APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, NO. 21323

Comes now Alvin Hoff and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 21323.

That the points of diversion are described in said permit as being located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ and NW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 33, Twp. 2 South, Range 33 East B.M.

That he now requests that an additional point of diversion be added at a point located in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 33, Twp. 2 South, Range 33 East, B.M.

That his reasons for desiring to make such change are as follows: In order to obtain a sufficient amount of water for proper irrigation.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Blackfoot Route # 2, this 18 day of October, 1954.

ATTENTION: Mr. J. Blaine Anderson

Dear Mr. Anderson:

We have your letter of December 13 enclosing duplicate notice for proof of beneficial use on Permit No. 21323 in the name of Alvin Hoff, said proof to be made before you as Notary Public on January 23, 1956.

The report of our field engineer on examination for completion of works showed that these wells would only deliver 428 inches or 8.56 cubic feet per second and beneficial use proof can only be made for that amount.

We have, therefore, corrected the notice accordingly and shall send a copy to the Blackfoot Daily Bulletin with instructions to publish it once a week for four weeks prior to January 23, 1956, and to send Mr. Hoff the affidavit of publication together with statement of costs.

However, we direct attention to the fact that the Certificate of Completion of Works has never been issued on this permit awaiting payment of the \$5.00 fee about which we wrote Mr. Hoff on June 3, 1955.

We enclose the forms of deposition to be used in making beneficial use proof, consisting of one for the Holder and one for each of two disinterested witnesses.

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 21323. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than January 7, 1956, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

RE: Permit No. 21323

Mr. Alvin Hoff
Route #2
Blackfoot, Idaho

Dear Mr. Hoff:

The report of our Field Engineer on examination for Completion of Works on Permit No. 21323 shows that your three wells in the $NW\frac{1}{4}NW\frac{1}{4}$, $NW\frac{1}{4}SE\frac{1}{4}$ and $NE\frac{1}{4}NE\frac{1}{4}$ Section 33, Township 2 South, Range 33 East, B. M., will deliver 428 inches or 8.56 second feet of water.

A Certificate of Completion of Works can therefore be issued for that amount upon receipt of the statutory fee of \$5.00.

Dear Mr. Anderson:

We have your letter of January 8 enclosing depositions of Alvin Hoff and two witnesses, also affidavit of publication in the Blackfoot Daily Bulletin all in proof of Completion of Works on Permit No. 21323.

Before final action is taken the law requires that a field examination be made by an engineer from this Department.

We cannot say just when this examination will be made, but our field engineer will contact Mr. Hoff at the time he makes the examination in order that he may arrange to show him over the ground.

RE: Permit No. 21323

Mr. J. Blaine Anderson

Blackfoot, Idaho

Dear Mr. Anderson:

We put aside your letter of November 6 enclosing notice of proof of Completion of Works on Permit No. 21323 of Alvin Hoff intending to send it to the Daily Bulletin about a month prior to January 6, 1955, the date set for proof.

However, in the pressure of business, this was over-looked and it is now too late for four weeks publication prior to January 6. We have therefore set the date at January 8 and are sending a copy of the notice to the Blackfoot Daily Bulletin with instructions to publish once a week for four weeks prior to that date and to send Mr. Hoff the affidavit of publication together with statement of costs.

If that date will not be convenient for you or Mr. Hoff, will you please set another date and notify the newspaper of the new date and also advise us.

Meanwhile we are enclosing the forms of deposition to be used by Mr. Hoff and his two witnesses in making proof.

RE: Permit No. 21323

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. Alvin Heff
Route 2
Blackfoot, Idaho

Boise, Idaho,

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. 21323.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before January 7, 1955. Upon receipt of the blank properly filled out, notice of publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

MARK R. KULP

Mr. J. H. Andersen
Box 348
Blackfoot, Idaho

Dear Mr. Andersen:

We have your letter of November 9th enclosing application of Alvin Hoff for extension of time for Completion of Works and Beneficial Use on the above numbered permit.

We enclose approval of the State Reclamation Engineer for extension of time for Completion of Works to January 7, 1955. This is the maximum of five years allowed by statutes.

It is unnecessary to apply for extension on Beneficial Use proof since the permit allowed an additional year for making this proof after proof of Completion of Works has been made, so the extension of time for Completion of Works to January 7, 1955, automatically extends the time for Beneficial Use to January 7, 1956.

There is no fee in connection with this extension, so we return you check for \$1.00 which was enclosed in your letter.

Very truly yours,

MARK R. KULP

Dear Mr. Kulp:

In Re: Permit No. 21323

In connection with the above permit the undersigned has been able to complete one of the wells described in said application, but has been unable to get the well drillers to finish the other well before the 7th day of January, 1953.

I believe the well will be finished at least by June of 1953 and I respectfully request extension of time of one year on said permit for completion of works and one additional year for the proof of application of the water to beneficial use. The time, including the proposed extension of time, will be within the five years. One half of the work on the entire permit is already finished.
