RE: Permit No. 22073

Mr. S. L. DeGiulio
Pingree
Idaho

Dear Mr. DeGiulio:

We wish to acknowledge receipt of proof of Application of water to Beneficial Use in connection with the above captioned Permit.

Said proofs received in correct form. We wish to state, however, that in looking over your Permit records, on file in this Department, that a mistake has been made in overlooking the fact that you did not make proof of Completion of Works on or before May 12, 1953, as stated under the terms of your Permit. A mistake was made by this Department in sending you forms stamped proof of Application of Water to Beneficial Use and Completion of Works, as your Permit required a Completion of Works proof to be made on May 12, 1953. This Permit should have been cancelled prior to this date for lack of proof of Completion of Works.

Since you have gone ahead and made proof of water to Beneficial Use we are going to require that you fill out the enclosed Application for Extension of Time, which is partially made out, and will ask that you complete, giving your reasons etc., and fill out before a Notary Public, and return to this Department. This will extend your time for making Completion of Works proof to May 12, 1956.

We are also sending you forms for proof of Completion of Works, one form for the Holder to fill out and one for each of two witnesses. It will be necessary that you fill out said forms in detail and to be sure and state that works were completed prior to May 12, 1953.

Please comply with this letter and return all forms completed to this Department and we will try and get your proofs all approved for State License.

Very truly yours,
