APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. G-22553

Comes now Thayne Gneiting and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. G-22553.

That the point of diversion is described in said permit as being located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 33, Township 1 South, Range 35 East, B. M.

That he now requests that the point of diversion be changed to a point located in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 33, Township 1 South, Range 35 East, B. M.

That his reasons for desiring to make such change are as follows: correct original Permit.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at 8 A.M., this 6 day of June, 1956.

RE: Permit No. G-22553

Mr. Thayne Gneiting
Route 1
Blackfoot, Idaho

Dear Mr. Gneiting:

We now have on file the report of our field engineer on examination for completion of works and beneficial use on Permit No. G-22553 which shows that your well in the NW¹NE¹ Section 33, Township 1 South, Range 35 East, B.M. will deliver 100 inches of water which has been used to irrigated 160 acres of land in the NE¹ Section 33.

However, as you will note from the above, our field engineer found your well to be located in the NW¹NE¹ Section 33, whereas, the original permit locates it in the SW¹NE¹ Section 33. An Application for Amendment to the Point of Diversion will have to be recorded in this department before a Certificate of Completion of Works and License can be issued.

Upon receipt of the partially completed Application and the statutory fees amounting to \$5.00 for completion of works and \$8.00 license fee, a Certificate of Completion of Works and License can be issued you, for 2 second feet of water.

Permit No. G-22553

Proof of Application of Water to Beneficial Use

Deposition of Witness ^{and Completion of Works}

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Albert Winkler, age 46, Route 1, Blackfoot, Idaho.
Farmer

Ques. 2. Are you acquainted with Thayne Gneiting, the holder of Permit No. G-22553? How long have you known him and where does he reside?

Ans. I have known him seven years and he resides at Route 1, Bingham County, Idaho

Ques. 3. Have you read or heard read said Permit No. G-22553, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean waters by deep well. Place of diversion: The SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 33, Township 1 South, Range 35 East of the Boise Meridian, Bingham County, Idaho. Water is conveyed by Sprinkler system.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 3.20 cubic feet per second or 160 miners inches.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I would estimate at least 160 inches of water is carried through the four lateral water lines for sprinkler purposes. I did not actually measure the water, but it does throw a good stream of water.

G-22553

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigating purposes and is used on all of the NE $\frac{1}{4}$ of Section 33, Township 1 South, Range 35 E.B.M., Bingham County, Idaho. All of the above land is cultivated and the owner has placed the following improvements upon the land: Domestic well, machine shed, 7 labor houses, corrals and two potato cellars and all of the above land is fenced.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Prior to the application of water, this land was all desert sagebrush land.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I rent 80 acres of the above described property on a yearly basis and the owner furnishes the water for irrigation purposes.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the water being used on this land during the past four years as I rented property directly adjacent thereto, and have witnessed the application of this water practically at all times during the irrigation season. I would estimate that at least 160 inches of water has been used in irrigating said land.

Proof of Application of Water to Beneficial Use
Deposition of Witness ^{and Completion of Works}

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Fred Whitney Manwaring, 32, Route 1, Blackfoot, Idaho
Farmer

Ques. 2. Are you acquainted with Thayne Gneiting, the holder of Permit No. G-22553? How long have you known him and where does he reside?

Ans. I have known him five years and he resides at Route 1, Blackfoot, Idaho

Ques. 3. Have you read or heard read said Permit No. G-22553, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. subterranean water by deep well. Place of diversion: SW $\frac{1}{4}$ of the NE $\frac{1}{4}$ of Section 33, Township 1 South, Range 35 E.B.M., Bingham County, Idaho, and water is conveyed by sprinkler syste.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I would estimate the works will safely conduct to place of use from 150-160 inches and that 150 to 160 inches has been so conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have made no actual measurement, but judging the water that our pumps deliver, I would estimate that the Gneiting pumps would deliver at least 150 to 160 inches.

G-22553

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for the purpose of irrigating row crops and is used on the NE $\frac{1}{4}$ of Section 33 Township 1 South, Range 35 E.B.E., Bingham County, Idaho. The land is cultivated, and the owner has placed the following improvements upon the land: large quonset, sprinkler system, large number of labor houses, a culinary well, fences, corrals, two large potato cellars.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land would require an inch an acre and the land is a very good lava ash lome, which prior to its being reclaimed was desert sagebrush land.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I own a farm adjacent to the above described property which I visit every two or three weeks and during such times I have seen the sprinkler system operated on the above lands. I would estimate that the sprinkler systems divert approximately one inch of water to the acre.

ATTENTION: Mr. R. Vern Kidwell

Dear Mr. Kidwell:

We acknowledge receipt of your letter of May 27 enclosing an assignment of Permit No. G-22553 from Stuart Paul Johnson and wife to Thayne Gneiting and requesting forms for making proofs of completion of works and beneficial use on said Permit.

The assignment enclosed describes the land included in this Permit as the NE $\frac{1}{4}$ Section 33 and the W $\frac{1}{2}$ NW $\frac{1}{4}$ Section 34, Township 1 South, Range 35 East, B.M. For your information will say that the W $\frac{1}{2}$ NW $\frac{1}{4}$ Section 34 is not included in this Permit but only the NE $\frac{1}{4}$ of Section 33.

We can record the assignment eliminating that portion upon receipt of the fifty cents fee for recording.

Thereafter, the present owner, Mr. Thayne Gneiting may apply to this department for an amendment to the land list on the Form enclosed, to include this additional 80 acres.

Before proofs of completion of works and beneficial use are made the statutes require publication of a notice once a week for four weeks in a county newspaper and this notice should be made in duplicate on form 36 enclosed, setting the time and place and naming the Notary Public before whom the proofs are to be made.

Both copies of form 36 to be returned to this department together with form 11 which is authorization for us to have the notice published at Permit Holder's expense in the designated county newspaper.

We shall then send a copy of the notice to the newspaper with instructions in regard to publishing and shall send you or Mr. Gneiting, whichever ever is requested, the forms of deposition to be executed by him and two witnesses in making these proofs.
