State of Idaho

License and Certificate of Water Right

Water License No. G-22848

Amount 5.6 second feet

Water District No. _____

Priority June 17, 1952

THIS IS TO CERTIFY that **ELMER FUNK**

of **American Falls, Idaho**, made application for a permit to appropriate the public waters of the State of Idaho, dated **June 17**, 19 **52**; that Permit No. **G-22848** was issued under said application; that Certificate of Completion of works, with a carrying capacity of **5.6 second feet**, was issued thereunder on **June 16**, 19 **55**, showing that said works were completed on the **30th** day of **August**, 19 **54**; and that on the **30th** day of **August**, 19 **54**,

ELMER FUNK

of **American Falls**, State of **Idaho**, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of **two wells**

~~located~~ (subterranean flow), for the purpose of **Irrigation**

, under Use Permit No. **G-22848** of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume

9 of Licenses at page **5509**, on the **16th** day of **June**, 19 **55**;

The right hereby confirmed dates from **June 17**, 19 **52**;

The Point of Diversion ^{are} located in the center of the **NE $\frac{1}{4}$** and center of the **NW $\frac{1}{4}$**

~~of the~~ Sec. **13**, Tp. **6 S.**, R. **30 E.**, B. M. Bingham County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed **5.6** cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G-30592
Permit No. G- 22848
District No.

1. Name of Applicant: **ELMER FUNK**

Postoffice address: **American Falls** County: **Power** State: **Idaho**

2. Quantity of water claimed:

(a) Rate of withdrawal in cubic feet per second. **6.73** or Idaho
Miners' inches **336.54** or gallons per minute.

(b) Annual withdrawal in acre feet per annum

3. Source of water supply: **Subterranean flow from a well**

center of the NE $\frac{1}{4}$ and center of the NW $\frac{1}{4}$
4. Location of point of diversion or well is in the / ~~foot of the~~ of Section **13**
Twp. **6 S.** , Rge. **30 E.** , B. M., County of **Bingham**

5. Water is to be used for: **Irrigation**

6. If for municipal, industrial or recreational purposes, give:

(a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
Rge. , B. M.

(b) Waste water or sewage effluent is to be returned to
at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B. M.

7. Kind of works: **Wells, pumps and ditches**

8. Estimated cost of works: **\$ 38,000.00**

9. (a) Is reservoir to be used? **No**

(b) Capacity of reservoir:

10. The time required for the completion of such work and complete application of the water to the proposed use is **Five (5)** years.

11. If applicant is a corporation, give:

I. (a) Date and place of incorporation:

(b) Amount of capital stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

II. The financial resources of the applicant are (a) Cash on hand: \$

(b) Treasury stock:

(c) Bonds to be issued:

(d) Other resources:

12. The land to be irrigated is described in the following tabulation:

13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: **None**

(a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.

(b) (cubic feet per second, inches or gallons per minute) is for new lands.

BE IT KNOWN THAT The undersigned hereby makes appli cation for permit to appropriate the public waters of the State of Idaho as herein set forth.

Applicant.

Agent:

Returned to applicant for correction:

Corrected application received:

The number of this permit is **G-22848**

Recorded in Book 81 Page 22848 Approved June 23, 1952

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ _____ to be filed on or before _____

Work to begin on or before **August 23, 1952** and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One-fifth of the work above specified to be completed on or before **December 23, 1954**

The whole of said work to be completed and beneficial use of water appropriated in accordance herewith, to be made on or before **June 23, 1957**

Witness my hand this 23rd day of June, 1952

MARK R. KULP
State Reclamation Engineer.

APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. G-22848 Comes now Elmer Funk, and represents to the State Reclamation Engineer of the State of Idaho. That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-22848, and that the list of lands to be irrigated, as described in said permit, be changed to read as follows: The original permit issued for the north half of Section 13 Township 6 S 30 E B M in Bingham County Idaho, to be amended to include the N Section 14 in Township 6 South 30 E. B.M., making a total of 500 acres. That an additional amount of water is not asked for, and that the rights of others will not be adversely affected. Signed at Aberdeen Idaho, this 27 day of July, 1954. ELMER FUNK Date of receipt at Office of Department of Reclamation July 28, 1954. APPROVAL OF STATE RECLAMATION ENGINEER I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. G-22848. This approval constitutes a part of the permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby. MARK R. KULP State Reclamation Engineer							

Permit No. G-22848
CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that ELMER FUNK of American Falls, County of Power, and State of Idaho, the holder of Permit No. G-22848, issued upon Application No. G-30592 bearing date of priority of June 17, 1952, authorizing the diversion of 6.73 second feet of the waters of a well (subterranean flow) County of Bingham, State of Idaho, for irrigation purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 5.6 second feet of the waters of two wells; that the points of diversion of said waters are in the center of the NE $\frac{1}{4}$ and the center of the NW $\frac{1}{4}$ of Section 13, Township 6 South, Range 30 East, B.M. and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: N $\frac{1}{2}$ Section 13 and NE $\frac{1}{4}$ Section 14, Township 6 South, Range 30 East, B.M.

Witness my hand this 16th day of June, A.D., 1955.

John W. Gray, Fieldman
Federal Land Bank
188 West Judicial
Blackfoot, Idaho

Dear Mr. Gray:

Water License No. G-22848, issued to Elmer Funk shows 5.6 c.f.s. priority June 17, 1952, from two wells one each in center NE $\frac{1}{4}$ and center NW $\frac{1}{4}$, Sec. 13, for irrigation of 496 acres in NE $\frac{1}{4}$, Sec. 14 and N $\frac{1}{2}$, Sec. 13, T. 6 S., R. 30 E.

Water License No. G-25552, issued to Meryl E. Fenstermaker shows 2.8 c.f.s., priority March 7, 1955, from well in center NW $\frac{1}{4}$, Sec. 26 for irrigation of 160 acres in NW $\frac{1}{4}$, Sec. 26, T. 6 S., R. 30 E.

Water License No. G-27132, issued to M. E. Fenstermaker, shows 2.42 c.f.s., priority November 12, 1957, from well in SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 27, for irrigation of 160 acres in NE $\frac{1}{4}$, Sec. 27, T. 6 S., R. 30 E.

The wells under License No. G-22848 were directly connected to a common main line and the production of each well was not determined. Equal distribution of the water shows about .565 miners inches per acre. It is entirely possible that the present equipment delivers more water.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

MARK R. KULP, STATE RECLAMATION ENGINEER
BOISE

June 3, 1955

RE: Permit No. G-22848

Mr. Elmer Funk
American Falls
Idaho

Dear Mr. Funk:

The report of our Field Engineer on examination for Completion of Works and Beneficial Use on your Permit No. G-22848 shows that your wells in the center of the NE¹ and center of the NW¹ Section 13, Township 6 South, Range 30 East, B. M., will deliver 280 inches of water which has been used to irrigate 496 acres in the N¹/₂ of Section 13 and the NE¹/₂ Section 14 same Township and Range.

A Certificate of Completion of Works and License can therefore be issued for 280 inches or 5.6 second feet of water from these wells upon receipt of the statutory fees. These amount to \$5.00 for Certificate of Completion of Works and \$24.00 License fee. The latter being at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

Very truly yours,

MARK R. KULP

Permit No. G-22848

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Elmer Funk, American Falls, Idaho
2. Source of water supply: Subterranean from two wells.
3. Location of point of diversion: Is in the Center NE $\frac{1}{4}$ and center NW $\frac{1}{4}$ of Section 13
T. 6 S. R. 30 E. County of Bingham
4. Describe works as they exist, giving dimensions and capacities of same: This ^{is} a large sprinkler setup. There is a mile and a half of main line for 12 laterals each 1/4 mile long. Laterals are 4" portable aluminum pipe line with rainbird sprinkler heads, size 3/32 by 11/64. Average discharge pressure is approximately 30 lbs. West Well: is 260' deep by 18" diameter, cased 20' H=107'. Draw down is 3'. Protected by a wooden house with a concrete floor. U. S. Motor 150 hp. Serial No. 952809. Lane pump, serial No. 26188. East Well: is 127' deep by 16" diameter H=92', no draw down. Protected by wooden house with concrete floor. G. E. Motor 75 hp. Model 31 E 234 No serial No. (see below)
5. Water is used for: irrigation
6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

North Half Section 13;

NE $\frac{1}{4}$ Section 14;

Twp. 6 South, Range 30 East, B. M. See the map

#4 con't. Fairbanks Morse Pomona Pump No. PM 7803.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Crops are grain, hay and potatoes.

This examination was made on the 26th day of May, 19 55.

RE: Permit No. G-22848

Mr. Elmer Funk
American Falls
Idaho

Dear Mr. Funk:

We acknowledge receipt of your corrected deposition in proof of completion of works and beneficial use on Permit No. G-22848 together with affidavit of publication in the Aberdeen Times.

This completes the proof but before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

AFFIDAVIT OF PUBLICATION

STATE OF IDAHO
COUNTY OF BINGHAM

ROBERT M. HAMMES, being first duly sworn, on his oath states:

That he is the PUBLISHER of the ABERDEEN TIMES, a newspaper of general circulation in Bingham County, Idaho, published at Aberdeen, in said county. That said newspaper has been published in said County uninterruptedly and continuously for over seventy-eight consecutive weeks, prior to the first publication of the annexed Notice of Completion; and that said Notice was published as per clipping attached, in the regular and entire edition of said newspaper and not in any supplement thereof, in 4 consecutive issues, the date of the first publication being the 5 day of August, 1954, 19, and the last publication being the 26 day of August, 1954.

Subscribed and sworn to me this 30 day of August, 1954, Publisher

My commission expires 12-31-57 Notary Public Residing in Aberdeen, Idaho

NOTICE OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M., on the 30th day of August, 1954, at Aberdeen, County of Bingham, State of Idaho, before Calvin Moser, Notary Public, proof will be submitted of the completion of works for the diversion of 6.73 cubic feet per second of the waters of two wells in the center of the NE $\frac{1}{4}$ and in the center of the NW $\frac{1}{4}$, Section 13, Twp. 6 South, Range 30 East, B. M. and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G22848 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Elmer Funk, American Falls, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 6.73 cubic feet per second.

3. The use to which said water has been applied is irrigation purposes, and the amount applied to beneficial use is 6.73 cubic feet per second.

4. The place where said water is used is North Half Section 13, and Northeast Quarter Section 14, Twp. 6 South, Range 30 East B. M.

5. The date of priority which said user is prepared to establish is June 17, 1952.

MARK R. KULP,
State Reclamation Engineer.

Permit No. G 22 848

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Glen Zimmerman 21 Farmer Aberdeen Idaho Box 1021

Ques. 2. Are you acquainted with Elmer Funk, the holder of Permit No. G 22848 ? How long have you known him and where does he reside?

Ans. Have been acquainted with Mr. Funk about 8 years
and he resides on his farm S W of Aberdeen in Section 7 T 6 S -31 E
B M

Ques. 3. Have you read or heard read said Permit No. G 22 848, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Two drilled wells through underground steel pipe and
4" aluminum sprinkler linesx

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Have seen system operate practacally every day and deliveres
6 73 Cubic feet per minute

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Did not actually measure water delivered , but have observed
that it delivers enough water to supply 12 quarter mile laterals
Or 787 sprinklers .

22848

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Have seen water applied on three quarters through steel pipe line laid in N E $\frac{1}{4}$ N W $\frac{1}{4}$ in Section 13 T 6 S 30 East B M and N E $\frac{1}{4}$ in section 14 T 6 S 30 E B M

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Slightly rolling land and lava ash soil and needs three thousand gallons per minute to supply the lines uses on the system

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have observed as neighbor the system in operation

(Signed) Allen Zimmerman

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Aberdeen, County of Bingham, State of Idaho, on this 30 day of Aug, A. D. 19 54.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. June 13 1952

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Two wells located in the center of N E $\frac{1}{4}$ & N W $\frac{1}{4}$ Section 13
Township 6 South Range 30 East B M

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Well number 1 total depth 127' water stands at 97' casing is 16" diameter did produce 250 inches when first completed and was tested with orifice is pumped in main steelline operated 156 sprinklers or equivalent to 1127 gallons per minute at 50 pounds pressure
Well number 2 total depth 260 ft water stands at 107' casing 18" produces 300 inches water by orifice and now produces sufficient water for

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For sprinkling irrigation all cultivated 320 acres
installed sprinkling line through section 13 running east and west and a quarter mile into section 14 and irrigated a quarter section in section 14. Township 6 S range 30 E B M
The North half of section 13 and N E $\frac{1}{4}$ of 14 in T 6 south Range 30 East B M in Bingham County

22848

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. _____

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 6 73 cubic feet per second

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. _____

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. irrigated all above mentioned ground for two seasons with
sufficient water to produce crops

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None all water used on said land has come from two wells

RE: Permit No. G-22848

Mr. Elmer Funk
American Falls
Idaho

Dear Mr. Funk:

We return your deposition offered in proof of completion of works and beneficial use on Permit No. G-22848 in order that you may complete the answer to Question 1 and also under Question 6 give the legal description of the land where the water has been used.

The affidavit of publication is also a part of this proof and the Aberdeen Times was instructed to send it to you. If you have not received it, we suggest you take the matter up with them at once.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

BOISE, IDAHO

Permit No. G22848

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. William Lehman 47 Aberdeen Farmer Aberdeen Idaho

R F D

Ques. 2. Are you acquainted with Elmer Funk, the holder of Permit No. G22848? How long have you known him and where does he reside?

Ans. About since 1930 He resides S W of Aberdeen on his farm located in section 7 - T 6S 31 East B M

Ques. 3. Have you read or heard read said Permit No. G22848, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. From two wells located in section 13 1/4 R 30 E Twn 6so pumped into steel main line underground and into aluminum sprinkling lines

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 6 73 have observed many times that above system will supply above amount of water

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. have seen it operate 12 one quarter mile laterals 34 sprinklers to the line at 50 pounds n and 787 gallons per minute per sprinkler would amount to about 3210 gallons per minute

22848

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. All ground is cultivated no meadow land and main line has been installed underground with take offs for laterals 60 ft apart has twelve quarter mile laterals (four inch")

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Slightly rolling lava ash soil and requires 6.73 cubic Ft per second to successfully irrigate same

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Have observed the above operation the past three years

RE: Permit No. G-22848

Mr. Elmer Funk
American Falls
Idaho

Dear Mr. Funk:

We are in receipt of notice for completion of works and beneficial use proofs to be made August 30, 1954 on your Permit No. G-22848.

However, this notice claims 1000 cubic feet per second from two wells, whereas, the Permit is for 6.73 cubic feet per second.

The notice also states that the water is to be used in Sections 13 and 14, Township 6 South, Range 30 East B. ., whereas, the Permit describes the place of use as only the NE $\frac{1}{4}$ Section 13.

If there has been a change in the place of use, you may file an application for amendment to the land list on the Form enclosed, but 6.73 cubic feet per second is the maximum on which proof may be made under this permit.

If more water can be developed from the two wells, which are described as being located, one in the center of the NE $\frac{1}{4}$ and one in the center of the NW $\frac{1}{4}$ of Section 13, it will be necessary to file a new application for this additional amount.

We shall await your reply before sending the notice to the Aberdeen Times for publication.

Very truly yours,

Mark R. Kulp
State Reclamation Engineer

NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) June 21 1954

(P. O.) Aberdeen Idaho

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho

Dear Sir:

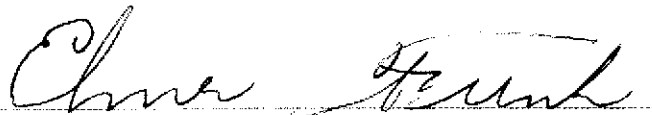

You are hereby authorized to have the attached notice published at my expense in the

Aberdeen Times

of Aberdeen Idaho

published in

the county in which the works are situated.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

RE: Permit No. G-22848

Mr. Calvin Moser
Aberdeen
Idaho

Dear Mr. Moser:

We have your letter of June 14 and note that Mr. Elmer Funk wishes to make completion of works and beneficial use proof on Permit No. G-22848.

Notice should be made in duplicate on form 36 enclosed setting the time and place and naming the Notary Public before whom the proofs are to be made. The time, of course, should be set sufficiently far ahead to allow for four weeks publication. Both copies of Form 36 to be returned to this department together with form 11 which is your authorization for us to have the notice published in the designated county newspaper at Permit Holder's expense.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you the necessary forms of deposition to be used in making the proofs.

Very truly yours,

MARK R. KULP

Dear Mr. Funk:

In reply to your request of June 11, 1952, we enclose two forms of application for permit to appropriate water from wells together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of completion of works and application of the water to beneficial use are required. The time required for making these proofs should be indicated under Question 10.
