RE: Permit No. G-22880

Mr. W. A. Rowe
American Falls
Idaho

Dear Mr. Rowe:

We now have on file the report of our field engineer on examination for completion of works and beneficial use on your Permit No. G-22880, which shows that your two wells, one located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ and the other in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 35, Township 6 South, Range 30 East, B.M., will deliver 200 inches or 4.0 second feet of water, which has been used to irrigate 320 acres of land in the N $\frac{1}{2}$ Section 35.

However, since your permit originally described two wells located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ and NW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 35, Township 6 South, Range 30 East B.M. instead of the SW $\frac{1}{4}$ NE $\frac{1}{4}$ and SW $\frac{1}{4}$ NW $\frac{1}{4}$ we are enclosing a partially completed Application for Amendment to the Point of diversion which we will ask you to complete and return to this department for record.

A Certificate of Completion of Works and License, can then be issued for 4.0 second feet of water upon receipt of the statutory fees amounting to \$5.00 for completion of works and \$16.00 license fee or a total of \$21.00.

Dear Mr. Loofbourrow:

We acknowledge receipt of your letter of August 22 enclosing depositions of W. A. Rowe and two witnesses also affidavit of publication in the Power County Press, which completes proof of completion of works and beneficial use on Permit No. G-22880.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made but our field engineer will try and contact Mr. Rowe at the time he makes the examination so that arrangements may be made to show him over the grounds.

Meanwhile, we return the application for amendment to the points of diversion which has been previously recorded in this department.

Permit No.

Application for Extension of Time FOR COMPLETION OF WORKS

W.A. Rowe, of American Falls,

State of Idaho, being first duly sworn, upon his oath deposes and says:

He is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho No. G-22880

Under the terms and conditions of said permit, construction work thereunder was required to be completed by July 2, 1954

That he has heretofore performed the following work described under said permit:

One well has been drilled, equipped and put in service, but is not in the proper location to facilitate irrigation of my lands. I desire to drill two new wells in different locations and abandon my presently completed well.

I can irrigate 320 acres but in my original permit I am limited to 250 inches of water. With the two new wells I can irrigate my entire 320 acres and would like to know if my present permit, above numbered, can be amended to provide for 320 inches, costing \$ 25,000.00 to date, including well, pump and sprinkling system.

That he is unable to complete the remainder of the work within the required time, for the following reasons, to-wit:

I did not anticipate having to change my plans when I estimated that two years would be ample time in which to complete my project, but, for the reasons stated above, I cannot get the job done as I want it, within the required time.

WHEREFORE, He asks that the State Reclamation Engineer extend the time for the completion of works under said permit to July 2, 1957

Subscribed and sworn to before me this 26th day of June, 1954.

Dear Mr. Rowe:

In reply to your letter of June 23, 1952, we enclose a form of application for permit to appropriate subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of completion of works and application of the water to beneficial use are required. The time required for making these proofs should be indicated under Question 10.

Very truly yours,

MARK R. KULP
