Dear Mr. Dills:

Received your letter of November 12 which states that you have purchased the subject property from Willie Harder.

This permit was licensed in 1957 for 2.4 c.f.s. to Willie Harder. After license is issued under a permit no further recording is made in our permanent records, and additional transactions relating to this permit should be recorded in the County Records.

However, if granting of the loan you are seeking is dependent on entry of the ownership being found on records in this office you may send us an exact copy of the deed showing you as the new owner and we will record it in our permanent records.

Re: Permit No. G-22716

Mr. Willie Harder
Sterling
Idaho

Dear Mr. Harder:

Our field engineer's report on the inspection of the completion of construction work and application of water to beneficial use under the terms of Permit No. G-22716 shows that your well is capable of conveying 120 miner's inches (2.4 c.f.s.) of water for irrigation of 188 acres and that the point of diversion is in the center of the $W\frac{1}{2}SE\frac{1}{4}$ of Section 25, Township 5 South, Range 30 East, B.M. The record of the permit lists the point of diversion in the $NE\frac{1}{4}SE\frac{1}{4}$ of Section 25, therefore, it is necessary that it be amended. We enclose an application for amendment form for this purpose and ask that you complete and return it.

Upon receipt of the amendment, mentioned above, and the statutory fees, totaling \$17.00, we will issue to you the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (twelve dollars--based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of February 15, 1952, to your use of 2.4 second feet of subterranean water with the point of diversion in the center of the $W\frac{1}{2}SE\frac{1}{4}$ of Section 25, for irrigation of 188 acres in the $SE\frac{1}{4}$ and the $E\frac{1}{2}SW\frac{1}{4}$ of Section 25, Township 5 South, Range 30 East, B.M.

Dear Mr. Harder:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Aberdeen Times, all submitted in proof of completion of Works and Beneficial Use on Permit No. G-22716.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Dear Mr. Harder:

As mentioned in office letter addressed you on February 22, 1952, a filing for the amount of water included in your application requires publication once a week for 3 weeks before the application can be approved.

We enclose duplicate notice and request that you acknowledge service on the original, and return to this department together with Form 11, which is your authorization for us to have the notice published at your expense in the designated newspaper published in Bingham County. The duplicate is to be retained in your own files.

Very truly yours,

Dear Mr. Harder:

We acknowledge receipt of your application for permit to appropriate 32 second feet of subterranean water from wells, accompanied by your check for the \$12.75 filing fee.

Before the application can be filed, it will be necessary for you to indicate the location of the several wells to a 40 acre subdivision by checking same on the sketch map which we return herewith.

If, later on, you find it necessary to change the location of any of these wells, that can be done by an amendment on a form furnished by this department.

You, of course, understand that on filings of this size, a notice must be published once a week for 3 weeks before the application can be approved and permit issued.

The proper form of notice will be prepared and sent you when the matter of the location of the wells has been attended to.

Very truly yours,

MARK R. KULP

Dear Mr. Harder:

We have your letter of September 26, 1951, requesting 10 forms of application on 10 wells, for irrigation of 10 quarter sections of land.

Since separate applications should be filed for each separate project, we are sending you 10 forms, under separate cover, together with the pamphlet giving regulations and instructions in regard to filing same.

If these filings are made in connection with desert claims filed in the Bureau of Land Management, they require two copies of the water permit to accompany each desert claim, one of which must be certified. It has been our custom to furnish these copies, when the permit is approved at a cost of \$2.00, in addition to the regular filing fee, which is shown on the back of the applications.
