his witnesses to submit proof.

He says the FHA is doubtful as to whether or not he would be permitted to use water on the whole $\frac{1}{2}$ half section without his permit covered it.

Will you please advise what the present status of his water proof is and what is necessary to complete it. And if necessary, what should be done to establish his right to use excess water on the NE $\frac{1}{4}$ of said section.

His idea is, that in the Fall after seeding, he can use water on his wheat in the NE $\frac{1}{4}$, and also in the spring about May to give the wheat a good start.

Yours truly,

W. C. Loofbourrow

ATTENTION: Mr. L. R. Schou

Dear Mr. Schou:

We acknowledge receipt of duplicate notice for proof of Beneficial Use on Permit No. G-23037 of Edward Rast.

However, this permit calls for proof of Completion of Works and Beneficial Use both to be made at the same time and we assume that Mr. Rast is prepared to make both proofs at this time.

If so the notice should be made on form 36 enclosed herewith.

July 16th hardly gives time for four weeks publication and we suggest that the date be set about a week later.

Dear Mr. Potvin:

Reference is made to your letter of March 11th, requesting a certified copy of Permit No. G-23037 in the name of Ed Rast.

It is not our usual custom to furnish these copies until receipt of the statutory fee, but in your case we made the copy and sent you by return mail, March 12th, advising you that the fee amounted to \$1.50.

Thinking you had over-looked the matter we have written you twice since, but to date have not received the fee which leaves us in a rather bad position so far as our book records are concerned.

We would appreciate your giving the matter your prompt attention.

RE: Permit No. G-23037

Mr. Edward Rest
American Falls

Dear Mr. Rest:

We enclose Permit No. G-23037 which we have corrected in accordance with your letter of September 24, 1952, and direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

You will note that we have allowed two years for making proofs of completion of works and beneficial use, which is the minimum required by statute, although these proofs may be made at any earlier date that you are prepared to make them.

Your check which accompanied this application was for \$6.50, which was the correct amount for the 320 inches originally applied for, and since departmental receipt No. 24867, enclosed, for that amount has already gone through the hands of the State Treasurer, it will be difficult at this time to obtain refund of the 75 cents difference in the fee. We will, however, hold this additional 75 cents to your credit to be applied on the certificate and license fees when you make your proofs.

RE: Application No. G-30799

Mr. Edward Rast
American Falls
Idaho

Dear Mr. Rast:

Your application for permit to appropriate subterranean water calls for 320 inches of water for the irrigation of the SE $\frac{1}{4}$ of Section 16, or only 160 acres.

The maximum allowed by statute for irrigation is one inch per acre, so the application can only be approved for 160 inches unless you wish to include more land in the application.

We also note what appears to be a typographical error in Question 14 which describes the land as being located in the SE $\frac{1}{4}$ of Section 16, Township 7 South, Range 29 East, B.M., whereas the point of diversion is in Section 16, Township 7 South, Range 30 East, B.M., and the plat also shows it in Range 30 East, B.M.; so we assume it is merely a typographical error in the land description, and we can change it accordingly.

Dear Mr. Rast:

In reply to your letter of August 12th, we enclose a form of application for permit to appropriate underground water, together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved it will be signed by the proper State officials and returned to you as a use permit, under which you may proceed with the construction of the work described in the application.

In order to complete the water right, proofs of completion of works and application of the water to beneficial use are required. The time required for making these proofs should be indicated under Question 10 of the application.
