Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. --

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 21422, dated March 28, 1950; priority March 28, 1950.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Subterranean well or underground stream; point of diversion: Center of NE $\frac{1}{4}$ Section 28, Twp. 1 S.R. 35 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. I have had drilled an 18" well, 245 feet deep, pumped by a 125 horse power pump into sprinkling system; sprinkling system consists of 1 mile main line, with 8 quarter-mile laterals, with 33 nozzles on each quarter-mile; works will produce and convey 4.45 cfs (225"). Casing 15', rest solid rock; operating pressure about 55#, through 264 nozzles, 11/64 x 3/32.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for Irrigation, on E $\frac{1}{2}$ Section 28, Twp. 1 S.R. 35 EBM; SE $\frac{1}{4}$ SE $\frac{1}{4}$ 37 acres are irrigated; other subdivisions 40 acres each. Land is now cultivated, and has been converted from sagebrush and dry farm land into irrigated crop land.

21422

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. --

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. About 3/4 inch of water per acre required for irrigation.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. --

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Works were completed in Spring of 1952, and at least 225 inches of water have been developed and used during crop seasons of 1952, 1953, and 1954.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other water than those diverted under the permit has been used

(Sign)

It is cultivated land and has made productive crop lands out of dry farm ground.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. ---

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Soil is excellent medium silt loam. 6.3 gallons per minute per acre required for profitable cultivation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I helped instal pump on well in March, 1952, and instal sprinkling system, so works would be ready for operation during irrigation period in 1952, and have periodically made inspections since.

Permit No. 21422

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Ronald B. Wilson, 45 years, Idaho Falls, Idaho, occupation in-
stalling irrigation systems; P.O. 1070 9th St., Idaho Falls, Idaho.

Ques. 2. Are you acquainted with Thomas E. Stolworthy, the
holder of Permit No. 21422? How long have you known him and where does
he reside?

Ans. Yes. I have known him about 5 or 6 years; he resides at R.F.D.
#1, Blackfoot, Idaho.

Ques. 3. Have you read or heard read said Permit No. 21422, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Underground stream diverted from well in center of NE $\frac{1}{4}$, Sec. 28,
Twp. 1 S. R. 35. E. B. M.; there is an 18-inch well about 245 feet deep,
water surfaces about 95 feet; then lifted with a 125 hp pump, through
1 mile of steel mainline pipe and 8 one-quarter mile laterals.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. 225 miner's inches. I have seen this amount conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen pump deliver 225 inches; sprinkler nozzles are 11/64ths
x 3/32" operating under about 55# pressure.

21422

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for Irrigation, subdivision and acres in each being as follows: NE $\frac{1}{4}$ NE $\frac{1}{4}$, 40 acres; NW $\frac{1}{4}$ NE $\frac{1}{4}$, 40 acres; SW $\frac{1}{4}$ NE $\frac{1}{4}$, 40 acres; SE $\frac{1}{4}$ NE $\frac{1}{4}$, 40 acres; NE $\frac{1}{4}$ SE $\frac{1}{4}$, 40 acres; NW $\frac{1}{4}$ SE $\frac{1}{4}$, 40 acres; SW $\frac{1}{4}$ SE $\frac{1}{4}$, 40 acres; SE $\frac{1}{4}$ SE $\frac{1}{4}$, 37 acres. Cultivated land now producing irrigated crops.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. --

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Land is a silt loam, naturally arid or dry farm land, and requires approximately 6.3 gallons per minute per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I saw land in February or March, 1952, and assisted in installing pump and sprinkling system at that time, then witnessed the application to beneficial use during irrigation seasons of 1952-3-4.

Dear Mr. Bloom:

We have your letter of February 21 enclosing notice for proof of completion of works and beneficial use to be made on Permit No. 21422 of Thomas E. Stalworthy.

We have set the date for March 28 and are sending a copy of the notice to the Blackfoot Daily Bulletin with instructions to publish it once a week for four weeks prior to that date and to send Mr. Stalworthy the affidavit of publication together with statement of costs.

Since the notice should give the location of the well, we have included it as being in the center of the NE $\frac{1}{4}$ Section 28, Township 1 South, Range 35 East B.M., which is in accordance with the amended Permit as of record in this department. If this is not correct, please advise us at once as it will be necessary to amend the Permit and also to correct the notice sent to the newspaper.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 21422 you are required to complete your diversion works on or before March 28, 1955. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

Gentlemen:

Thomas E. Stolworthy, the holder of the above permit, was in to see us today, and mentioned he had just discovered that the description of the land to be irrigated, as well as the point of diversion, is in error in that it should be Township 1 South, instead of 1 North.

I assume we'll have to file an application for change in place of use and point of diversion.

Also he has changed his plans a little, and instead of using ditches he will instal a sprinkling system.

Further, Mr. Stolworthy reports to me that he has heard that under Permit 29001, Fred W. Manwaring, Leonard H. Manwaring, and Ellwood Manwaring filed for some water to irrigate this same land. Will you please check this and advise me?
