Re: Permit No. 22667

Mr. Wm. L. Anderson
Sterling, Idaho

Dear Mr. Anderson

Reference is made to your letter of August 6th, inquiring as to what is necessary in order to complete your water right under Permit No. 0-22667.

Your application stated that five years would be required within which to make proof of completion of works and beneficial use, and you will note that on the fourth page of the permit you have been allowed until March 27, 1957 for making these proofs.

However, they can be made at any earlier date, if the works have been completed, and the water completely applied to beneficial use. This requires publication once a week for four weeks in a county newspaper, at your expense, before the proofs are made.

The notice should be made in duplicate on Form 36 enclosed, setting time and place, and naming the Notary Public before whom the proofs are to be made. Both copies of Form 36 to be returned to this department, with Form 11, which is your authorization for us to have the notice published at your expense in the designated newspaper. We shall then send a copy of the notice to the newspaper, with instructions in regard to publishing.
