Re: 93834

Dear Mr. Archibald:

Enclosed, License No. 20907, as corrected.

The Affidavit of Holder of Proof of Completion of Works, August 15, 1956, stated under question 7 "That said works are capable of conducting to the place of intended use 200 inches of water". The Certificate of Completion of Works was issued in accordance with the statement of the holder. Hence, the amount of 4. shown on License.

At the time the engineer made inspection of beneficial use, he found the works capable of conveying 4.28 second feet of water, and the License was issued for that amount.

By your request, we have changed the License to read: That Certificate of Completion of Works, with carrying capacity of 4.28 second feet was issued, etc. Also, the record of the Certificate of Completion of Works has been changed to show that certificate was issued to show the works adequate for conveying 4.28 second feet.

By this letter, you are authorized to change the Certificate of Completion of Works to read that works are adequate for diverting and conveying to the place of intended use 4.28 second feet, of subterranean water.

This error should have been corrected by the Holder in the Affidavit of Proof of Completion of Works.

Very truly yours,

Ans. At least 250 Miners inches: between 240 and 250 Miners In.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. From 240 to 250 Miners Inches, From experience in observing many pumps and a knowledge of the performance they will make.

20907

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

2 Ans. Irrigation (farm); I would estimate app. 70 acres in Sec. 33 and app. 145 acres in sec. 34 have been irrigated and are under cultivation. Two and one half miles of ditch, two open drains, and one bridge, also 80 acres of land leveling.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Lava ash soil, requires about 1 miners inch of water to the acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the pumps operate from 1955 until the present at app. 240 to 250 miners inches capacity and such water has been applied to the above described acres.

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Glen Perry Larsen, 36 year of age, Bingham County Route # 2,
Farmer.

Ques. 2. Are you acquainted with Myrthin Dean Halverson, the
holder of Permit No. 20907? How long have you known him and where does
he reside?

Ans. Yes. I have known him about 10 years. He resides at
Riverside, Idaho on Route #2

Ques. 3. Have you read or heard read said Permit No. 20907, and are you
familiar with its provisions and conditions?

Ans. yes, I am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. Underground water: About 250 ft. East and 25 ft. South of the
NW corner of Sec. 34 T. 1 S., Range 34, B.M.
One pump and cement discharge and dirt ditches

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. The ditches will carry at least 300 miners inches. I would
say approximately 240 to 250 miners inches.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. APP. 240 to 250 miners inches. I arrived at this by past
experience of watching similar pumps measured and also by computing
the lift and horsepower of the pump.

20907

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Farm irrigation. I do not know the subdivisions but I would estimate Myrthlin has about 175 to 200 acres under cultivation in Sections 33 and 34.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Lava Ash Soil with slope which requires from 1 to 1½ miners inches per acre.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen the water being used for the past two years. I live neighbor to the man and have seen app. 240 to 250 miners inches of water being applied to the said acres.

Dear Mr. Halverson:

We are returning, herewith, your proofs of Application of Water to Beneficial Use for the following corrections:

In answer to Question 6, it will be necessary for you to show the number of acres irrigated within each forty acre subdivision in Section 33 and 34. The Permit shows that your land use is the SE $\frac{1}{4}$ Section 33 and the SW $\frac{1}{4}$ Section 34, Township 1 South, Range 34 East, B.M.

We notice also that publication notice calls for the depositions to be taken at 10:00 A.M. on the 21st day of September, 1956. We notice on the proofs that the said depositions were taken on the 24th day of September, before Notary Dean Williams.

Since these depositions were not taken on the 21st of September as they should have been, it will now be necessary for you to supply this department with an affidavit from the Notary, Mr. Williams, stating that his office was open on the 21st day of September for business and that no protests were received as of that date against the application of water to beneficial use on Permit No. 20907.

Please furnish us this information and return to this department.

Dear Mr. Williams:

We are again writing you in regard to Mr. Halverson's check for the amount of \$5.00, which was issued for fees in connection with the Proof of Completion of Works on Permit No. 20907.

On September 14, 1956, we wrote you that the check had been returned to us marked "Insufficient Funds." In your letter of September 17, 1956, you ask us to put the check through again which we did but it has been returned to us again for the same reason.

The check is now so badly marked that it will be necessary for us to ask for another check in the amount of \$5.00.

We are requesting Mr. Halverson to give this matter his immediate attention.

BOISE, IDAHO

Dear Mr. Kulp:

Please send me all the forms and advise me on the procedure necessary to make final proof on Desert Land Entry Permit No: IDAHO 0223, applicant's name being MYRTHIN D. HALVERSON.

The applicant made his first entry on the 21st day of August, 1952, thus the four year period ends August 21, 1956. If final proof must only be in process by this date advise me but if final proof should have been completed by that date please send me the necessary forms requesting an extension until final proof can be completed.

Immediate response will be appreciated.

THANK YOU

Dear Mr. Halverson:

We enclose approval of the State Reclamation Engineer for extension of time for Completion of Works on Permit No. 20907 to August 21, 1957, or five years from the date your Desert Land Entry was allowed.

This should be attached to the original permit of which it now forms a part.

Very truly yours,

Dear Sir:

In regards to well permit no. 50907 to be used on Township 1 South, Range 34, East Boise Meridian.

$E\frac{1}{2}SE\frac{1}{4}$, section 33; $W\frac{1}{2}SE\frac{1}{4}$, $SW\frac{1}{4}$ section 34.

The Department of the Interior did not give me approval to start to prove up on said ground until August 21, 1952.

With the sage brush on the ground it was too difficult to survey for well and ditches.

After plowing the ground twice and getting rid of the sage brush it was to late last spring to put in a crop. Having to get financial help on drilling the well and buying the pump I thought it best to wait until this early spring to drill and set the pump down.

20907

The interest on money can get rough if let go very long so by doing it this way thought it would save quite ~~some~~ a little money.

I will start to drill the well in the next 30 to 60 days and will be able to make proof on said permit this coming fall. Hope this is alright and I can be granted a year extension.

Sincerely yours,
M. D. Halverson

Mr. Myrthen Dean Alverson

Blackfoot, Idaho

Dear Mr. Alverson:

Reference is made to your letter of January 12th requesting an extension of time for Completion of Works on Permit No. 20907.

If we understand your letter correctly and this filing was made in connection with a Desert Land Entry which was not allowed until August 21, 1952, an extension can probably be allowed upon receipt of a letter from you stating the circumstances, that is that you were unable to proceed with construction pending allowance of the Desert Land Entry and giving the date of such allowance.

There is no special form for this, but your application can be made by letter.

Very truly yours,

Dear Sir:

In regards to the letter on completion of diversion work on well permit no. 20907 would like a year extension. I did not get the approval to go to work on the land until August 21, 1952.

I have got the brush of and some surveying done for the ditches. I will start to drill the well in the next 30 to 60 days.

Was hoping to get over to Boise and talk to you but just can't seem to get out from under the work to get there. If I have to fill out a form for the extension will you please mail me one and I will fill it out and send it back.

Sincerely Yours

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Myrthin Dean Halverson
Route 2
Blackfoot, Idaho

Boise, Idaho

Dear Sir:-

Under the terms of your permit No. 20907 you are required to complete your diversion works on or before January 26, 1954. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KULP
