Idaho

Dear Mrs. Brown:

We now have on file the report of our field engineer on examination for completion of works and beneficial use on Permit No. G-22490.

This report shows that you have irrigated 115 acres in the S $\frac{1}{4}$ SW $\frac{1}{4}$ Section 22 and the E $\frac{1}{4}$ SW $\frac{1}{4}$ Section 27, Township 4 South, Range 33 East B.M. from your well in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 22, same township and range.

A Certificate of Completion of Works and License can, therefore, be issued for 115 inches or 2.3 second feet of water from said well. The statutory fee for Certificate of Completion of Works is \$5.00 and License fee \$8.00, the latter being at the rate of \$2.00 for each 40 acre subdivision in which the land is located.

If the License is to be issued in the name of Josephine Shelman Brown, it will be necessary for you to file an affidavit properly notarized stating that you are the same Josephine Shelman who made the original filing and that your name is now Josephine Shelman Brown.

Dear Mr. Garner:

In reply to your letter of March 5 in regard to Permits on the SW $\frac{1}{4}$ Section 22 and NE $\frac{1}{4}$ NW $\frac{1}{4}$ and SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 28, Township 4 South, Range 33 East B.M.

Permit No. G-22490 in the name of Josephine Shellman Brown for 3.2 second feet of water from a well in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 22, Township 4 South, Range 33 East B.M. filed November 29, 1951 for use on the S $\frac{1}{2}$ SW $\frac{1}{4}$ Section 22 and N $\frac{1}{2}$ NW $\frac{1}{4}$ Section 27, same township and range. Completion of works and beneficial use proofs were made on these permits January 20, 1954, and the issuance of a license is awaiting inspection by our field engineer.

We have no record of a permit for a well in Section 28 nor any in the name of Lane Shellman.

We do have Permit No. G-22393 in the name of James Eugene Shellman for 3.2 second feet of water from a well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 29, Township 4 South, Range 33 East B.M. filed September 11, 1951 for use on the W $\frac{1}{2}$ NE $\frac{1}{4}$ and E $\frac{1}{2}$ NW $\frac{1}{4}$ of said section 29. Proofs are due on the Permit September 28, 1956.

Very truly yours,

MARK E. KULP

Dear Mrs. Brown:

We acknowledge receipt of the depositions of yourself and two witnesses, also affidavit of publication in the Blackfoot Daily Bulletin all in proof of Completion of Works and Beneficial Use on Permit No. G-22490.

Before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact you at the time he makes the examination in order that you may arrange to show him over the ground.

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Josephine Brown, formerly Josephine Shelman, Blackfoot, Idaho, farming.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3 State number and date of permit, and date of priority you propose to establish under the permit.

Ans. No. G22490, dated December 3, 1951,; date of priority, December 3, 1951.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean water from well, situated SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 22, T 4 S, Range 33, EBM.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Pump, electric motor and main canal and laterals, capable of carrying at least one inch per acre. Depth of well, 34 feet; no casing needed; depth to water, 8 feet. Discharge of pump, 180 inches. Measured by test with water meter by Lane Shelman, former husband of applicant.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation on SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 22, 30 acres; SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 22, 35 acres; NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 27, 40 acres; NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 27, 37 acres, all in T 4 S, Range 33 EBM. Cultivated and fenced.

22490

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. The permit was issued to me as Josephine Shelman. Since that time I have married and my name is now Josephine Brown.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Pump, electric motor, main ditch and laterals in at least one inch per acre. 3.2 second feet has been used during the irrigating seasons of 1951, 1952 and 1953, on the four legal subdivisions mentioned in the permit.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. None

(Sign) Josephine Shelman Brown

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Blackfoot, County of Bingham, State of Idaho, on this 20th day of January, A. Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Bernard Orin Wamsley, 40 yrs, Blackfoot, Idaho, Caterpillar Operator.

Ques. 2. Are you acquainted with Josephine Brown, formerly Josephine Shelman, the holder of Permit No. G22490? How long have you known him and where does he reside?

Ans. Fifteen years. Resides at Blackfoot, Idaho.

Ques. 3. Have you read or heard read said Permit No. G22490, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Subterranean water from well, situated in SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 22, Township 4 S, Range 33, EBM. Main ditch across north border line and laterals running from said main ditch south to all parts of the land.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 3.8 second feet.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 3.8 second feet. I saw the water measured by Lane Shelman and from my experience in irrigating I judged that there was at least 180 inches of water flowing from the pump.

22490

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Sandy Loam; one inch per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. For the irrigation seasons of 1952 and 1953, pumped into the main canal and turned out through the laterals and spread over the land in at least one inch per acre.

Boise, Idaho

Dear Sir:

I am handing you herewith, the application of Josephine Shelman to appropriate sub-terranean waters of the State of Idaho through well, together with a copy of the application for certification when allowed.

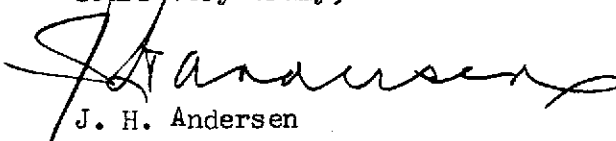

I am also enclosing Mrs. Shelman's check for \$6.75 which I believe is sufficient for the fee and also for certifying the copy. If not, kindly advise and I will remit the balance.

I have looked high and low for the permit for this well but don't seem to be able to find it.

Mr. Shelman died and the property has been decreed to his wife, Josephine Shelman, and she has made proof on the Desert-entry and now we have to have proof of the water rights.

The well has been in use for a couple of years and the land has all been irrigated so immediately after the permit is granted we will proceed to make final proof of the completion of works and beneficial use of the water.

Yours very truly,

J. H. Andersen

Dear Mr. Andersen:

C In reference to the water right of Land Shelman in connection with his desert claim,

We have just been able to get the information from the Bureau of Land Management but it is still rather indefinite.

O It seems that when this claim was originally filed, the land office was not as strict in requiring copy of the water rights to be used in connection with such claims and when the Shelman filing was originally made, it indicated that the land was to be irrigated from Snake River.

P When the final proof was made recently, it did not state the source from which the land had been reclaimed and the land office inspector wrote to Mr. Shelman for that information, which is probably why Mr. Shelman took the matter up with you.

Y If he is unable to furnish the land department with the necessary information as to the source of water, a field inspection will probably be necessary by the Bureau of Land Management. In that case, if it is found to be from a well or from Snake River, the next step would probably be for Mr. Shelman to file an application with this department for water right and proceed at once to make the statutory proofs of completion of works and beneficial use. In that case, we believe that the Bureau of Land Management would accept this in connection with final proof on the desert claim.

Very truly yours,

Dear Mr. Andersen:

In reply to your letter of November 6, 1951:

We find no record in this department of any filing in the name of Lane Shelman, nor any other permit for a well on Lots 4 and the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 22, and Lots 1 and 2, Section 27, Township 4 South, Range 33 East, B.M.

Your assumption seems correct, that some showing of water right must have been made at the time Mr. Shelman filed his desert entry, but unless he has proceeded under some other permit, we have no record of it.

We do have a record of Permit No. 22305 in the name of James Eugene Shelman for water from a well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$ Section 29, Township 4 South, Range 33 East, B.M., to be used on the W $\frac{1}{2}$ NE $\frac{1}{4}$ and E $\frac{1}{2}$ NW $\frac{1}{4}$ of said section. This permit was filed September 11, 1951.

Very truly yours,

Dear Sir:

Will you kindly advise me if Lane Shelman whether as original applicant or assignee, has a permit and/or water license to irrigate from well -

Lot 4 SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 22, Lots 1 and 2 Section 27, Township 4 South, Range 33 E. B. M.

The land office is asking for the number of the permit or license in connection with final proof that Mr. Shelman made on the above land as a desert entry. I am quite sure that the permit must have been filed with the desert land entry or it would not have been allowed in the first place.

Yours very truly,

J. H. Andersen
