Dear Mrs. Cooper:

We have your letter of July 31, 1951, in regard to fee mentioned in office letter addressed you on July 2, 1951.

It is true that you paid the \$5 fee in connection with proof of completion of works. The additional fee of \$2 mentioned in letter of July 2, is the statutory fee required on your final proof, or proof of beneficial use and is at the rate of \$2 for each 40 acre subdivision on which your irrigated land is located.

Dear Mrs. Cooper:

We have received from Mr. M. D. Lindscheid, Notary Public, the corrected depositions of yourself and two witnesses, which, together with the Affidavit of Publication in the Aberdeen Times previously received, completes your Proof of Beneficial Use under Permit No. 20798.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We cannot say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Dear Mr. Lindscheid:

We acknowledge receipt of the depositions of Olga B. Cooper and two witnesses, also Affidavit of Publication in the Aberdeen Times, all submitted in Proof of Beneficial Use under Permit No. 20798.

However, none of these depositions give the legal description of the land that has been irrigated, as called for in Question 6 in the deposition of the holder and Question 7 of the depositions of the two witnesses.

We are therefore returning the depositions for such completion.

Re: Permit No. 20798

Mrs. Olga B. Cooper
Springfield, Idaho

Dear Mr. Cooper:

We acknowledge receipt of your letter enclosing Proof of Completion of Works under Permit No. 20798, together with your check for the \$5.00 fee in connection therewith.

We return your Affidavit for completion as follows:

1. Under Question 3, give the location of the well to a 40 acre subdivision, Section, Township and Range.
2. Under Question 6, state whether the works were or were not completed; also describe same more fully by giving the depth and size of the well and casing, and the kind and size of the pump. This can probably be done better under Question 9 or "Remarks".

We note that you are prepared to make Beneficial Use Proof. This requires four weeks publication in a county newspaper prior to making the proof. The notice should be made in duplicate on Form 10 enclosed, setting the time and place, and naming the Notary Public before whom the proof is to be made. The time, of course, should be set sufficiently far ahead to allow for the four weeks publication, and the place may be at Springfield or any other place convenient to yourself and your two witnesses.

Both copies of Form 10 to be returned to this Department, together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

PROOF OF COMPLETION OF WORKS

Olga Berg Cooper

Springfield, Idaho

Boise, Idaho **October 2, 1950**

Dear ~~Sir~~ Madam:

Under the terms of your permit No. 20798 you are required to complete your diversion works on or before December 18, 1950. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
