Dear Mr. Anderson:

We acknowledge receipt of your letter of April 12, 1952, enclosing triplicate applications of Stuart Paul Johnson to appropriate 4.8 second feet of subterranean water accompanied by his check for \$8.25.

We note that the application is for 240 inches of water to be applied on 210 acres of land, or 35 acres in each of the 40 acre subdivisions described.

Since the statutory maximum for irrigation is one inch per acre, the application can only be approved for 210 inches if only 210 acres are to be irrigated. For that reason the application must be amended either to call for 210 inches or to show 240 acres to be irrigated and we shall await your advice before proceeding in the matter.
