Re: Permit No. G-23033
Abbie Doll Newcomb

Mr. Harley M. McDowell
P. O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

We enclose the following:

Application for Amendment to Permit No. G-23033 as approved by the Acting State Reclamation Engineer and recorded in the Department of Reclamation in Book 82 of Permits at Page 23033 amending the point of diversion as described on record to read as follows: "NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 8, Township 2 South, Range 33 East, B.M." This amendment should now be attached to the original permit to which it refers and to which it becomes a part.

Certificate of Completion of Works and the License and Certificate of Water Right issued under Permit No. G-23033 confirming the right with priority of September 5, 1952, to the use of 2.22 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 8, for irrigation of 160 acres in the NW $\frac{1}{4}$ of Section 8, Township 2 South, Range 33 East, B.M.

Departmental receipt #G-3350 for \$13.00, issued as receipt of the five dollar fee for the Certificate of Completion of Works and eight dollars for the license fee.

Very truly yours,

E. N. HUMPHREY

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit Nos. G-23033 and G-24642

Mr. G. T. Newcomb
124 Blue Lakes South
Twin Falls, Idaho

Dear Mr. Newcomb:

Your idea of taking all the water on one permit would be okay except that it is too small an amount being only 3.2 cubic feet per second and there is no provision in the law to permit increasing the amount of water on a permit.

You will have to prove up on the other permit also if you want a license on all the water for the sprinkler system.

If you want to divide the water equally between the two permits, 111 inches can be given on each.

If you want 160 inches on this one, 62 inches will be given on G-24642 after proofs have been made.

As soon as you advise us regarding this, we will turn in for the processing.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. G-23033

Mrs. Abbie Dell Newcomb
124 Blue Lakes South
Twin Falls, Idaho

Dear Mrs. Newcomb:

We acknowledge receipt of the Depositions of yourself and two witnesses, also affidavit of publication in The Daily Bulletin, all submitted in proof of completion of works and beneficial use on Permit No. G-23033.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 a.m., on the 22nd day of July, 1957, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of the waters of subterranean source in NE $\frac{1}{4}$, Sec. 8, Twp. 2 S., Rge. 33E, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 23033 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Abbie Dell Newcomb, 124 Blue Lakes South, Twin Falls, Idaho.

Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The place where said water is used is NW $\frac{1}{4}$, Section 8, T2S — R33 E., B. M.

5. The date of priority which said user is prepared to establish is 9-5-52.

Attn: Blair W. Archibald

Dear Mr. Archibald:

This is reply to your letter of December 8th, requesting information regarding water rights appurtenant to NW $\frac{1}{4}$, Sec. 8, T. 2 S., R. 33 E., B. M., in connection with loan to Lawrence Lambert.

Our records disclose License 23033 was issued to Abbie Dell Newcomb for 2.22 c.f.s. for irrigation of NW $\frac{1}{4}$, Sec. 8, from a well in NW $\frac{1}{4}$, Sec. 8, with priority of September 5, 1952.

Permit No. G-24642 was issued to G. T. Newcomb for 3.2 c.f.s. for irrigation of NE $\frac{1}{4}$, Sec. 8, from the same well but was cancelled for failure to comply with requirements. If this water is being used a new permit could be issued.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Re: Permit No. G-23033
Abbie Dell Newcomb

Mr. Harley M. McDowell
P. O. Box 2161
Boise, Idaho

Dear Mr. McDowell:

Our field engineer's report on his inspection of the completion of works and application of water to beneficial use under the terms of Permit No. G-23033, Abbie Dell Newcomb, shows the well located in the SW corner of the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 8, Township 2 South, Range 33 East, B.M. and that it is capable of conveying 111 miners' inches (2.22 c.f.s.) of water for irrigation of 160 acres. The record of the permit lists the point of diversion in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 8, therefore, it is necessary that it be amended to correct the location. We have enclosed an application for amendment form for this purpose.

Upon receipt of the amendment, mentioned above, and the statutory fees totaling \$13.00, we will issue to Abbie Dell Newcomb the Certificate of Completion of Works (five dollars) and the License and Certificate of Water Right (eight dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of September 5, 1952, to the use of 2.22 second feet of subterranean water, with the point of diversion in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 8, for irrigation of 160 acres in the NW $\frac{1}{4}$ of Section 8, Township 2 South, Range 33 East, B.M.

Very truly yours,

MARK R. KULP

BOISE, IDAHO
REPORT OF ENGINEER

Permit No. G-23033.....

This proof is for Completion of Works & Beneficial Use In Water District No.....

1. Name of applicant... Abbie Dell Newcomb.....
2. Source of water supply: ... Subterranean flow from a well.....
3. Location of point of diversion: Is in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section..... 8
T..... 2 S..... R. 33 E., B.M..... County of..... Bingham.....
4. Describe works as they exist, giving dimensions and capacities of same: Well = 18" x 235'
h = 200 hp. U.S. Motom. Payne Bowler Turbine
34320. 10" delivery To South into East-West
Main Line. No protection. $\frac{3}{16}$ " single nozzles
30' between nozzles = 44 pr. lateral.
h = 171' by U.S.G.S. in Sept 1927
5. Water is used for: Irrigation.....
6. State whether or not water has been turned into works of diversion: yes.
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NW $\frac{1}{4}$ of Sec. 8., Twp. 2 S., R. 33 E., B.M.

This same system irrigates the North East quarter of Section 8 also.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?.....

Remarks:.....

H. T. Newcomb along on inspection.

Thru for another permit also. See G-24642.

This examination was made on the 9 day of April, 1958

(Signed)

E. M. Humphrey

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Re: Permit Nos. G-23033 and G-24642

Mr. G. T. Newcomb
124 Blue Lakes South
Twin Falls, Idaho

Dear Mr. Newcomb:

Your idea of taking all the water on one permit would be okay except that it is too small an amount being only 3.2 cubic feet per second and there is no provision in the law to permit increasing the amount of water on a permit.

You will have to prove up on the other permit also if you want a license on all the water for the sprinkler system.

If you want to divide the water equally between the two permits, 111 inches can be given on each.

If you want 160 inches on this one, 62 inches will be given on G-24642 after proofs have been made.

As soon as you advise us regarding this, we will turn in for the processing.

Very truly yours,

MARK R. KULP

Dear Mr. Humphrey:

Reference: Permit #G-23033 and #G-24642

Probably we should divide the water equally between the two quarters. Couldn't we, however, modify G-23033 to cover both quarters and the well and let G-24642 go by the wayside or withdraw it?

If not, please advise my next move in proving up on G-24642.

Thanks.

RE: Permit Nos. G-23033 & G-24642

Mr. G. T. Newcomb
124 Blue Lakes South
Twin Falls, Idaho

Dear Mr. Newcomb:

After returning to the office I checked with the U. S. Geological Survey office and learned that the depth to water had been measured at 171 feet in your well. By allowing a four foot drawn down and calculating the delivery against a sixty pound head, which is necessary for good sprinkler operation the pump will deliver 222 inches.

Regarding the Permit for the North East Quarter, it is in your name and is due January 9, 1959. Proofs have not been made though it appears you are ready and could make them right away.

In as much as the well is for the whole North half of the section do you wish the water divided evenly between the two quarters? or do you want the full 3.2 cubic feet per second on this License and the balance on G-24642?

Please let us know right away so that this one may be processed.

Very truly yours,

MARK R. KULP

Mrs. Abbie Dell Newcomb
124 Blue Lakes South
Twin Falls, Idaho

Dear Mrs. Newcomb:

Inspection of your well has not been made and probably will not until irrigation season next year.

You will be notified at the time inspection is to be made.

It is not necessary that you have a license in order to make final proof on your land.

If you are ready to make final proofs on your land entry, I suggest you get in touch with the U. S. Land Office here in Boise, and they will advise you regarding procedure.

Reference: Permit No. G-23033

Attn: Edna R. Rutledge

Dear Miss Rutledge:

Reference is made to your letter to us dated August 20, 1957, stating that you were in receipt of our deposition and affidavit regarding the proof of completion of works and of beneficial use on Permit No. G-23033.

It has now been several weeks and I am wondering if your final examination has been made. We've been wondering the last three or four months if we would be notified to make contact with your engineer or if he was going ahead and make his own examination. Apparently, as this much time has lapsed, he has gone ahead without our assistance.

We are very anxious to follow up on this as we want to process our deed as soon as possible. As you know, further improvements on this property or further expenditure may require some financing. We cannot get any financial help in this present state, but have to wait until the deed is available. Your early answer will be appreciated.

Thanks.

Very truly yours,

Abbie Dell Newcomb

Mrs. Abbie Dell Newcomb
124 Blue Lakes South
Twin Falls, Idaho

Dear Mrs. Newcomb:

We acknowledge receipt of the Depositions of yourself and two witnesses, also affidavit of publication in The Daily Bulletin, all submitted in proof of completion of works and beneficial use on Permit No. G-23033.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Permit No. G-23033

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. My name is Abbie Dell Newcomb; residence, 2070 Addison East, Twin Falls, Ida; occupation, housewife; postoffice address, 124 Blue Lakes South, Twin Falls, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Individual.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. The number of my permit is G-23033; date, 9/9/52; Date of priority, 9/5/52.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source, Drilled well, NE¹/₄ NW¹/₄, Sec. 8, T 2 S - R 33 E., B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Works consist of well to depth of 260 ft., 18" hole, cased 40'; 200 h.p. pump & motor. The well will deliver 2200 gal. per minute. Applicable to NW¹/₄, Section 8, I have 660 ft. of 6" aluminum main line, 660 ft. 10" aluminum mainline, 1320 ft. of 8" aluminum mainline. I have four portable aluminum laterals 4" in diameter with 33 heads on each one which will deliver 6½ gal./minute each. The system operates at 50 lb. pressure and I have seen water measured so I am sure it is delivering this much.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation. Entire 160 acres is irrigated. No natural meadow. All improvements have been direct result of said use. Land irrigated is NW¹/₄, Section 8, T2S-R33E., B.M.

G. 23033

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. I need at least this much water to raise diversified crops as our grown here.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the same person who applied for this originally.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I started to work on this immediately when my desert entry was allowed in 1953 and water has been diverted onto the whole 160 acres.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other water appurtenant to this land; however, from this same well my husband irrigates the NE¹/₄, Section 8 under Permit G24642. This development was started in 1953.

Permit No. G-23033

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Edith D. Shillington; age, 41, residence, Rupert, Idaho; occupation, housewife; postoffice address, Box 201, Rupert, Idaho.

Ques. 2. Are you acquainted with Abbie Dell Newcomb, the holder of Permit No. G-23033? How long have you known him and where does he reside?

Ans. I have known her 20 years and know that she now resides at 2070 Addison East, Twin Falls, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-23033, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water is a drilled well. Pt. of Diversion NE 1/4 NW 1/4, Sec. 8, T2S-R33E., B.M. Works are drilled well, pumps and motor (200 h.p.), Sprinkler system including mainline and portable aluminum laterals. There are 4 portable laterals, each one having 33 heads.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate said works will convey 250 miner's inches. I have seen this amount so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen the pump deliver 250 miner's inches of water. This is estimated from seeing water measured in the past.

N. 23033

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for the irrigation of the NW 1/4, Section 8, T2S-R33E, B.M.
No natural meadow. All improvements are a direct result of said irrigation
development.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is light silt loam. I would say the amount of water being used now is necessary for proper cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have visited this land several times starting in 1953 and have been acquainted with its development over that period of time.

(Signed)

Edith Shillington

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Boise, County of Ada, State of Idaho, on this 22 day of July, A. Proof of Application of Water to Beneficial Use

Deposition of Witness ^{and Completion of Works}

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. My name is Willard H. Shillington; age, 44; residence, Rupert, Idaho; occupation, farming; postoffice address, Box 201, Rupert, Idaho.

Ques. 2. Are you acquainted with Abbie Dell Newcomb, the holder of Permit No. G-23033? How long have you known him and where does he reside?

Ans. I have known her 10 years and know that she resides in Twin Falls, Idaho

Ques. 3. Have you read or heard read said Permit No. G-23033, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water is a drilled well in NE 1/4 NW 1/4, Sec. 85, T2S-R33E, B.M. Works are well drilled to 260 ft. with 40 ft. of casing. 200 h.p. pump and motor installed. Discharge, 2200 gal/minute. 2360 ft. of aluminum mainline graduating from 10" to 6 inches. 4 portable laterals 4" in diameter. Each lateral has 33 heads and will deliver 6 1/2 gal/minute.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I estimate the works will safely conduct to place of use 250 miner's inches and have seen this much conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 250 miner's inches. This was estimated from my past experience in seeing water measured.

J. 23033

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used for irrigation of entire 160 acres, NW¹/₄, Section 8, T 2 S - R 33 E., B.M.
There is no natural meadow and all improvements are a direct result of said use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is a sagemore silt loam. I would say the amount of water now being used is the minimum requirement.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the development of this land ever since it was started in 1953.

NOTICE OF PROOF OF COMPLETION OF WORKS AND APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10:00 a.m. on the 22nd day of July, 1957, at Boise, County of Ada, State of Idaho, before Harley M. McDowell, proof will be submitted of the completion of works for the diversion of 3.2 cubic feet per second of the waters of subterranean source in NE 1/4, Sec. 3, Twp. 2 S., Rge. 33 E, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. 23033 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Abbie Dell Newcomb, 124 Blue Lakes South, Twin Falls, Idaho.

Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 3.2 cubic feet per second.

4. The place where said water is used is NW 1/4, Section 3, T2S - R 33 E, B. M.

5. The date of priority which said user is prepared to establish is 9-5-52.

Boise, Idaho

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the

Daily Bulletin of Blackfoot, Idaho published in
the county in which the works are situated.

Abbie Bell Newcomb

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

23033

NOTICE OF PROOF OF COMPLETION OF WORKS
and
APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M., on the 22
day of July, 1957, at Boise, County of
Ada State of Idaho, before Harley M. McDowell
proof will be submitted of the completion of works for the diversion of 3.2
cubic feet per second of the waters of subterranean sources
and of the application to beneficial use of said water, in accordance with the
terms and conditions of Permit No. 23033 heretofore issued by the Department
of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation
holding said permit are Abbie Dell Newcomb, 124 Blue Lakes South, Twin Falls, Idaho

2. Said works of diversion will be fully completed on the date set for
such completion, and the amount of water which said works are capable of conveying
to the place of use, in accordance with the plans accompanying the application for
such permit, is 3.2 cubic feet per second.

3. The use to which said water has been applied is irrigation
purposes, and the amount applied to beneficial use is
3.2 cubic feet per second.

4. The place where said water is used is NW 1/4, Section 8, T 2 S - R 33 E., B.M.

5. The date of priority which said user is prepared to establish is
9/5/52.

RE: Permits Nos. G-23033 and G-23034

Mr. Harley M. McDowell
Idaho Building
Boise, Idaho

Dear Mr. McDowell:

We enclose Permits Nos. G-23033 and G-23034 in the names of Abbie Dell Newcomb and G. T. Newcomb, respectively, and direct their attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose two copies of each of these permits, one certified, to be used in connection with the desert entries filed by the applicants in the Idaho Land & Survey Office.

We also enclose departmental receipt No. 24855 for \$16.75 which includes \$12.75 filing fees and \$4.00 for the additional copies.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
